Initiatives to Enhance Corporate Value

Enhance corporate value by steadily implementing various measures in the Medium-Term Management Plan "PASSION 2026"

Improving asset efficiency and enhancing shareholder returns

- Enhance our portfolio by evaluating our business on the two axes of social/environmental value and economic value. Use ROIC to improve and enhance capital efficiency
- Strengthen and expand businesses that we focus on allocating resources through growth investments and M&A. Implemented with an awareness of investment efficiency
- Enhance shareholder returns by expanding profits

Creation of innovation, stable expansion of profits, and sharing and deepening understanding of growth stories

- Accelerate the generation of innovation through our Innovation Networking Center and the R&D Division
- Sustainable growth of core businesses. Early monetization of large-scale investments, such as new Isoprene Thai site and activated carbon production facilities
- Steady implementation of GHG emission reduction program. Reflect the market value generated by natural environment contributing products in our product and service prices
- The U.S. litigation was resolved.
- Share our growth story through individual dialogue and management briefings to deepen understanding within the market

Enhance ROE to the 10% target for 2026

Enhance PER

• Enhance shareholder returns by expanding profits

| | FY2022 1H | FY2023 1H | Difference |
| Net Sales | 185.4 | 198.9 | 13.5 |
| Operating Income | 33.6 | 40.2 | 6.6 |

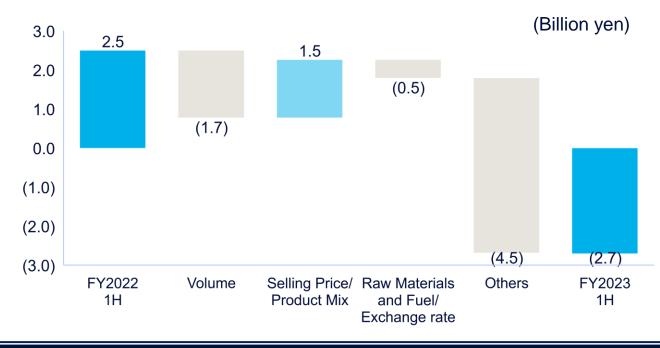

[Factors Affecting the Change in Operating Income]

| PVOH resin | The sales volume decreased due to receding global demand, but we further promoted a shift to high value-added products. |
|---|---|
| Optical-use poval film | Shipments decreased due to a delay in recovery for demand for large LCD displays despite inventory adjustments for LCD panels returning to normal. |
| Water-soluble PVOH film MonoSol | Shipments decreased mainly for use in unit dose detergent packets in Europe due to inflation-driven belt tightening and other effects. |
| Advanced Interlayer Solutions | Sales of PVB film remained steady for construction applications in addition to a recovery in demand for automotive applications. |
| EVAL™ | Sales for food packaging applications remained firm, and demand for automotive applications showed signs of recovery. |
| | |
| Main reason of increase/ decrease | Despite the impact from the delayed recovery in demand, belt tightening, and inventory valuation differences, segment income increased overall due in part to the shift to high value-added products. |

| | | | (Billion yen) |
|---------------------|-----------|-----------|---------------|
| | FY2022 1H | FY2023 1H | Difference |
| Net Sales | 31.9 | 31.8 | (0.1) |
| Operating Income | 2.5 | (2.7) | (5.2) |

[Factors Affecting the Change in Operating Income]

| Isoprene Chemicals and Elastomers | Results were affected by deteriorating market conditions in addition to a decrease in sales volume due to the ongoing effects of lower demand, which began in the latter half of the previous year. |
|---|---|
| GENESTAR™ | The sales volume decreased due to inventory adjustments for electric and electronic devices despite signs of recovery in demand for automobile applications. |

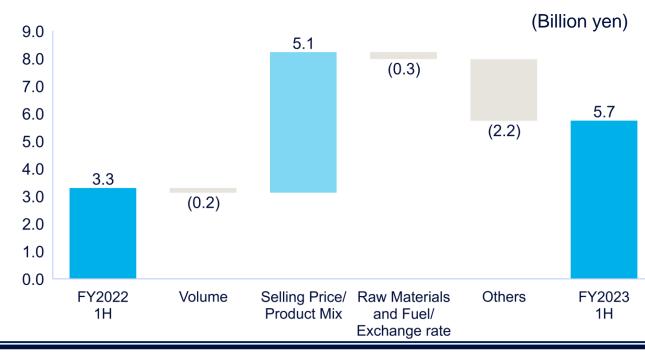

Main reason of increase/ decrease decrease Main reason of increase/ decrease adjustments.

