(TSE Mothers: 4055)

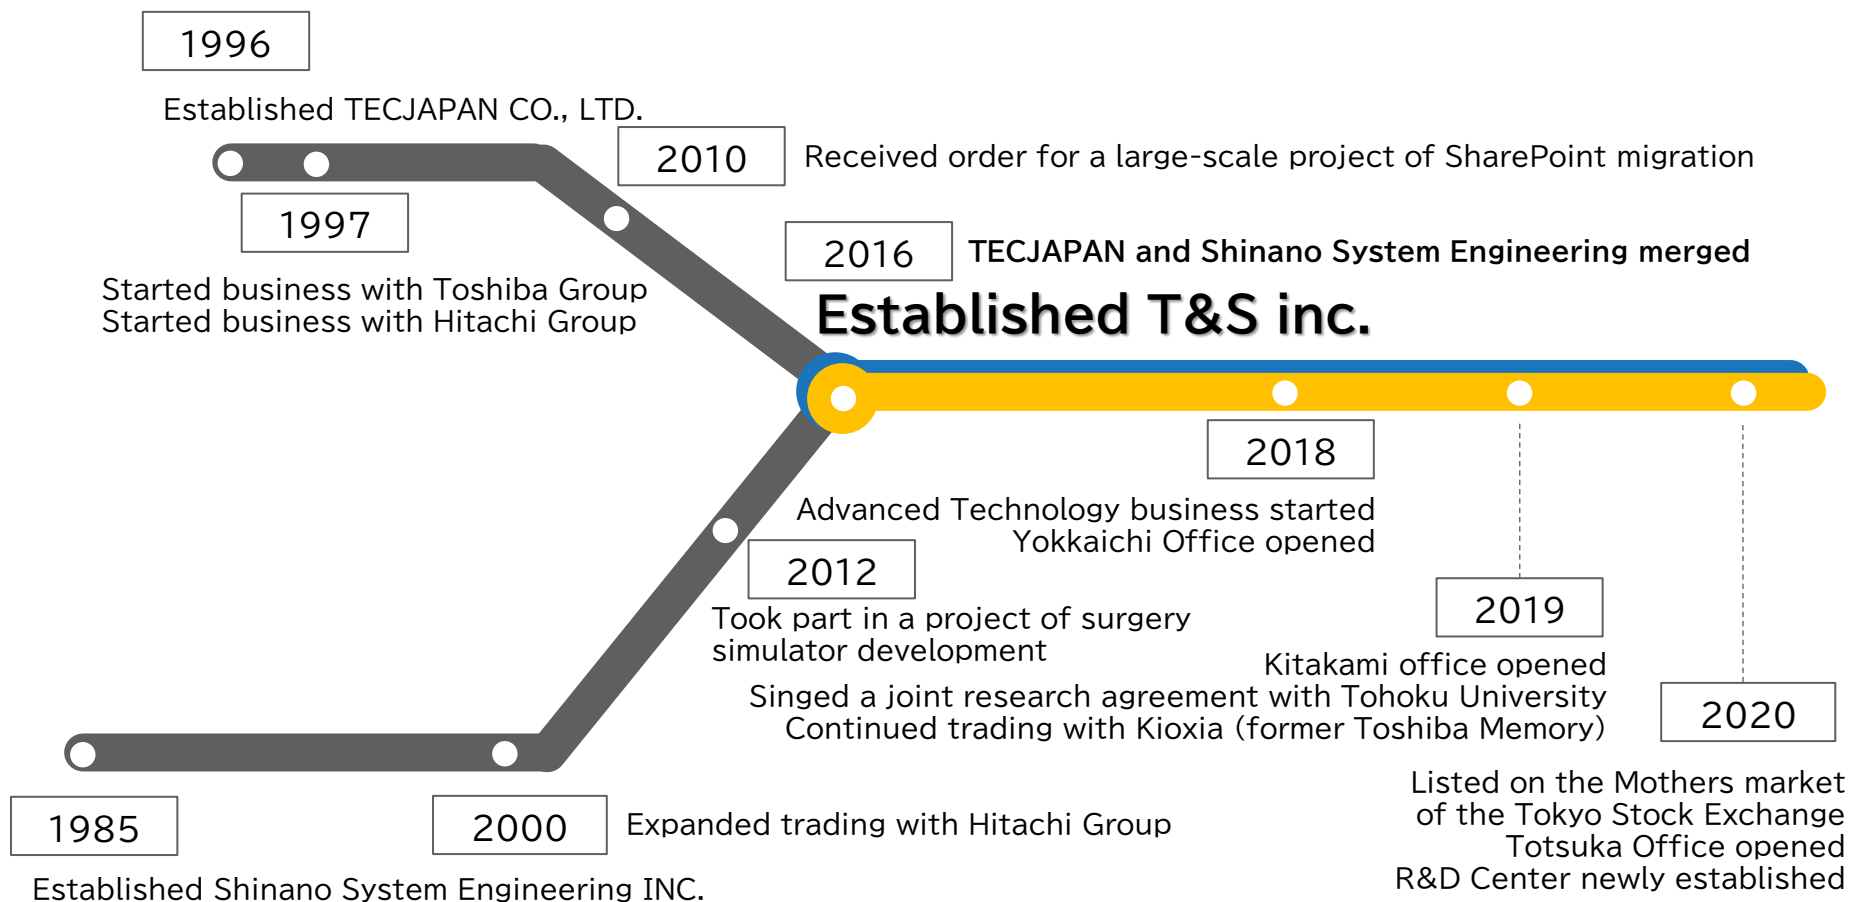

T&S
Technology & Service

Company Profile

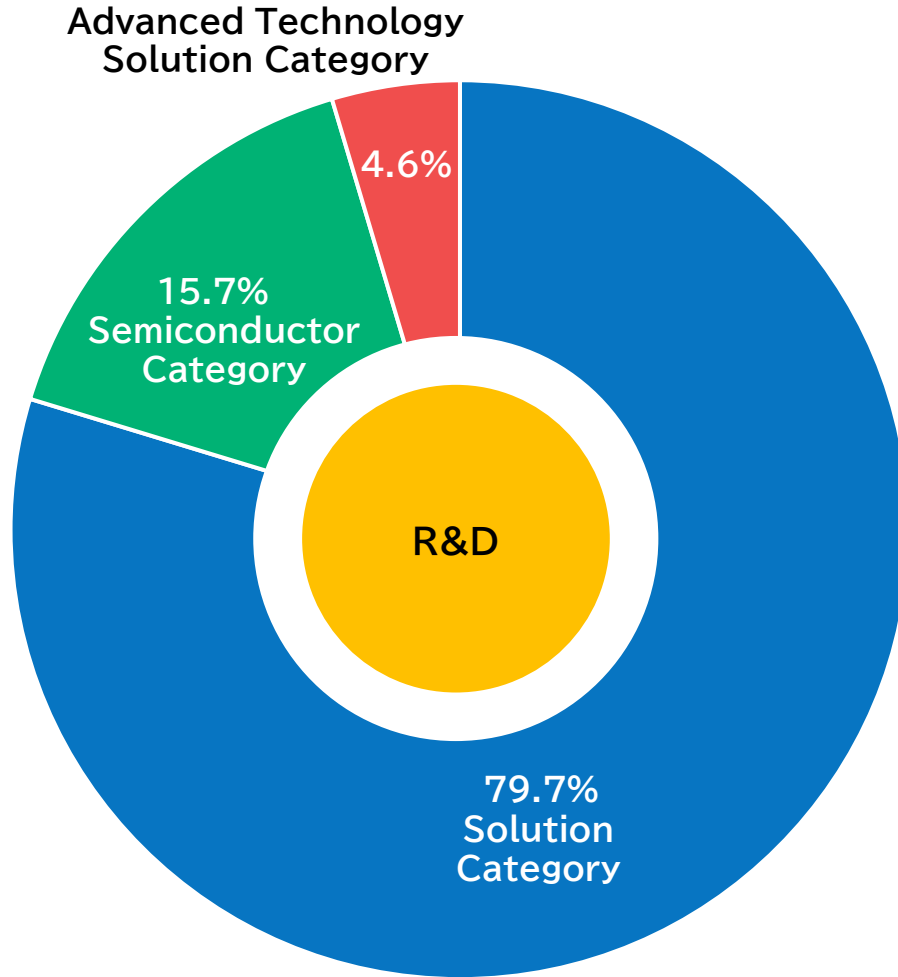

Company name	T&S inc.
Established	November 1, 2016
Board Members	Yoshihiro Takekawa…President and CEO Etsuo Fukuda…Director, Executive Officer and General Manager of R&D Division (PhD, Engineering) Hiroshi Kinoshita…Director, Executive Officer and General Manager of Corporate Division (Certified Public Accountant) Koushun Nagaya…Director, Audit & Supervisory Committee Member Atsushi Mochizuki…Auditor (Outside, Tax Accountant) Yusuke Fujie…Auditor (Outside, Attorney)
Number of employees	297 (as of June 2021)
Location	Head Office Minatomirai, Nishi-ku, Yokohama, Kanagawa Pref. Yokkaichi Office Yokkaichi, Mie Pref. Kitakami Office Kitakami, Iwate Pref. Totsuka Office Totsuka-ku, Yokohama, Kanagawa Pref.
Principal Business Description	System development, operation and maintenance, and infrastructure construction for major corporate clients, with a focus on software development for AI (image processing, recognition, machine learning, thesis algorithm evaluation) and other services
Principal Business Partners	Toshiba Group, Hitachi Group, Kioxia Group, and 30 others

History

Our Business Overview

Sales composition by category

Growth Advanced Technology Solution Category	Development of AI-related software and commercialization of research and development results
Stable Semiconductor Category	Operation and maintenance services for NAND flash memory factories
Base Solution Category	Contract development of software for various industries
Challenge R&D	Software Research and Development for the next-generation memory

