1. FY’27/2 Q2 Consolidated Results
2. FY’27/2 Q2 Segment Results

© dip Corporation.

Sales decline narrowed, driven by an increase in contracted companies in the Personnel Recruiting Services Business and a return to revenue growth in the DX Business.

Strengthening advertising investment in Q2, when hiring demand softens, resulted in an operating loss.

（Unit：Million Yen）

		FY’26/2 Q2 Results	**FY’27/2 Q2 Results**	**YoY**
Entire Company	Sales	13,063	**11,830**	(9.4%)
	Operating income	2,064	**(761)**	-
	Ordinary income	2,067	**(821)**	-
	Net income attributable to owners of parent	1,420	**(1,202)**	-
Personnel Recruiting Services Business	Sales	11,445	**10,204**	(10.8%)
	Segment Profit	3,488	**247**	(92.9%)

Increased advertising investment in Baitoru,
returning MAU to levels that once again surpass competitor services.

Aiming to increase unit prices for major clients and staffing agencies in H2,
alongside client base expansion.

■ Baitoru vs. Competing Service MAU trends

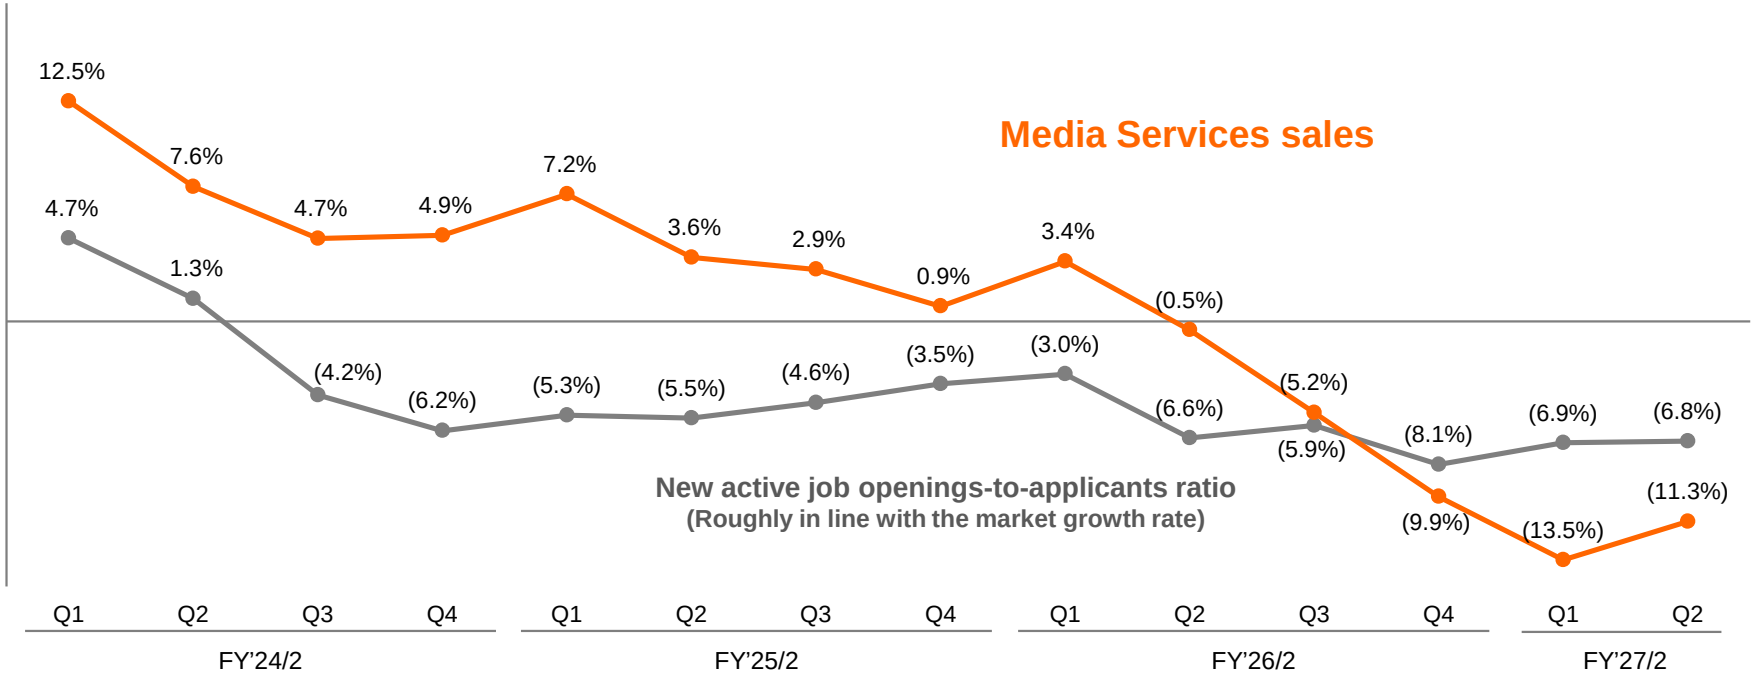

Source: Sensor tower *Monthly Active Users

© dip Corporation.

Higher application volume driven by stepped-up ad investment eased the rate of sales decline, marking a shift toward a recovery trend.

Due to the competitive environment and struggles in the agency business, growth continues to trail the market rate.

■ Media Services sales YoY vs New active job openings-to-applicants ratio YoY

Source
New active job openings-to-applicants ratio: The Ministry of Health, Labor and Welfare's "General Employment Placement Report (Job Security Service Statistics)".

