■ TOPICS

In December, sales across all of the company's directly operated eyewear specialized stores in Japan rose +4.6% YoY; sales at existing stores rose +1.0%.

Continuing from the previous month, sales of one-off products centered on collaboration products showed strong performance during the month. However, due to the fact that some products such as Slim Airframe which had been received favorably, were out of stock and that the exposure of winter sales was curbed, sales at the existing stores increased only +1.0% YoY.

At the end of December, the number of directly operated eyewear specialized stores in Japan was 363 (up one store from the previous month).
