## 1. Qualitative Information regarding Business Results

## (1) Overview of Consolidated Business Results

In the second quarter of fiscal 2020 (January 1, 2020-June 30, 2020), the world economy saw a much clearer retraction as efforts to contain the spread of COVID-19 have failed to gain traction. Even amid this kind of environment, our Group maintained its business activities while thoroughly ensuring safety and working to prevent infection with the aim of supporting industrial supply chains. Consequently, consolidated operating results for the second quarter of fiscal 2020 are as follows: net sales fell $¥ 25,412$ million, or $8.8 \%$, compared with the previous fiscal year to $¥ 262,006$ million; operating income decreased $¥ 8,310$ million, or $29.8 \%$, to $¥ 19,611$ million; ordinary income decreased $¥ 7,047$ million, or $28.5 \%$, to $¥ 17,638$ million; and net income attributable to owners of the parent fell $¥ 4,093$ million, or $30.9 \%$, to $¥ 9,160$ million.

The Group's long-term vision, Kuraray Vision 2026, is to become a "Specialty Chemical Company, growing sustainably by incorporating new foundational platforms into its own technologies." As we continue working to realize this vision, we will steadily take specific measures in line with the key management strategies underlined in the medium-term management plan "PROUD 2020" from a medium- to long-term perspective. Through these efforts, we will also continue working to establish a new business portfolio

## Results by Business Segment

## Vinyl Acetate

Sales in this segment decreased $9.6 \%$ year on year to $¥ 121,809$ million, and segment income fell $26.7 \%$ year on year to $¥ 16,924$ million.
(1) The volume of PVA resin declined due to stagnant global demand. Although LCD panel manufacturers reduced inventory adjustments, shipments of optical-use poval film stayed level with the previous year due to effects from COVID-19 crisis. The sales of PVB film were weak for construction and automotive applications. However, sales of water-soluble PVA film continued to expand for use in unit dose detergent packets.
(2) The sales volume of EVAL ${ }^{\text {TM }}$ ethylene vinyl alcohol copolymer (EVOH resin) increased for food packaging applications but sales for gas tank applications were heavily impacted by a decline in the number of vehicles produced.

## Isoprene

Sales in this segment decreased $9.9 \%$ year on year to $¥ 24,720$ million, and segment income fell $38.6 \%$ year on year to $¥ 2,116$ million.
(1) Sales of isoprene chemicals and SEPTON ${ }^{\text {TM }}$ thermoplastic elastomer were affected by slowing demand, mainly in China and the rest of Asia.
(2) Although sales of GENESTAR ${ }^{\text {TM }}$ heat-resistant polyamide resin remained steady for electric and electronic device applications, sales for automotive applications were affected by the decline in vehicle production.

## Functional Materials

Sales in this segment decreased $5.5 \%$ year on year to $¥ 59,143$ million, and segment income fell $52.4 \%$ year on year to $¥ 1,054$ million.
(1) The overall methacrylate business was affected by worsening market conditions despite
an increase in demand for spatter-blocking barrier panels.
(2) In the medical business, the dental materials business struggled, especially in the United States and Europe, as a result of an increase in dental clinic closures in response to spreading infections.
(3) As for Calgon Carbon, sales were steady even during COVID-19 crisis, this business's products underpin people's daily lives. In addition, in the Carbon Materials business, sales of high value-added products increased. Moreover, with expanding demand for high-performance activated carbon, we decided in this second quarter to expand the facilities at the U.S. plant of Calgon Carbon Corporation.

## Fibers and Textiles

Sales in this segment fell $14.7 \%$ year on year to $¥ 28,224$ million while segment income decreased $44.1 \%$ year on year to $¥ 1,656$ million.
(1) The sales volume of CLARINO ${ }^{\mathrm{TM}}$ man-made leather decreased due to receding demand in Asia and Europe.
(2) In fibers and industrial materials, the performance of KURALON ${ }^{\text {TM }}$ for cement reinforcement use remained weak. Sales of products used in reinforcing rubber were negatively affected by a decline in the number of vehicles produced.
(3) In consumer goods and materials, sales of KURAFLEX ${ }^{\text {TM }}$ were weak as demand for cosmetic and automotive applications stagnated despite an increase in the sales for mask-related applications.

## Trading

In fiber-related businesses, sales of sewn products remained steady. However, sales of resins and chemicals were affected by lower demand in Japan and Asia. As a result, segment sales decreased $7.3 \%$ year on year to $¥ 60,037$ million, and segment income rose $1.2 \%$ to $¥ 2,078$ million.

## Others

In other business, due to weak sales of domestic affiliates, segment sales declined $14.9 \%$ year on year to $¥ 22,155$ million, and segment income fell $44.0 \%$ to $¥ 206$ million.

## (2) Overview of Financial Position

Total assets increased $¥ 92,640$ million from the end of the previous fiscal year to $¥ 1,083,789$ million mainly because of a $¥ 117,450$ million increase in cash and cash deposits (due to an increase in liquidity undertaken in response to COVID-19 pandemic), a $¥ 10,686$ million decrease in notes and accounts receivable—trade, and a $¥ 15,413$ million decrease in short-term investment securities. Total liabilities increased $¥ 98,903$ million to $¥ 551,507$ million due to factors that included the issuance of bonds payable totaling $¥ 30,000$ million, a $¥ 36,000$ million increase in commercial paper, and a $¥ 79,099$ million increase in long-term loans payable, despite a $¥ 30,157$ million decrease in accrued expenses.

Net assets fell $¥ 6,262$ million to $¥ 532,282$ million. Equity attributable to owners of the parent amounted to $¥ 517,189$ million, for an equity ratio of $47.7 \%$.

## (3) Basis for the Revision in Forecasts, Including Consolidated Operating Results

 ForecastsThe economy has receded significantly due to COVID-19 pandemic, and we assume that the effects will last into 2021 and beyond. We expect that demand will continue to stagnate for our operations in the third quarter onward accompanied by production adjustments.

The forecast of consolidated operating results for the fiscal year ending December 31, 2020 (January 1, 2020 to December 31, 2020) is as shown below.