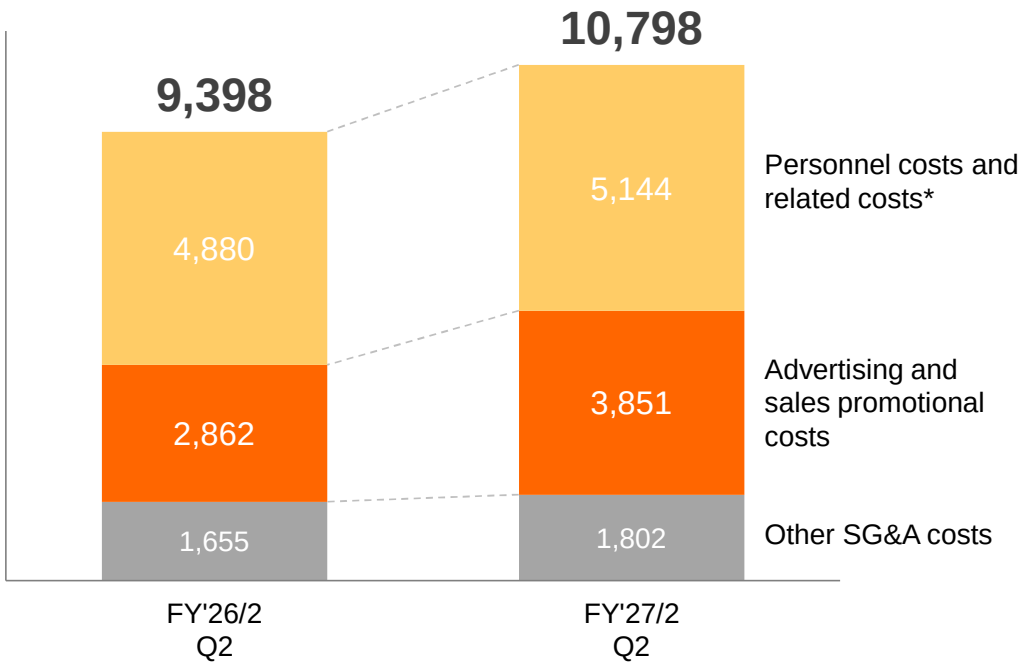

© dip Corporation.

By decreased sales and hiring 532 new graduates, personnel costs increased (+6.1%pt)

Advertising investment in existing services increased, and the ratio to sales rose YoY (+10.7%pt)

■Breakdown in SG&A

(Million Yen)

【Personnel costs and related costs】
Increase due to factors such as the addition of 532 new graduates (including 517 sales staff)

【Advertising and sales promotional costs】
Strengthen advertising investments for existing services.

【Other SG&A costs】
Increase in rent due to expansion of head office.

* Personnel costs and related expenses include salaries and welfare benefits as well as recruitment related expenses and educational expenses.

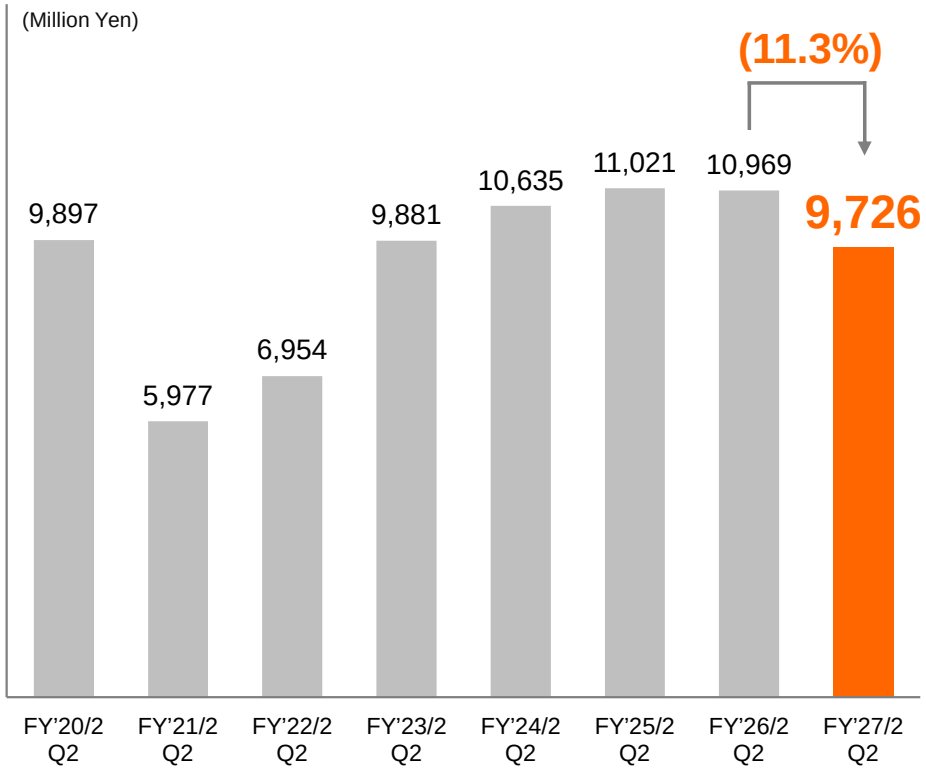

© dip Corporation.

Acquisition of the SMEs drove the number of client companies back to positive growth.
Meanwhile, unit prices declined, particularly among major companies and recruitment agencies.

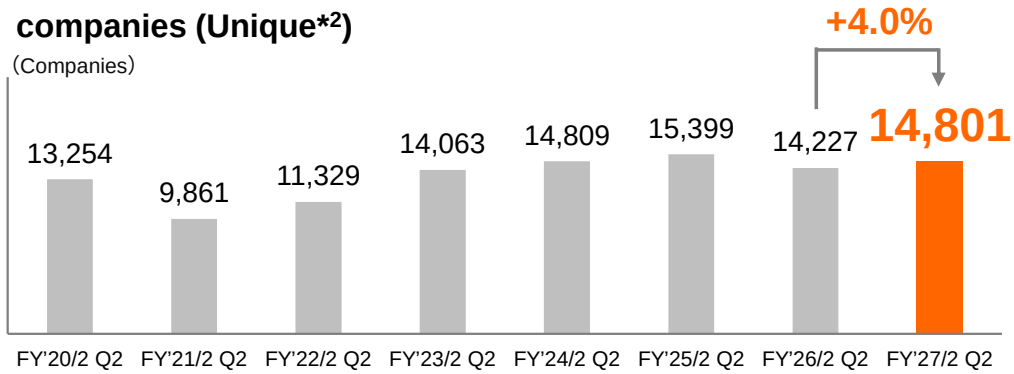

By accelerating the capture of market share from competitors,
we aim to increase the unit price per contract with major companies.

