Website for TKR de México S.A. de C.V. Established

August 26, 2020

TKR de México S.A. de C.V. (hereafter, "TKR Mexico") has established a website. TKR Mexico is North & Central American base for TKR CORPORATION, which operates the EMS business in the nms Group.

In addition to its four businesses, which include manufacturing and repair of IT-related components and use of resin molding technology in molding and fabrication, TKR Mexico operates businesses in design and development of automated equipment, repair, customer service, and a call center. It provides one-stop shopping for solutions in planning, development, manufacturing, and logistics.

The website provides easy-to-understand descriptions of these businesses to enable more people to understand TKR Mexico's business.

The website was initially launched in English only, however the company intends to gradually add versions in Japanese and Spanish.

Business developments will also be posted on the website in the future to communicate them to everyone.
