Introduction of New Executive Officer

Takahiro Tsuji / Executive Officer, CFO

- Joined M3, Inc. in 2006 after working at The Long-Term Credit Bank of Japan, Ltd. and Sony Corporation. Served as Director, overseeing corporate management, finance, IR, and HR
- Joined LITALICO Inc. in 2020 as Executive Vice President and CFO, leading M&A and organizational expansion; appointed Executive Vice President and CFO in 2023
- Joined PLAID, Inc. in July 2026 as Executive Officer and CFO. Oversees overall corporate functions, including finance, legal, HR, and corporate planning

© PLAID, Inc.

Executive Summary

1 Q3 Consolidated Revenue: ¥4,153 million (+26.3% YoY); Q3 Cumulative: ¥11,919 million (+21.2% YoY)

- Subscription revenue grew 18.4% YoY, while service recurring revenue surged 95.6% YoY
- Customers with ARR of ¥10M+ continued to increase, while Q3 NRR(1) remained strong at 108%

2 Q3 Consolidated Adjusted Operating Income: ¥307 million; Q3 Cumulative: ¥1,053 million

- Generating stable profit even while stepping up growth investments
- Growth investments peak in Q3; profit growth expected from Q4 as revenue grows and SG&A moderates

3 Evolving into a platform enabling customer-centric transformation

- Growth investments enable an integrated offering across customer data, AI agents, and professional services
- Evolving beyond marketing SaaS into a platform enabling customer-centric transformation

PLAID © PLAID, Inc.

Notes: 1. Abbreviation for Net Revenue Retention. (i) Monthly Subscription revenue of existing customers who have been under contract for more than one year divided by (ii) Monthly Subscription revenue of the same month of the previous year.

Purpose

PLAY&AID

We wanted to establish a company, where we can actively support our members to be fully engaged in what they believe, fulfill their potential, and above all, have fun.

We will continue to provide more exciting opportunities and support people through data and technology, so that they can enjoy their creativity, bringing out new value to the future.

PLAID © PLAID, Inc.

Maximize the Value of People with the Power of Data

Leading the next society by utilizing people's ideas
and intuition to maximize their creativity with technology

Customer Understanding Drives Competitive Advantage

- While customer needs and behaviors continue to evolve, businesses face growing challenges: service commoditization caused by AI, business stagnation resulting from an overemphasis on efficiency, and the depletion of available training data
- In a highly volatile environment, deep "customer understanding" and "market understanding" are indispensable for companies to remain chosen by customers; the key to achieving this lies in closed data: "1st Party Customer Data"

Customers

Changes in customer needs and behaviors driven by market saturation and technological evolution

Company

To remain chosen by customers:

Customer & Market Understanding

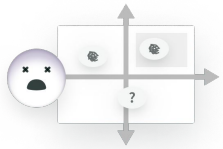

Creating a continuous mechanism to generate and collect

"1st Party Customer Data"

as valuable closed data is essential

Market

(AI & Tech)