■ Media Services*1 sales trends

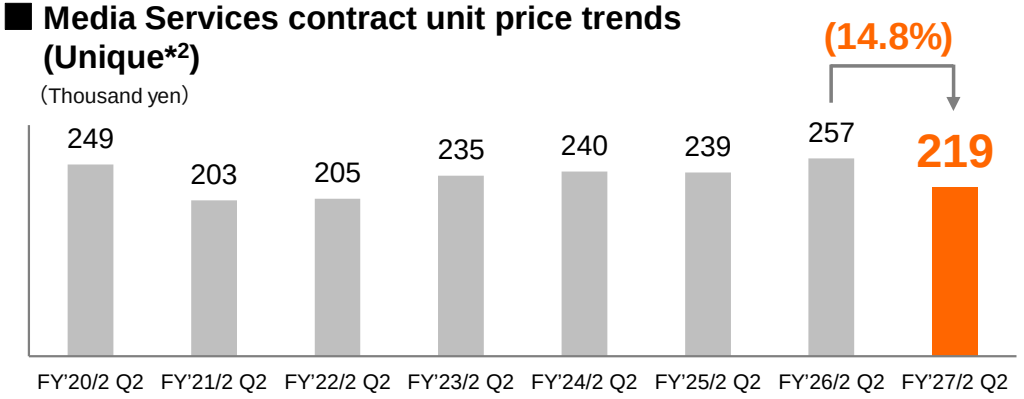

*1 Media Services: Baitoru, Baitoru NEXT, Baitoru PRO, Hatarako.net

■ Media Services number of contracted companies (Unique*2)

■ Media Services contract unit price trends (Unique*2)

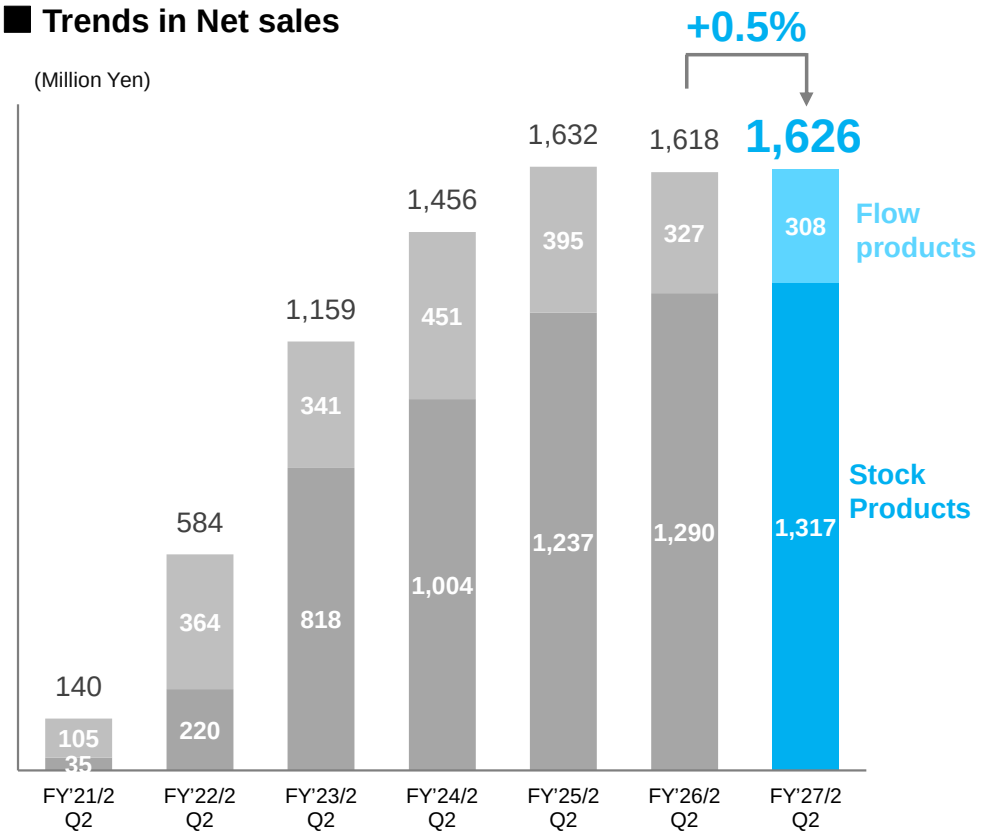

*2 Companies subscribing to multiple media (Baitoru, Baitoru NEXT, Baitoru Pro and Hatarako.net) are counted only once

Note： Figures for periods prior to FY’22/2 are estimates based on the revenue recognition standard.

Client referrals from financial institutions are increasing

In certain areas and industries, we achieved zero cold calls through increased referral-based leads.

■ Trend in the number of clients acquired through the Zero Project

＜Project schematic diagram＞

*1 banks, credit unions, etc.

© dip Corporation.

5. Advancement of the "Zero Advertising and Promotion Costs Project”

Content production and sales is expanding steadily. Cumulative video views for in-house content have surpassed 67 million since the launch of the project (April). Aiming to further enrich content, increase the user base and boost customer attraction.

Commercialize the production and sale of content for hiring companies, and aiming for effectively zero advertising and promotional expenses over the medium to long term.

■ Launch "BizReal," the first SNS video content service in the recruitment industry

■ Examples of newly released video content

03 Full-Year Earnings Forecast for the FY’27/2

© dip Corporation.

Full-Year Earnings Forecast for the FY’27/2

Revised revenue and profit forecasts downward due to delayed sales recovery relative to initial expectations (driven by competition and agency business factors) and continued active advertising spend.

Driven by strategic investments made in the current fiscal year, ongoing gains in competitiveness and market share will return sales and profit to a growth path next fiscal year.

