- * Figures represent those for sums of individual insurance and individual annuities excluding figures of insurance premiums and others.
- * Policy amounts of surrenders and lapses are not offset by the amounts of lapses which are reinstated.
- * Insurance premiums from individual insurance sector are the total of premiums from individual insurance and individual annuities; income.

 insurance premiums from group insurance sector are the total of premiums from group insurance and group annuities.

 * Figures of annualized premiums represent the sum of those of individual insurance and individual annuities. Annualized premiums are calculated by multiplying the amount of a
- * Figures of annualized premiums represent the sum of those of individual insurance and individual annuities. Annualized premiums are calculated by multiplying the amount of a single premium installment payment by a multiplier determined according to the relevant payment method to arrive at a single annualized amount. (For lump-sum payments, annualized premiums are calculated by dividing the total premium by the insured period.)
