Notice Concerning Revision (Increase) of Year-End Dividend Forecast

The Company hereby announces that, at a board of directors meeting held today, it has revised our dividend forecast for the fiscal year ending March 2026 as follows. A resolution regarding the distribution of these retained earnings is scheduled to be passed at a board of directors meeting to be held on May 29 of this year.

Details

1. Details of revision

Record date	Dividend per share (yen)		
	Second quarter-end	Fiscal-year end	Total
Previous forecasts (Announced on May 14, 2025)		65.00	125.00
Revised forecasts		68.00	128.00
Actual results for the fiscal year under review	60.00		
(Reference) Actual results for the previous fiscal year (Fiscal year ended March 31, 2025)	60.00	60.00	120.00

2. Reason for the revision

In our medium-term management plan, which runs through the fiscal year ending March 2027, we have established the following basic policies for shareholder returns: maintaining a consolidated dividend on equity (DOE) of 4% or higher and implementing stable and continuous dividend increases, while balancing these objectives with active investment in growth areas and maintaining financial soundness.

Considering the record-high consolidated results disclosed today in the “Consolidated Financial Results for the Fiscal Year Ended March 31, 2026 (Under Japanese GAAP)” and in accordance with the aforementioned shareholder return policy, we are revising our year-end dividend forecast upward by 3 yen per share from the previous forecast to 68 yen. As a result, the annual dividend will be 128 yen per share, and the DOE will be 4.0%.

To ensure that our shareholders can hold our shares with confidence over the long term, we will continue to regard the DOE as a key indicator and strive to achieve stable and continuous dividend growth in the future.