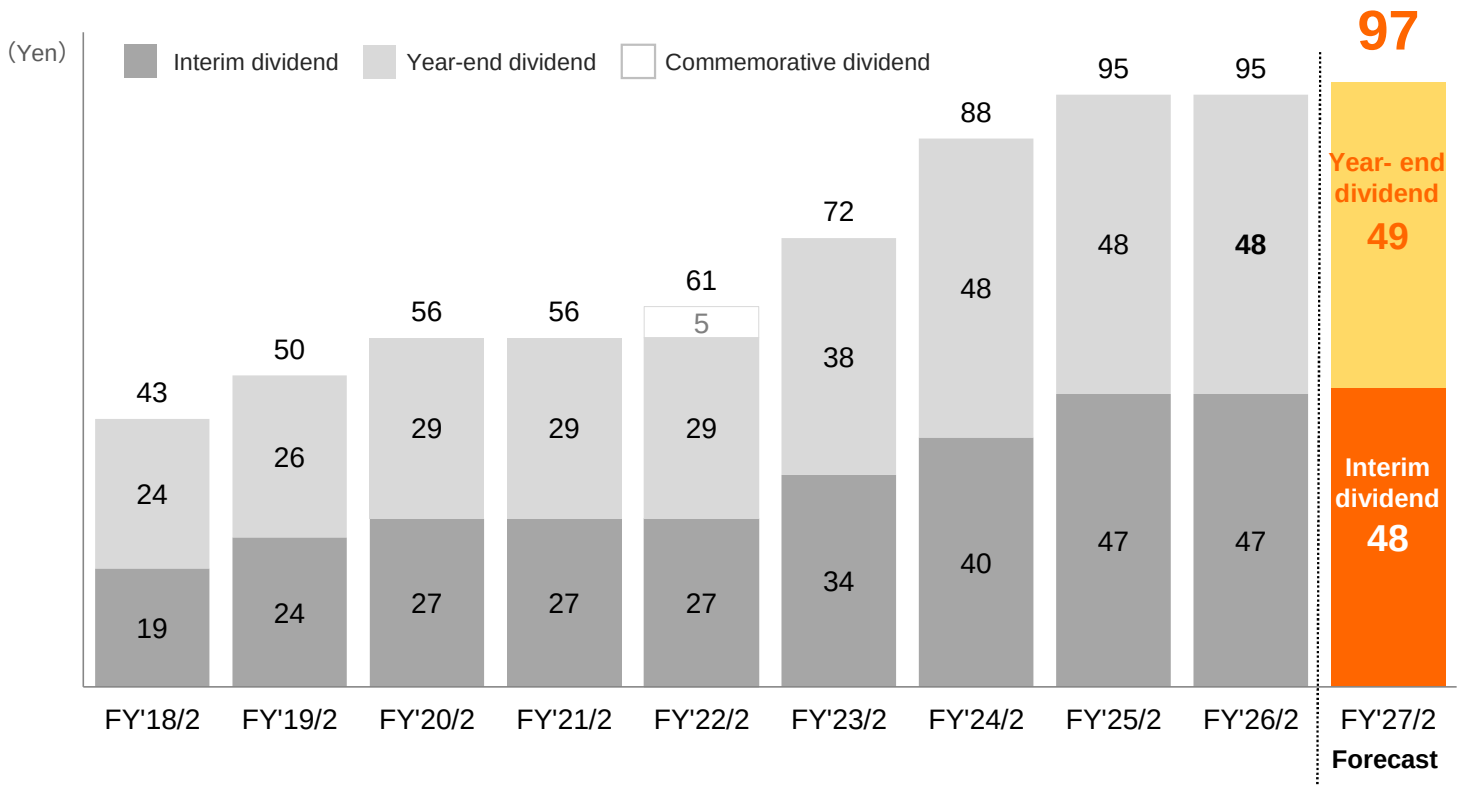

© dip Corporation.

04 Shareholder Returns

© dip Corporation.

The interim dividend is 48 yen (as forecast)
Strengthening shareholder returns, by looking ahead towards medium-term sales and profit growth.

■Dividend per share

Dividend forecast for FY'27/2
97 yen

【Breakdown】
Interim ：48 yen (confirmed)
Year-end：49 yen

（Reference）Dividend policy
【Progressive dividend】
In principle, a dividend payout ratio of 50% is targeted, considering the minimum payout from the previous fiscal year.

© dip Corporation.

（Excerpts from the Mid-term Management Plan）Cash Allocation

In addition to the dividend payout ratio of 50%, a new total return ratio of 65% has been established

After making growth investments, cash and cash equivalents in excess of 'Maximum Cash' are returned to shareholders

Basic policy “Cash allocation with an emphasis on growth investment and shareholder returns”

Growth investments

- Investments for the growth of existing businesses and the creation of new businesses (human resource investments, system investments, promotional investments, etc.)
- Investments in research and development related to AI and other advanced technologies and their use in business
- M&A and other investments to accelerate business growth

Shareholder returns

- In principle, the Company will maintain a **dividend payout ratio of 50%,** based on the minimum dividend paid in the previous fiscal year. Dividends are paid twice a year.
- **Minimum total return ratio guideline of 65%**
- Consider additional shareholder return measures, taking into account cash position and other BS conditions, prospects for achieving financial targets, stock price level, and other factors
  - **The management of funds necessary for business operations is called Maximum Cash*, and in principle, excessive cash and deposits beyond that limit are not held.** However, we do not make decisions based on a single fiscal year, but carefully assess medium-term investment opportunities, and if there is excess cash and deposits, we return them to shareholders.
  - In a situation where it may be difficult to achieve the medium-term profit target, we will consider additional shareholder returns to bring ROE closer to the target, taking into account the BS situation, stock price level, and other factors.

*** Maximum Cash Concept**

The sum of 3 months of payments, plus tax and dividend payments
（Reference）FY’25/2：￥17bn（＝March-May in 2024 payments ￥11 bn + taxes ￥3 bn + dividend payment ￥2.7 bn）

1. Company Profile ⑨ Mid-Term Growth Strategy for the AI Era (1)

Spot Work Job Service

Spot Baitoru

- In December 2024, the spot work service "Spot Baitoru" was launched, featuring the unique "Good Job Bonus" function.
- A campaign is currently underway for companies contracted with Baitoru, offering a commission rate of 10% of gross pay. Due to issues such as unpaid wages at major spot-work agencies, the number of job postings and workers on “Spot Baitoru” has been steadily increasing.
- dip is the only company offering platforms that can meet the needs of both shift-based and spot-based hiring. By offering greater value than competitors, we aim to maximize the number of job postings and users.

Workplace Communication App for Shift Collection and Management

Baitoru Talk

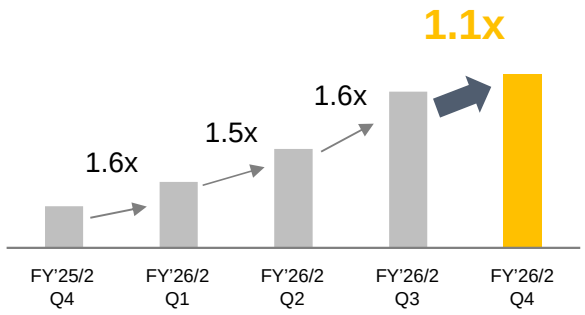

- Launched in February 2025, this communication app enables efficient shift scheduling and coordination between employees and store managers.
- The burden of shift management on store managers has been reduced. The number of adopting companies and users is steadily increasing.
- Listings on Baitoru and Spot Baitoru can be created with a single click. Aiming for a user base of 2 million (approximately 10% of Japan's part-time workforce), the company seeks to further expand its network of users and client companies.

