Gross Profit on Property Sales to Investors

(Unit: ¥ billion)

*1 Calculated by aggregating total investment amount, in which construction costs, etc. that arise after the acquisition are added to the book value of each property at the time of acquisition.

*2 Calculated by subtracting the "total investment amount" from the total estimated sales amount, which is provisionally calculated based on the estimated income and expenditure and the estimated cap rate at the time of sale for the property assumed to be sold.

- Cash and cash equivalents at end of the period increased due to recovering investments through sales of condominiums for sale and properties for investors and fundraising such as borrowing, although there were expenditures related to investments in real estate for sale and acquisition of non-current assets.

- It is necessary to monitor events that have an impact on profitability such as construction costs and interest rate trends.
- Profitability is determined by taking into account the trend of rising prices when considering acquisitions of new projects.
- We will promote the planning of new products with a view to diversification of work styles and living styles based on changes in the external environment centered on the Commercial Properties and Residential businesses.

Recognition of the overall business environment and impact on Tokyo Tatemono

Construction expenses	<ul style="list-style-type: none"> The trend of rising construction expenses continues.
	<p>Projects that started in or before FY2022</p> <p>Almost no impact.</p>
	<p>Projects that were acquired or yet to start in FY2022</p> <p>Construction expenses are rising compared with the anticipation when the sites were acquired. We will focus on cost management and endeavor to secure the initially anticipated profit.</p>
	<p>New projects that started in or after FY2023</p> <p>Decisions on investment value will be made based on trends in construction expenses.</p>
Interest rates	<ul style="list-style-type: none"> Interest rates are rising, but the impact has been suppressed because steps have been taken in financing (borrowing, etc.) to lengthen loan durations and maturity dates and to use fixed interest rates. Although the cap rate in real estate transactions has not shown any signs of significant change recently, it is necessary to monitor future trends.

Recognition of the environment in each segment and Tokyo Tatemono's initiatives

Commercial Properties	<ul style="list-style-type: none"> The continuing moderately high level of the market vacancy rate must be monitored. The likelihood of vacancy rates and rent levels significantly deteriorating is expected to be low because Tokyo Tatemono has a superior portfolio in terms of size and location and there has been little impact recently. In addition to excellent locations and high specs, Tokyo Tatemono's policy is to respond to changing and diversifying customer needs such as improvement of productivity, well-being and flexibility.
Residential	<ul style="list-style-type: none"> Demand for for-sale condominiums remains excellent among real consumers in central Tokyo and suburban areas despite anticipation of a rise in mortgage rates. Tokyo Tatemono will promote product planning that meets rising demand for balancing a comfortable work environment with relaxing living space.
Asset Service	<ul style="list-style-type: none"> Brokerage: The brokerage business is expected to continue to perform well backed by a steady real estate transaction market. Parking business: Focus will be on acquiring new projects, and an increase in the number of parking spaces and growth are expected
Other	<ul style="list-style-type: none"> Leisure business: Dog-friendly hotels and golf courses performed well. Bathing facilities also recovered to pre-COVID levels. Aim for further improvement of profitability.

- In FY2024, revenue and profit are expected to increase due to factors such as an increase in sales and gross profit of for-sale condominiums.

- The trends in business profits and profit attributable to owners of parent for the previous fiscal years are as follows:
We aim to achieve business profit of ¥75.0 billion, the target under the medium-term business plan, in FY2024.

Image of Profit Growth When Formulating the Medium-Term Business Plan (As of February 2020)		Changes Since Start of Medium-Term Business Plan	
Commercial Properties: – Building leasing, etc.	Although the number of buildings in operation decreased with the progress of redevelopment projects, rent income is anticipated to be maintained due to expected internal growth through upward rent revision.	The pace of upward rent revision has slowed due to oversupply of offices as a result of the spread of new work styles. External growth was also lower than anticipated.	
Residential: – For-sale condominiums	Stable profit is expected to be recorded through continued acquisition of development opportunities.	Sales prices increased more than initially anticipated, and the gross margin also increased. Sufficient land bank was also secured.	
Other	Growth in brokerage, fund business, parking business and overseas businesses is expected.	Growth slowed more than anticipated mainly in overseas businesses and the parking business due to the impact of the COVID-19 pandemic, etc.	
Property sales to investors	Income growth is expected due to ongoing acquisition of development opportunities and flexible sales.	Recording of higher gains on sales than anticipated continues, backed by a strong real estate transaction market.

■ Shareholder returns policy

During the period of the medium-term business plan (FY2020–FY2024), establish a baseline consolidated payout ratio of 30% or more and aim to increase shareholder returns continuously through sustainable growth.
Consider whether to repurchase company shares based on the business environment and financial situation, among other factors.

^{*1} A 1-for-2 reverse stock split was implemented on July 1, 2015. The figures for 2013 to 2015 are calculated by factoring in the reverse stock split.

^{*2} The interim and year-end per-share dividend for FY2016 both include a ¥2 commemorative dividend to celebrate the 120th anniversary of Tokyo Tatemono's founding.