Despite the promotion of price revisions, depreciation at the Thai site that started operations and other expenses increased. Sales volume declined due to the impact of the economic slowdown and inventory adjustments.

|-----------------|
|-----------------|

| | | | (Billion yen) |
|---------------------|-----------|-----------|---------------|
| | FY2022 1H | FY2023 1H | Difference |
| Net Sales | 77.8 | 93.4 | 15.6 |
| Operating Income | 3.3 | 5.7 | 2.4 |

[Factors Affecting the Change in Operating Income]

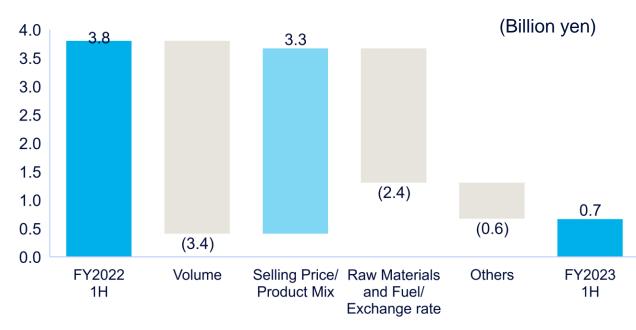

| Methacrylate | Results were affected by higher raw material and fuel prices in addition to a decrease in sales volume due in part to inventory adjustments for electric and electronic devices. |
|----------------------------|--|
| Medical | Sales of cosmetic dental materials remained favorable in Japan and overseas. |
| Environmental Solutions | Demand increased for drinking water applications in North America, and sales of activated carbon remained steady. |

| Main reason of increase/ decrease | Increase in profit due to progress in price revisions and improved sales mix offset the impact of higher expenses and inventory adjustment differences. |

[Factors Affecting the Change in Operating Income]

| CLARINO™ | Shipments decreased due to the effects of lower demand for sports and other applications. |
|---------------------------------------|--|
| Fibers and Industrial Materials | Sales of VECTRAN [™] remained stable. Sales of KURALON [™] was weak for construction applications in Europe despite signs of a recovery in automotive applications. |
| Consumer Goods and Materials | Demand for KURAFLEX [™] in the restaurant industry was weak. |

| Main reason of | Despite progress in price revisions, |
|----------------|---|
| increase/ | shipments decreased due to sluggish |
| decrease | demand caused by the economic slowdown. |

[Ref.] Trends of Net Income, ROE and ROIC

kura*ray*

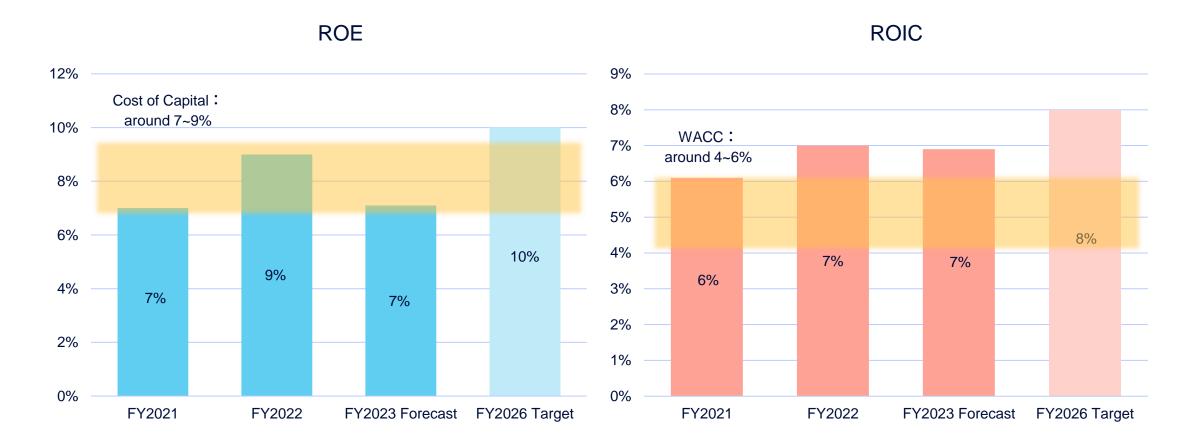

- Net income attributable to owners of the parent after bottoming out in 2019 and 2020.
- ROE, ROIC recovered along with improved earnings. Target for 2026 is ROE 10%, ROIC 8%.

[Ref.] Cost of Capital and WACC expected by market

kura*ray*

Increase ROE and ROIC toward FY2026

- All figures are rounded to the nearest hundred million yen.
- This presentation contains various forward-looking statements which are based on the current expectations and assumptions of future events. All figures and statements with respect to the future performance, projections, and business plans of Kuraray and its group companies constitute forward-looking statements. Although Kuraray believes that its expectations and assumptions are reasonable, actual results and trends of Kuraray's performance could differ materially from those expressed or implied by such figures or statements due to risks and uncertainties in the future business circumstances. The factors which may cause such difference include, without limitation: (1) general market and economic conditions in Asia including Japan, the U.S., Europe and other regions; (2) fluctuations of currency exchange rates, especially between the Japanese yen and the U.S. dollar and other foreign currencies; (3) changes in raw material and fuel costs; (4) industrial competition and price fluctuations in Japan and international markets; (5) advance or delay in the construction of new plants and production lines; (6) successful development of new products and technologies; and (7) changes in laws and regulations (including tax and environmental) and legal proceedings.