“Conversational” Job-matching Service Leveraging Generative AI

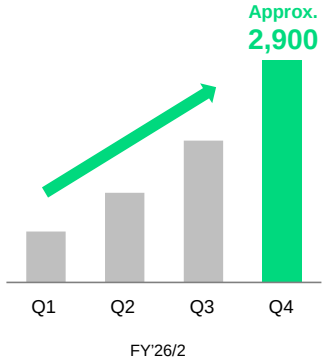

dip AI AGENT

- In May 2024, Japan’s first interactive part-time job search service powered by generative AI was integrated into “Baitoru.”
- Our high-precision AI engine is powered by extensive user data and unique, up-to-date, accurate, and high-quality job information gathered by a direct sales force of 2,300 people.
- Centered around the proprietary platform “dip AI AGENT,” we connect companies and users, covering the entire recruitment process and post-employment communication.

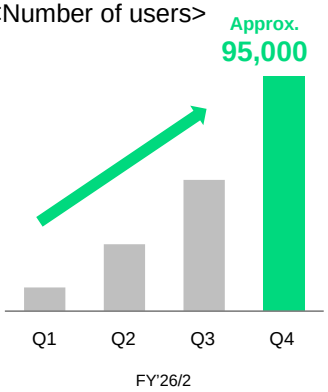

< Number of job postings >

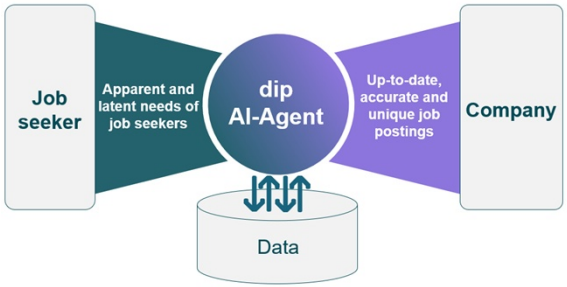

<Number of contracted companies>

<Number of users>

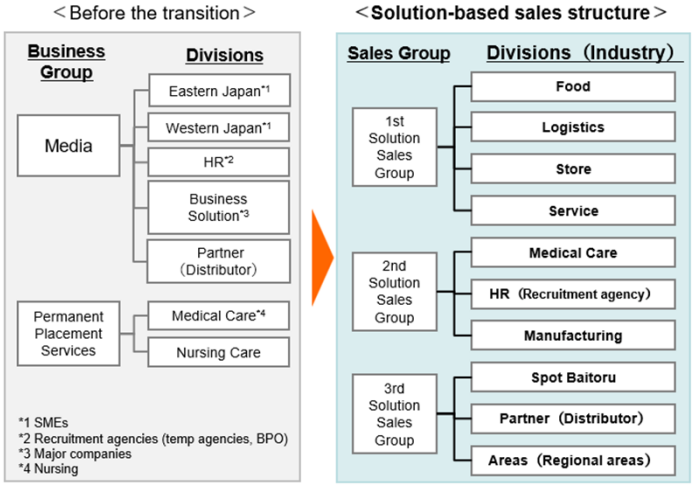

© dip Corporation.

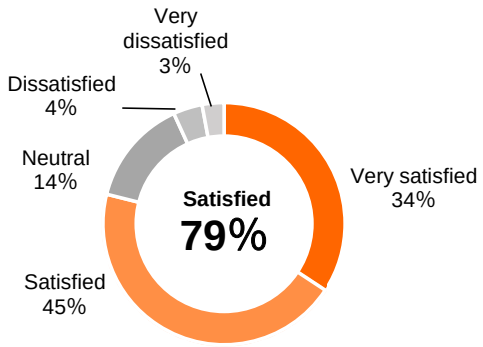

Shift to Solution-Based Sales Structure

- Shifted the sales structure based on region and company size to one based on industry sector in June 2025
- Sales representatives with industry-specific expertise propose the most suitable services to address customer challenges, leading to higher satisfaction among client companies.
- We aim to boost productivity by maximizing the value delivered to client companies and increasing the average revenue per contract.

＜Illustration of the Organizational Shift＞

Survey results of client company satisfaction with dip sales staff *

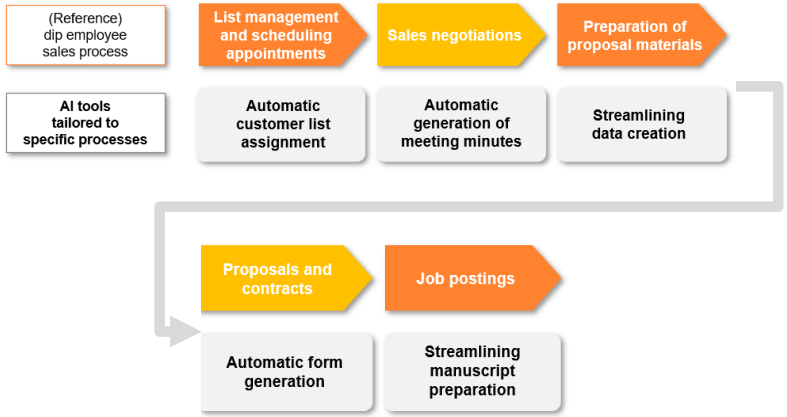

*As of Oct. 2025

Promoting the streamlining of sales operations through the use of AI

- Starting in 2024, the company began to promote the streamlining of sales processes through the use of AI. By introducing AI-powered tools to improve operational efficiency, the company has significantly reduced the amount of time sales staff spend on administrative tasks.
- Through the use of AI tools, we freed up 500,000 hours/year* which created more time for sales meetings and resulted in other operational efficiency improvements.
  “Job posting creation and editing tool” reduced advertising production outsourcing costs by 300 million yen per year, compared to the February 2023 fiscal year.
- We will continue to drive business transformation through the use of AI.
  In the fiscal year ending February 2027, we will consolidate our various tools to accelerate business transformation for our sales staff.