^{*3} Dividend yield is calculated based on the closing price at the end of each fiscal period.

- Access to various locations including regional cities, areas in Tokyo and international airports is excellent due to the existence of bullet trains, existing JR lines and multiple subway lines, giving the area **overwhelming transportation convenience**, its main feature.
- Nearby are business areas, commercial/tourist areas and areas popular for residential purposes. Urban development that utilizes **diverse regional features** including the rich cultural resources and concentration of long-established corporations is expected.
- With highly diverse properties suitable for startups and several innovation hubs, the area's **innovativeness** has been accelerating in recent years.
- The land value and suitability for offices lag behind the Otemachi-Marunouchi-Yurakucho area, but the value of the area as a whole is expected to increase significantly going forward with the various redevelopment projects planned.

Diverse Regional Features and Potential of the YNK Area^{*1}

Overwhelming transportation convenience

- In the Medium-Term Business Plan, we have set a business profit target of ¥75 billion in profit for FY2024. In addition, we have set targets for ROE, the debt-equity ratio, and the interest-bearing debt to EBITDA multiple in order to optimize the business portfolio in consideration of capital efficiency and fiscal discipline.
- Looking towards 2024, we plan to increase profit on property sales centering on property sales to investors.

Profit/Financial Plan – Figures for FY2024

Profit Target	Consolidated business profit	¥75.0 billion
Capital Efficiency	ROE	8~10 %
Financial Indicators	Debt-equity ratio	Appr. 2.4x
	Interest-bearing debt / EBITDA	Appr. 12x
Reference Figures	Consolidated operating profit	¥70.0 billion
	Profit attributable to owners of parent	¥45.0 billion

Consolidated Business Profit Trend by Segment

Business Portfolio Concepts (1)

- Our business portfolio can be classified into three categories based on their profit characteristics: leasing, property sales (for-sale condominiums/sales), and services. We manage each segment with a focus on the value chain.
- We promote five key strategies with a focus on the balance between profitability, efficiency, and stability.

Business classification and management by profit characteristics, with awareness of the balance between profitability, efficiency, and stability

	Profit Type	Characterized by
Leasing	Profit from leasing offices, condominiums, etc.	<ul style="list-style-type: none">• Highly stable profit• Requires significant investment
Property Sales	Development profit, acquired from sale of properties held	<ul style="list-style-type: none">• Highly volatile profit• High capital efficiency
Services	Fee revenue from facility management/operation, provision of services	<ul style="list-style-type: none">• Highly stable profit• Does not involve significant investment

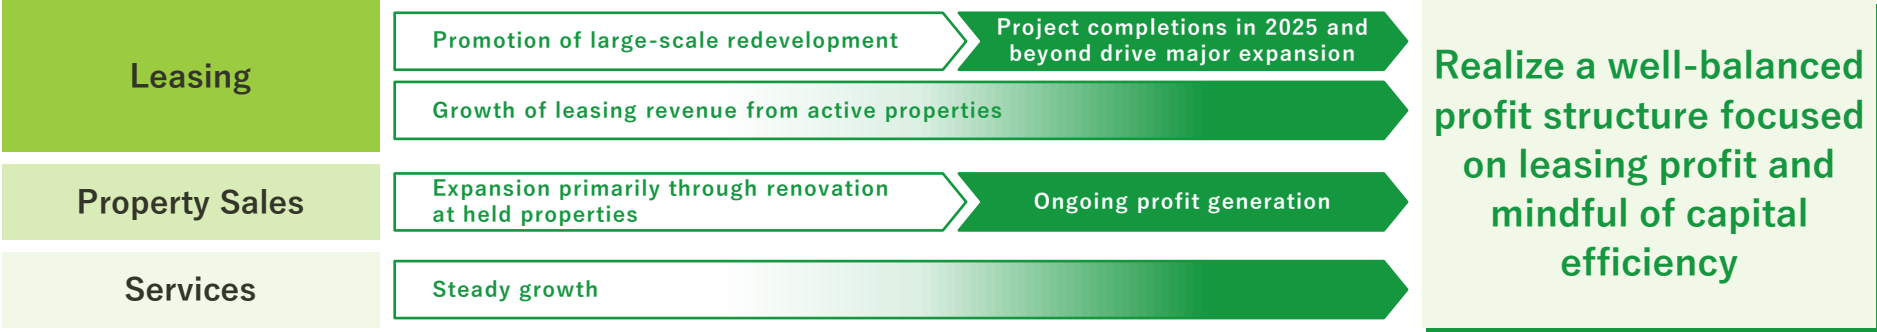

Key Strategies and Their Profit Sources

Key Strategy	Profit Source
(1) Promotion of large-scale redevelopment	Leasing
(2) Further strengthening of for-sale condominium business	Property sales
(3) Expansion of property sales to investors	Property sales
(4) Strengthening of brokerage, fund, and parking businesses	Services
(5) Growth in overseas business	Property sales

Business Portfolio Concepts (2)

- Working under our five key strategies, we are steadily growing our Services area, with profit growth driven especially by the Property Sales area through 2024 and expansion of Leasing in 2025 and beyond, achieving a well-balanced profit structure mindful of capital efficiency.