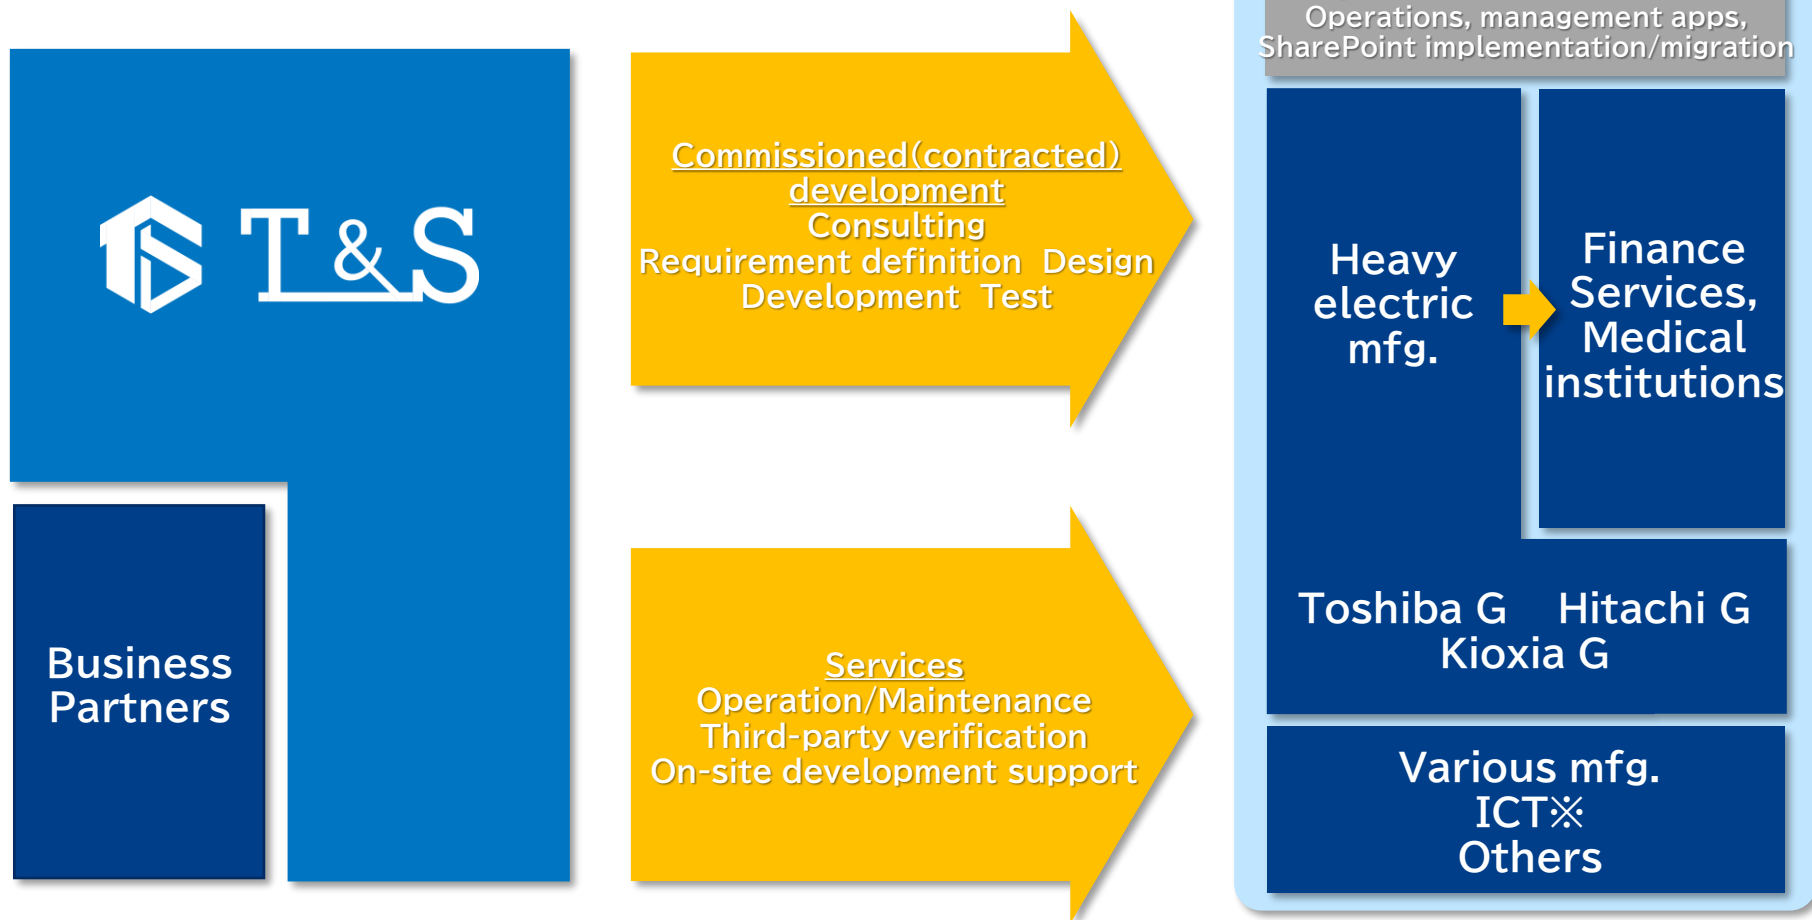

* Percentages indicate their respective share of sales in FY11/2020.

Business of each category ①

Solution Category

Base

- ✓ Main business
- ✓ 80% of total company sales
- ✓ Stable orders from major customers
- ✓ Trend of DX

Business of each category ②

Semiconductor Category

Stable

- ✓ Constant demands regardless of production volume
- ✓ Maintenance of systems Developed by T&S
- ✓ Expanding factories of major customers
- ✓ Vigorous demands for semiconductors

Infrastructure Services
(Engineer Dispatch),
Operation and
Maintenance Services,
Help Desk, Structuring
Infrastructure, Efficient-
process improvement
support, Business
Application & RPA Support,
Implementation of
Business apps

**Customers with
plants / huge factories**

Production management systems
Construction materials
management systems
Process systems Quality
inspection results management
Operations management apps
Yield management systems