*Annualized number of hours

There is substantial room for greater adoption of DX in Japan, especially among small and medium enterprises

■ Percentage of companies (by number of employees) deploying DX

Reasons for slower adoption of DX by small and medium enterprises:

- Lack of awareness of which operations can be streamlined
- The cost and trouble associated with introducing DX
- Inability to fully utilize the functions after deploying the tools

Key factors in small and medium enterprises decision to deploy DX:

- Low-cost and simple product design
- Implementation support
- High-level of customer success

The first*1 in Japan to offer the unique “Good Job Bonus” feature, which aims to improve the terms and conditions of part-time workers

Workers who receive a “Good” rating will receive a bonus each time

Spot Baitoru

Good Job Bonus（Patent pending）

At the end of the shift the company evaluates the worker‘s performance.
If a worker achieves a “Good” rating, they will receive a bonus in addition to their hourly wage. Companies can secure superior workers and improve repeat rates.

＜Good Job bonus payment example: 5 hours worked at 1,400 yen per hour＞

Payroll processing services	Salary (7,000 yen) +
Salary (7,000 yen)	Basic usage fee (20%) ＋
＋Good Job Bonus (700 yen)	Good Job fee (10%)*2
Total：7,700 yen	**Total：9,100 yen**

Contract of direct employment

*1 Based on our own research

*2 Good Job fee is paid by companies that support improvements in the treatment of fixed-term employees

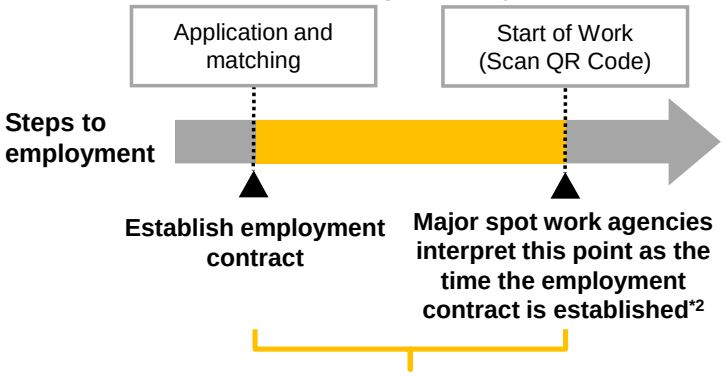

© dip Corporation.

At major spot work agencies, there were cases where workers were not paid the equivalent wage even when employment was canceled at the employer's convenience immediately before the scheduled shift
(The statute of limitations for wage claims, including compensation for lost wages, is generally three years)

We recognized this as an issue early on and amended the terms of service in April 2025
(Cases previous to this date have been resolved*1)

Major spot work agencies defined the point at which a labor contract was established as the “point at which the QR is code scanned.” Therefore, when a job cancellation occurred due to the employer's circumstances before the spot work user scanned the QR code, the agency did not seek compensation from the employer.

■ Background reasons for the accrual of unpaid wages

In the event of cancellation by the company during this period, payment equivalent to wages is required.

*1 For our users who lost work opportunities for similar reasons prior to the terms and conditions change, we provided compensation equivalent to wages at our expense
*2 Prior to August 31, 2025

■ Actions undertaken by companies and related organizations on this matter
(Items in yellow indicate our company's response, while the area within the red frame indicates new developments.)

Oct. 2024	Spot Baitoru launch and entry to the Spot Work industry
Apr. 2025	Policy established to provide compensation at our expense to users who have lost their employment opportunities
Jun. 2025	Publish an opinion advertisement*3
Jul. 2025	Ministry of Health, Labour and Welfare Announcement on “Labor Management for Spot Work”
Sep. 2025	Spot Work service providers amend service regulations
Oct. 2025	**• Worker files lawsuit against employer demanding payment equivalent to wages for past pre-employment cancellation • The issue of unpaid wages due to past employer cancellations in spot work was raised in the Diet**
Nov. 2025	**Reports indicate the issue of unpaid wages has escalated into a class-action lawsuit**
Dec. 2025	**In response to a lawsuit filed in October regarding pre-employment cancellations, the Tokyo Summary Court ordered the employer to pay an amount equivalent to wages**

1. Company Profile ⑱ “Spot Baitoru” Public Statement（Published in June 2025）

スポットワークをもっと
ユーザーファーストにしたい。

私たちディップは、昨年10月1日より新しいスポットのバイトサービス「スポットバイトル」を立ち上げました。
「誰もが、好きなときに、好きな場所で働ける社会をつくりたい。」そんな未来を願って始めたサービスです。
多様な働き方が求められる今、スポットワークは柔軟な雇用のあり方として注目されています。
企業にとっても、働く人にとっても、もっと自由で、もっと公正な"働く"の形を実現できるはずだと、私たちは信じています。
その一方で、サービス開始後すぐに明らかになったのは、これまでの業界慣習が、ユーザーファーストではないという事実です。
スポットワークの現場では、働く意思を持って応募し、採用されたにもかかわらず、
企業側の一方的な都合によって、直前でキャンセルされるというケースが多数存在していました。
その結果、ワーカーは予定していた収入を失い、経済的な損失を被る事態が多くあり、それが適切に対処されていませんでした。
本来、その責任は事業主側とプラットフォーム側にあるべきです。
しかし、これまでは、こうしたリスクへの対応が不十分でした。
私たちは、旧来の慣習を見直し、ワーカーを守る新たな仕組みを構築すべく、次の対策を講じました。
まず、キャンセル規定を緊急に整備。採用後の一方的な直前キャンセルが労働契約上の債務不履行に該当しうること、
そしてワーカーには最大3年間の未払い賃金請求権があることを、
法的リスクとしてクライアントである事業主側に具体的に説明し、責任ある行動を促してまいりました。
また、2024年10月1日～2025年4月10日までの期間に発生していた事業主都合のキャンセルによる未払い賃金については、
当社が負担し、該当する「スポットバイトル」のユーザーへお支払いいたしました。
加えて、それ以降は事業主側が支払い責任を負うことを、明確に制度化しています。
これにより、スポットワークの現場に「働く人を守る」仕組みを定着させるべく、業界の構造自体を変えていく第一歩を踏み出しました。
さらに私たちは、もう一歩先の取り組みも始めています。
それは、「スポットワーカーの賃上げ」を本気で実現する仕組みです。
スポットバイトルでは、まじめに一生懸命に働くユーザーに報いるため、掲載手数料を引き下げ、
その分を企業からユーザーに還元する「Good Jobボーナス」を導入しました。
企業にとっては、優れた人材を正当に評価し報いることができ、ユーザーにとっては、努力がボーナスという形で返ってくる仕組みです。
これは、ユーザー・企業・プラットフォーム側の三者にとって健全で、透明性と納得感のあるエコシステムであり、
私たちが目指す"新しい労働市場"の象徴だと考えています。
ユーザーファースト。それは、私たちディップが創業以来、大切にしてきた企業哲学です。
「働く人のために、働いていく。」この言葉を、理念だけではなく、行動で示していきます。
これからもディップは、設計・開発・運用すべてにおいて、ユーザーファーストを追求し続けます。
スポットワークを社会に根づかせ、安心して働ける世界を、夢と、アイデアと、情熱でつくっていきます。
働く人のために、働いていく。