Projected Shift in Per-Area Profit Over Time

* The percentages in the graph show the approximate composition ratio

Management Mindful of Capital Efficiency

- We will target enhancement of ROA by improving margin and turnover, appropriate control of the debt-equity ratio through earnings growth and asset sales, realization of ROE of 8% to 10%, and optimization of our business portfolio and asset composition.

Investment Plan

- Estimated net investment of ¥500.0 billion in total over five years.
- In addition to enhancing equity capital through stable profit growth, we aim to optimize our asset composition by selling non-current assets in consideration of profitability and reducing cross-shareholdings in order to either maintain or reduce the debt-equity ratio and simultaneously control the balance sheet in an appropriate fashion.

Medium-Term Investment Plan (Cumulative)

Unit: ¥ billion

Gross investment	1,400.0
Investment in large-scale redevelopment	230.0
Investment in for-sale condominium projects	430.0
Investment in properties for sale to investors	550.0
Investment in the overseas business	70.0
Other	120.0
Recovered	900.0
Net investment	500.0

Balance Sheet Changes

*Assumed at time of announcement of Medium-Term Business Plan in February 2020

■ Unrealized gain remained at a high level of ¥529.4 billion.

(Unit: ¥ billion)	2022/12-end	2023/12-end	Increase/ Decrease
Fair value at end of period	1,417.6	1,446.8	29.2
Amount on B/S (carrying value)	891.1	917.4	26.2
Amount of difference	526.4	529.4	3.0

■ Subject properties

Of non-current assets, properties that are currently leased to third parties or properties under development that are scheduled to be leased after completion by the Company and its subsidiaries (including properties where a portion is used by the Company and its group companies) are subject to calculation

■ Method of calculation

For properties newly acquired during the fiscal year or properties under development at the end of the fiscal year, the book value at the end of the fiscal year is taken as the fair value

Unrealized Gain

(¥ billion)

BPS and Adjusted BPS*1 Trend

(¥ per share) ■ BPS ■ Unrealized gain*2 (net of tax)

*1 Adjusted BPS = BPS + (Unrealized gain, net of tax) / Number of shares issued and outstanding at end of period, excluding treasury stock

*2 Unrealized gain, net of tax = Unrealized gain × (1 - Statutory tax rate applicable to each fiscal year)

Recognition of Current Situation

- ROE is at the target level in the Medium-Term Business Plan (9.6%) and remains at a level exceeding shareholders' equity costs (CAPM estimate: approx. 7% to 8%).
- On the other hand, the current PBR is at a level below 1.0 times, with low PER recognized as the main factor behind this.
- Going forward, in addition to maintaining/increasing ROE, it will be necessary to improve profit stability and foster growth expectations with the aim of improving PER.

PBR

*1: As of December 29, 2023

ROE

PER

*2: As of December 29, 2023

By improving profit stability and fostering growth expectations in addition to maintaining and enhancing ROE, evaluation by the stock market will become more favorable.

Initiatives to Enhance Corporate Value

Maintaining/ enhancing ROE

Through optimizing the business portfolio, asset composition, etc. based on “management that is mindful of capital efficiency,” as set forth in the Medium-Term Business Plan, we aim to steadily meet the plan’s target ROE (FY2024: 8% - 10%) and subsequently achieve an ROE exceeding that level in the long term.

(Key Initiatives)

- **Enhancing profit margin in each business**
 - Ingenious land acquisition that leverages our strengths
 - Steady promotion and leasing of large-scale redevelopment projects
 - Focusing on cost management
- **Enhancing capital efficiency**
 - Enhancing sales of for-sale condominiums and property sales to investors
 - Expanding fee revenues in tandem with group AUM growth
- **Appropriate control of balance sheet mindful of capital efficiency**
 - Sales of non-current assets, revision of business portfolio
 - Reducing cross-shareholdings
 - Financial leverage control based on fiscal policy

Enhancing profit stability Fostering growth expectations

Reducing shareholders’ equity costs

In addition to increasing market confidence by deploying our tolerance to environmental changes to steadily generate profit, we will foster a sense of expectation by showing the probability of sustainable profit growth and enhanced shareholder returns in the future in our results and strategies.

(Key Initiatives)

- **Enhanced disclosure and proactive and attentive dialogue**
 - Comprehensive disclosure of strategies and initiatives aimed at sustainable growth
 - Enhancing engagement with investors
- **Improved shareholder returns**
 - Increasing dividends based on sustainable profit growth (including raising the payout ratio and considering progressive dividends)
- **Evolved approach to ESG management**
 - Accelerating sustainability initiatives
 - Lowering business risks by enhancing risk management
 - Developing human capital