Each
Kioxia G
company

Kioxia's
semiconductor
(NAND Flash
Memory)
Yokkaichi Plant
Kitakami Plant

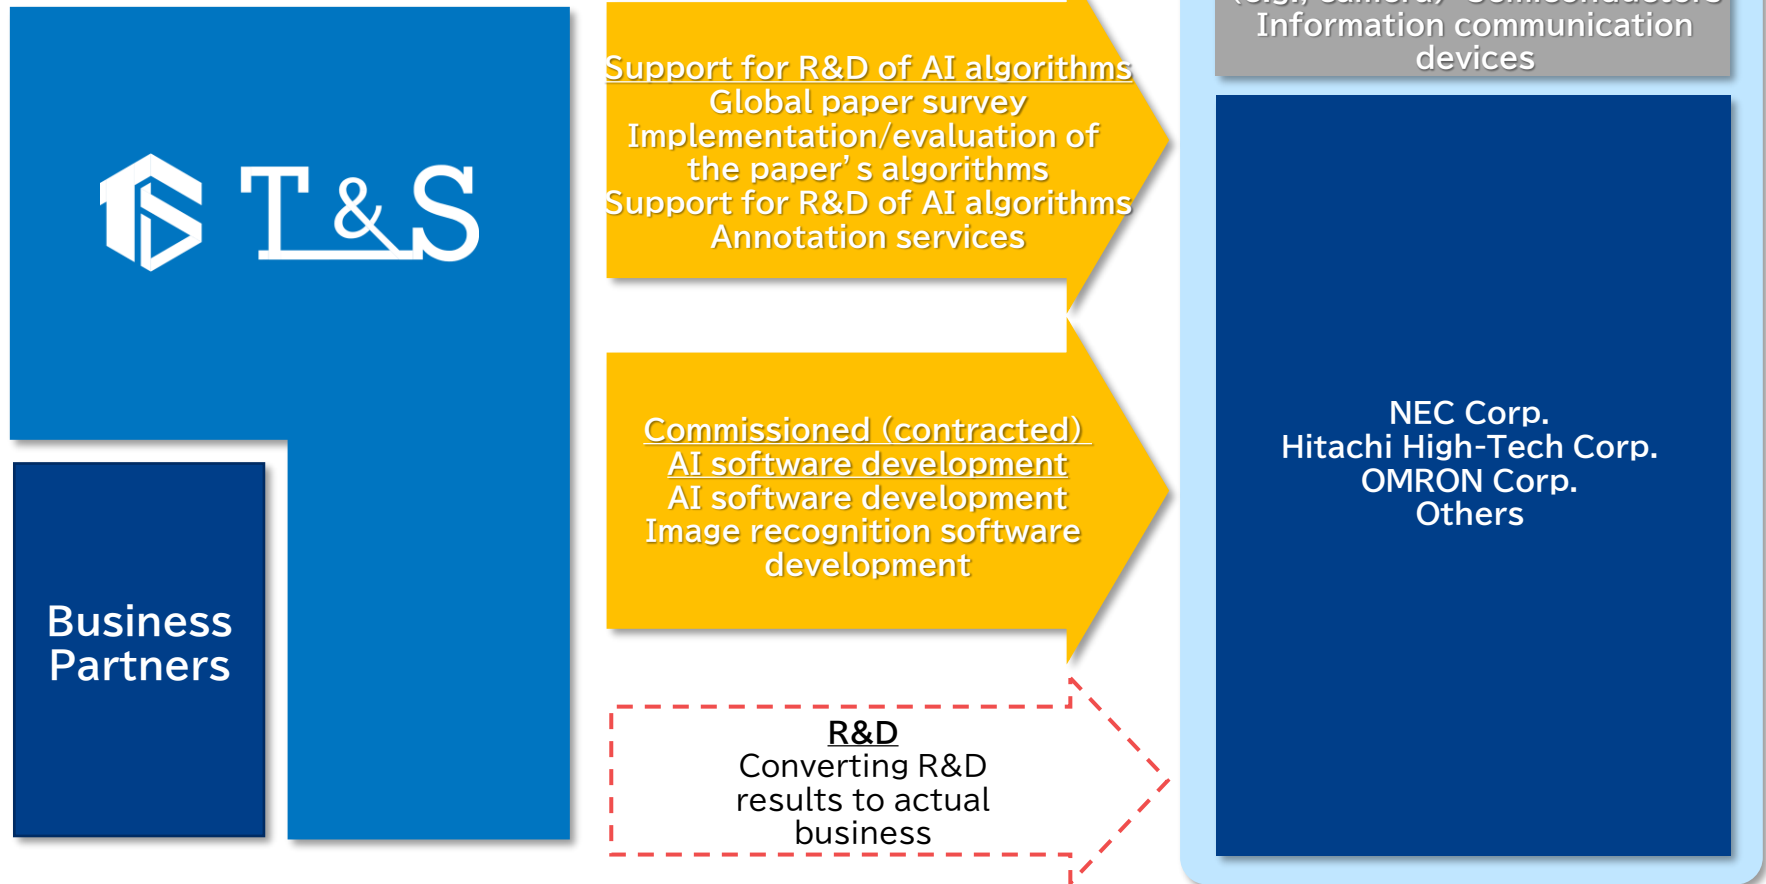

Each
Toshiba G
company

Advanced Technology Solution Category

Growth

- ✓ Elite R&D engineers
- ✓ Already achieved good profitability
- ✓ Competition of AI products development by major companies
- ✓ Synergy with joint university research