【Full text of public statement】

We want to make spot work more user-first.

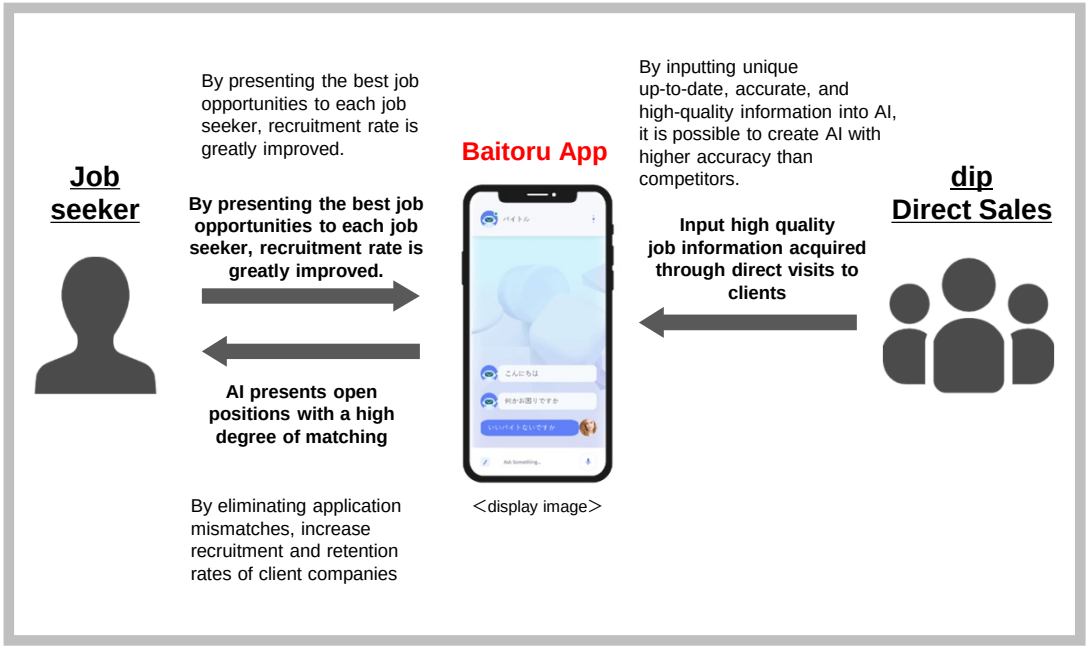

On October 1st of last year, dip launched a new spot work service called “Spot Baitoru.”
This service was born out of our vision: “We want to create a society where anyone can work whenever and wherever they want.”
In today’s world, where diverse work styles are increasingly in demand, spot work is gaining attention as a more flexible form of employment. We believe that a freer, fairer way of working can and should be realized—for both companies and workers alike. However, immediately after the service launch, a critical issue became clear -: the prevailing industry customs were not aligned with a user-first approach. In the field of spot work, we found numerous cases where individuals who had applied with the intent to work and had been accepted were subsequently canceled at the last minute due to unilateral decisions by the employer.
As a result, many workers lost their expected income, incurring economic loss - yet these situations were not being adequately addressed. Responsibility for such outcomes should rest with the employer and the platform.
However, industry responses to these risks have historically been insufficient. To change that, we have taken concrete steps to reform outdated practices and build a new system that protects workers.
First, we urgently established a cancellation policy. We clearly communicated to our clients (employers) that unilaterally canceling after hiring may constitute a breach of labor contract obligations, and that workers have the right to claim unpaid wages for up to three years. This was explained in legal terms to promote responsible behavior. Furthermore, for unpaid wages arising from employer-driven cancellations between October 1, 2024, and April 10, 2025, dip has taken responsibility and directly compensated the affected Spot Baitoru users.
From that point forward, we have systematized the obligation so that employers bear responsibility for such payments. This marks our first step toward changing the industry structure itself by embedding a mechanism that protects workers within the spot work environment. We are also embarking on a further initiative: to realize wage increases for spot workers. To reward users who work diligently and sincerely, Spot Baitoru has introduced the “Good Job Bonus” - a system that lowers posting fees for companies and redistributes that value directly to workers in the form of bonuses. This system allows companies to fairly evaluate and reward excellent talent, while users benefit from having their efforts recognized in a tangible way. We believe this creates a healthy and transparent ecosystem with a strong sense of fairness - benefiting users, companies, and the platform alike – and serves as a symbol of the new labor market we aim to build. User-first has been a core value of dip since our founding .Our motto, “Working for those who work,” is not just a principle, it’s a commitment we act upon.
We will continue to pursue a user-first approach in every aspect of design, development, and operations.
By embedding spot work into society, we will build a world where people can work with peace of mind - powered by dreams, ideas, and passion. Working for those who work.

Shift from "search-based" to "interactive" job selection

Increase the number of applicants by improving the matching rate
Improve cost efficiency of attracting users

■ **(Reprint) dip AI AGENT service business model**

Direction of business development

【Phase①】

Installed as one of the functions of the existing site to improve the recruitment/employment rate of job seekers. By increasing the number of applications, we will achieve an increase in sales and a reduction in the cost of acquiring applications.

