(1) Board of Directors and business execution body

The Board of Directors (convenes at least once a month), according to the Board of Directors' Regulations, deliberates and decides important management matters, including legal matters, and supervises the execution of business. The maximum number of Directors is 12 in order to promote agile management decision-making by the Board of Directors, and the term of office is one year to clarify their responsibilities to the shareholders. There are currently 12 incumbent Directors including three Outside Directors with wealth of experience in and broad insight into economy, finance, management and corporate legal affairs. These two Outside Directors are supervising the management from an independent third-party standpoint.

No personal, capital, transactional or other relationship that would present a conflict of interest exists between the Company and the Outside Directors.

The maximum liability amount under such contracts shall be the amount stipulated in laws and regulations. However, the aforementioned liability limitation shall be applied only in cases where such Outside Directors executed their duties in good faith and without gross negligence. As the chief executive responsible for business execution, the President appointed by the Board of Directors exercises control over the execution of business in the Group. Every executive officer (one-year term of office) appointed by the Board of Directors is responsible for business execution in the Group organization. As the heads of internal companies, divisions and major functional organizations, the executive officers bear responsibilities for operations and business results. In this way, the Company clearly separates the responsibilities of Directors, that is, decision-making and supervision on the management, from the responsibilities of business execution. Some Directors hold concurrent positions as executive officers. The President has established the Executive Committee (in principle, convenes twice a month) and various other councils and committees to deliberate and report on important matters concerning the Group's management policies and business execution.

- Ms. Tomomi Yatsu is appointed as Outside Corporate Auditor because she has broad insight as a certified public accountant and attorney at law and a wealth of experience as outside officer of other companies.

Pursuant to Article 427, Paragraph 1 of the Companies Act, the Company has entered into contracts with Corporate Auditors which limit their liability for damages under Article 423, Paragraph 1 of the same Act. The maximum liability amount under such contracts shall be the amount stipulated in laws and regulations. However, the aforementioned liability limitation shall be applied only in cases where such Corporate Auditors executed their duties in good faith and without gross negligence.

In addition, staff for corporate auditors are appointed to assist the duties of Corporate Auditors.

(3) Status of Accounting Auditor

No special interests exist between the Company and the Accounting Auditor, PricewaterhouseCoopers Aarata LLC, or the engagement partners of the auditing firm who audit the Company. In May 2017, as an effort to further strengthen risk management and compliance and enhance internal control, the Risk Management and Compliance Subcommittee has been separated from the CSR Committee, and made into an independent committee that reports matters at the Board of Directors meetings. At the same time, the two subcommittees under the CSR Committee have been abolished, and the mobility of the working team underneath it will be enhanced to increase the proposal capability to the management.
