KURARAY CO., LTD.

Temporary Suspension of Production at PVOH Resin Plant in the U.S.

Production of our PVOH resin plant in the U.S. had been temporarily suspended due to a stoppage in the supply of externally purchased steam and malfunctions in some manufacturing facilities. The situation is as follow.

1. Location of occurrence

La Porte Plant, Kuraray America, Inc.

2. Time of occurrence

Stoppage in supply of externally purchased steam	August-September 2025 (intermittent)
Malfunction in some manufacturing facilities	July-September 2025 (intermittent)

3. Schedule to resume production

We have resumed our production.

4. Impact on shipments

None

5. Impact on business performance

The impact of this temporary suspension of production on our business performance is not expected to meet the criteria set forth by the Tokyo Stock Exchange in its Securities Listing Regulations.
