MIXI Receives Second Consecutive AA Rating in MSCI ESG Ratings

This March, MIXI, Inc. (hereinafter, "MIXI") has received a rating of AA for the second consecutive year from MSCI (Morgan Stanley Capital International) in their MSCI ESG Ratings. The MSCI ESG Ratings assign scores to companies worldwide based on their ESG initiatives and information disclosure.

The MSCI ESG Ratings use a rules-based methodology to measure a company's responsiveness to long-term, industry-specific sustainability risks. MSCI analysts examine and rate companies on a seven-point scale from AAA to CCC based on their exposure to these risks and how well they manage them compared to their peers.

In this year's evaluation, MIXI received particular recognition for its efforts in human resource development and proactive information disclosure. We have also been selected as a constituent for the MSCI ESG indices, "MSCI Japan ESG Select Leaders Index" and "MSCI Japan Empowering Women (WIN) Select Index".

Our sustainability statement: "We will contribute to the enrichment of society through the creation of communication services that connect hearts and minds", guides us as we continue to further our efforts to solve social issues and disclose information in line with our eight material issues.