【Phase②】

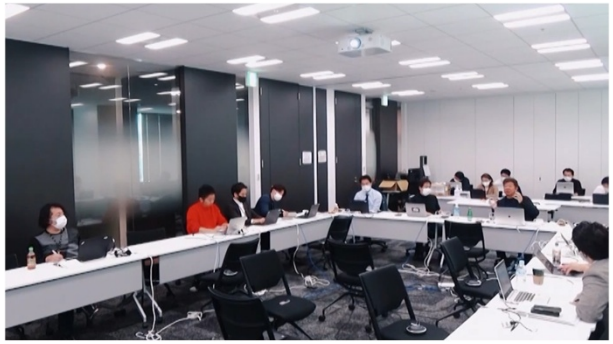

After improving the accuracy of matching, a recruitment billing model will be introduced. By introducing highly matched personnel, the recruitment and employment rates are increased, and the retention rate is also improved.

【Phase③】

Expand the implementation area

© dip Corporation.

Started development of “AI-Agent Service” (Announced on April 14, 2023)

▲ **Tomita presented these ideas at the dip30th conference**

▲ **Presented to the entire company at a Annual General Meeting of Employees**

- The job advertisement business is being replaced by the placement and recruiting business, mainly in the area of permanent employment. While this trend has not yet spread to the fixed-term employment field, we believe that we can create a new recruiting business in the fixed-term employment field through the use of AI and have begun developing a business with this in mind. The emergence of ChatGPT has accelerated the launch of businesses based on our idea.
- The “AI-Agent” Service will enable a shift from conventional "search-based" to "interactive" job selection and will create new employment opportunities.
- dip has up-to-date, accurate, high-quality job information collected by our sales staff and an extensive user base, enabling us to create a highly accurate AI engine.
- Generally, only a few percent of job seekers find employment after accessing the site, so increasing the accuracy of matching and improving the employment rate with AI-Agent will lead to the creation of significant revenue opportunities.
- Just as we have grown our business by seizing on the expansion of the Internet, we will turn the dramatic evolution of AI into a business opportunity.

Established dip Technology Institute

Accelerate social implementation through cutting-edge research and development by leveraging our past expertise in utilizing AI

■ Collaboration with Professor Matsuo of the University of Tokyo and Professor Ataka of Keio University

Yutaka Matsuo

Graduated in 2002 from the University of Tokyo. Graduated in Engineering from the National Institute of Advanced Industrial Science and Technology (AIST). After working as a visiting researcher at Stanford University from August 2005, he became an associate professor at the University of Tokyo's Graduate School of Engineering in 2007.Since 2014, he has been the Co-Chair and Specially Appointed Associate Professor of the Global Consumer Intelligence Endowed Chair in the Department of Technology Management and Strategy, Graduate School of Engineering, The University of Tokyo. His areas of expertise are artificial intelligence, deep learning, and web mining.　From the Japanese Society for Artificial Intelligence, he received the Best Paper Award (2002), the 20th Anniversary Project Award (2006), Field Innovation Award (2011), and Distinguished Service Award (2013). He has been an associate editorial board member of the Japanese Society for Artificial Intelligence since 2010, an editorial board member and board member since 2012, an ethics board member from 2014 to 2018. In addition, he has been a board member of the Japan Deep Learning Association since 2017, and an outside director of SoftBank Group since 2019.

Kazuto Ataka

Professor, Faculty of Environment and Information Studies, Keio University; Senior Strategist, Z Holdings, Inc. After working at McKinsey, he has been with Yahoo since 2008. In his last position, he was in the Marketing Research Group and as one of the core members of the Asia Pacific region, he has been involved in a wide range of product and business development and brand revitalization activities. He has been CSO since 2012 and ZHD Senior Strategist since 2022.Teaching at Keio SFC since 2016, current position since Fall 2018 (current dual role); Director and Chair of the Skills Definition Committee of the Association of Data Scientists since Spring 2013. Representative of the General Incorporated Association, Future Worth Leaving Behind. Expert member of the Council for Science, Technology and Innovation (CSTI), Chairperson of the Digital Disaster Reduction Future Initiative Team of the Cabinet Office, and involved in many other public studies on science and technology and data x AI by the government, Keidanren, and others. He holds a PhD in Neuroscience from Yale University and is the author of "Shin Nihon" (NewsPicks) and "Issue kara Hajimeyo" (Eiji Shuppan).

■ Examples of dip's AI initiatives to date

- Development of automatic manuscript creation tool (GENKO)

- Operates AINOW, one of Japan's largest media platforms specializing in AI
- Our commitment to AI.Accelerator

Promoting health management based on the concept of "mind and body alignment”

Framework for health and productivity management promotion

Based on the belief that "people are everything and people are assets," we believe that employee health management is an important theme that directly affects work productivity and employee happiness. We aim not only to "prevent illness" but also to "make our employees more energetic and happier than ever before." With this in mind, we are promoting health management based on the concept of "preparing the mind and body.

Our efforts in health management have been recognized, and for the fifth year in a row we have been certified as a “Health and Productivity Company 2026” companies selected jointly by the Ministry of Economy, Trade and Industry and the Japan Health Conference.

Offering various programs for ‘conditioning the mind and body’

- Walking program
- Dietary improvement program
- Intranet column on health management
- Stretching with dip BATTLES, dance lessons for employees and their children only
  Various other programs also continue

In cooperation with local governments Relocation and Work Experience Events

Since 2018, by leveraging our strength in human resource services, we have developed a business to create opportunities for applicants who wish to "move to and work in rural areas" as well as general "relocation experiences".

■Actual results for FY'26/2

Rebun Town, Hokkaido	(Online and in person)
Fukushima Prefecture	(In person) (Corporate Seminar)
Higashi Matsushima, Miyagi Prefecture	(In person)
Nishinoshima Town, Shimane Prefecture	(In person)

In cooperation with local governments
Contribute to solving urban population concentration and labor shortages in rural areas

Work experience learning for children "Baitoru Career Education Program"

Career education for elementary school students, launched in 2019.
Provides an opportunity to enrich children's understanding of the meaning and satisfaction of work by sharing practical know-how. To date, 7,207 elementary school students have experienced the program with the cooperation of more than 45 companies.

■Actual number of schools

FY'22/2：5 schools　FY'23/2：11 schools
FY'24/2：21 schools　FY'25/2：23 schools　FY'26/2：32 schools

Covered by multiple media outlets, including newspapers and TV

Continues in its 8th year and FY'27/2
Conducted online with schools and companies nationwide