Our Three main Strengths

Strength①

**Ability to create
high value-added businesses**

Strength②

**Solid large corporation's
client base**

Strength③

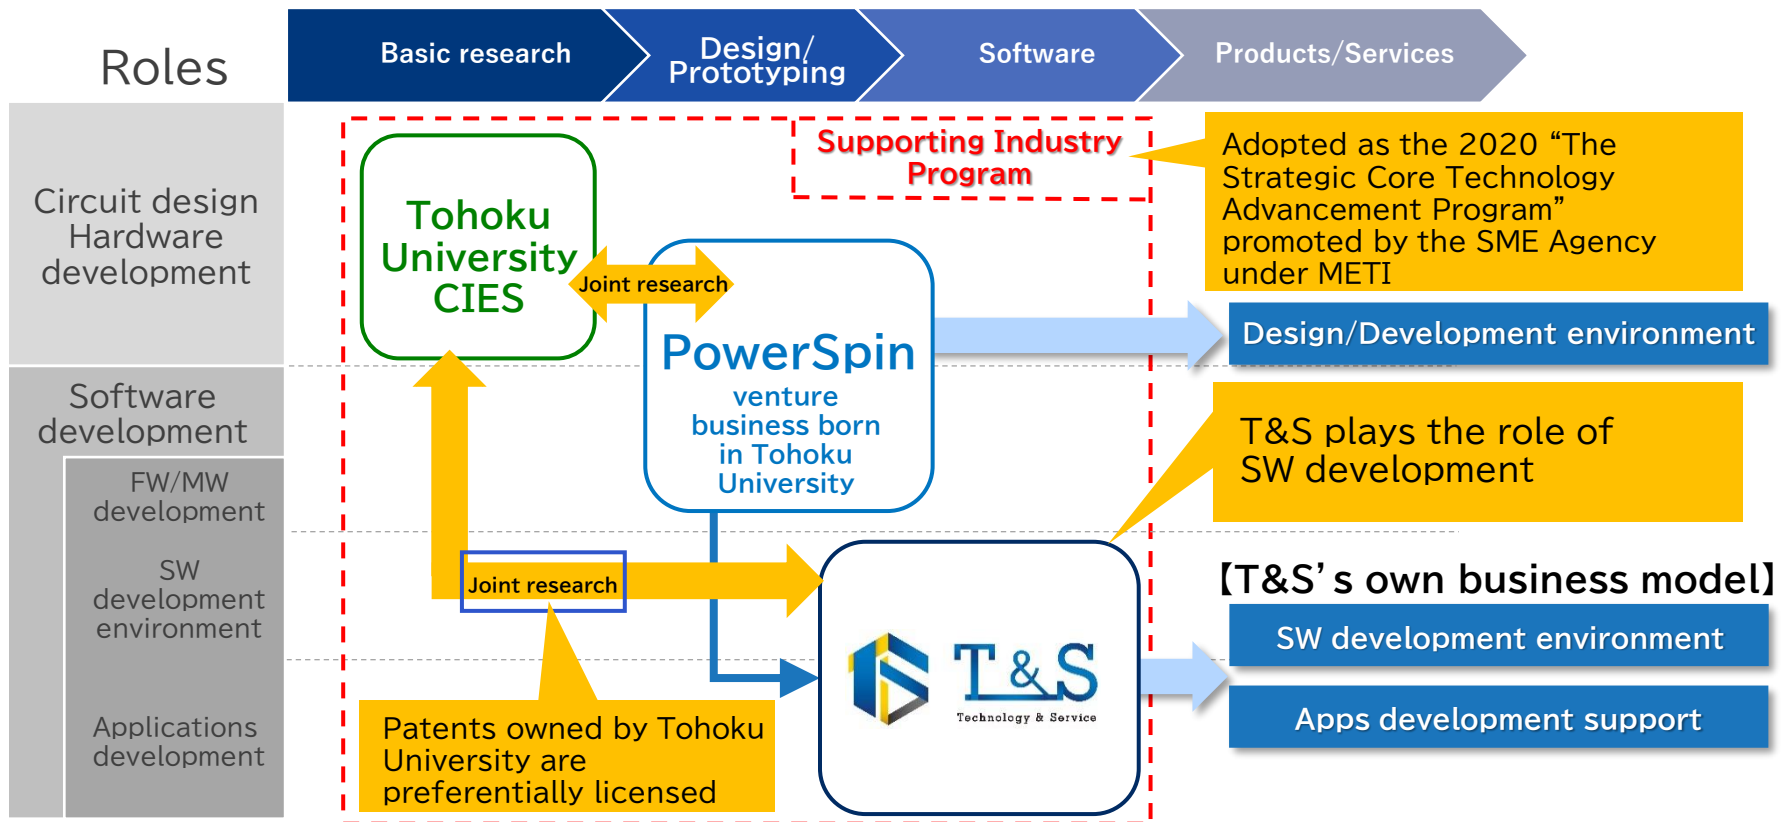

Quality Management control

Theme ①: R&D aiming at ensuring reliability of next-generation semiconductor memory

Theme ②: R&D of application software for AI processors using spintronics technology