Accelerating AI-driven homogenization

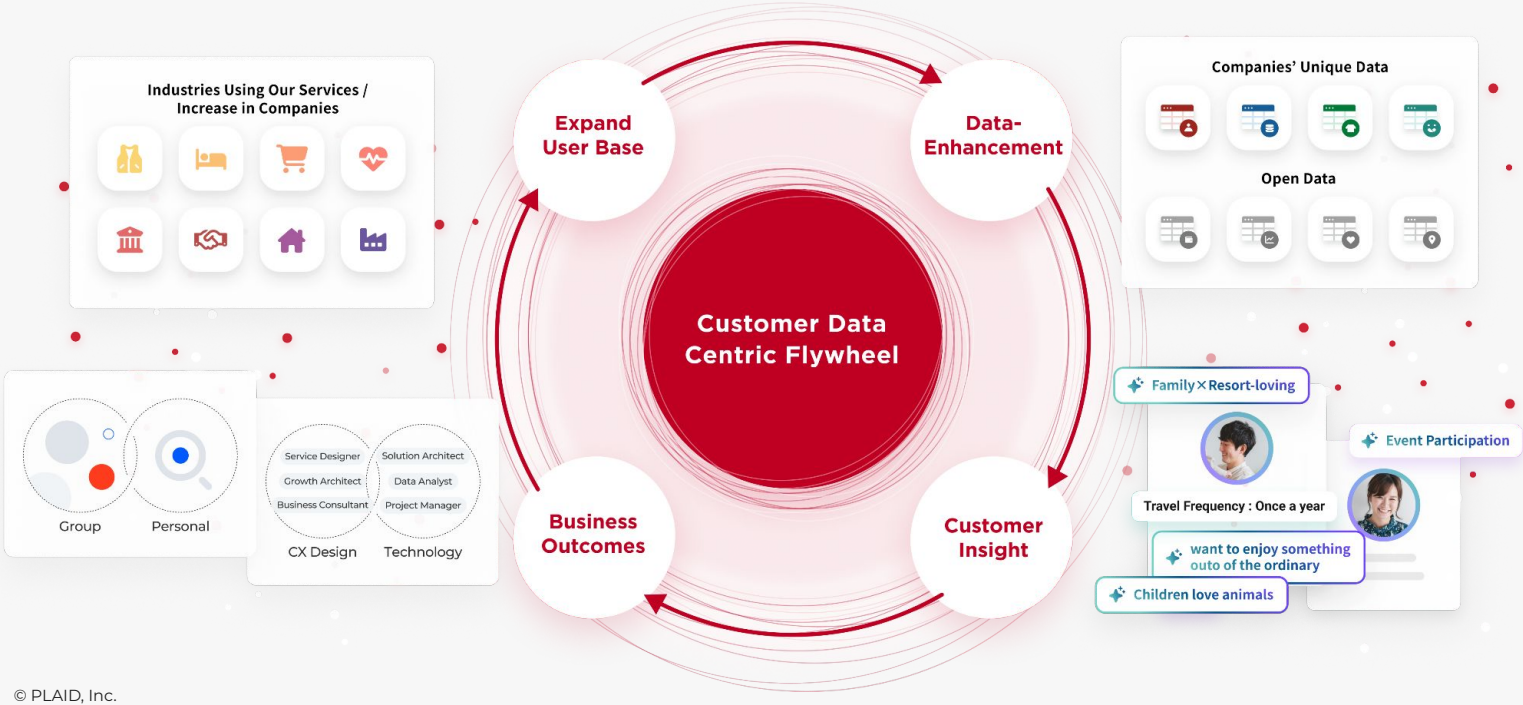

Business stagnation due to overemphasis on efficiency

Depletion of training data

© PLAID, Inc.

Core Strategy

- Core strategy built on a value creation cycle centered on 1st Party Customer Data
- In the AI era, competitiveness is driven by data-driven customer insight and the market, and on the AIX of its business activities and the entire process based on that understanding

 © PLAID, Inc.

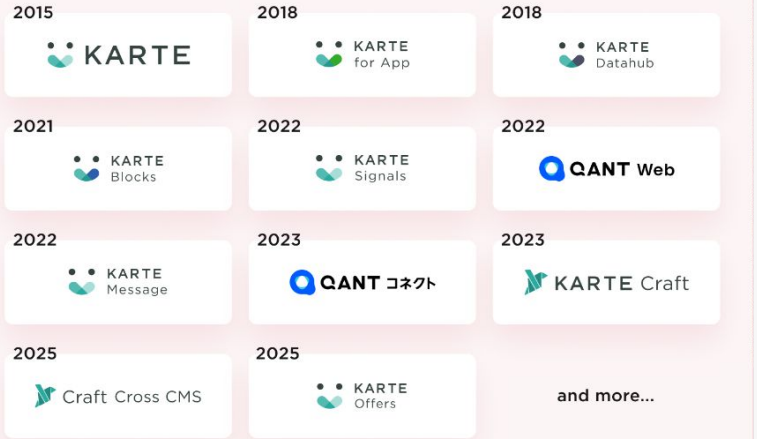

Proprietary Platform Continuously Capturing 1st Party Customer Data

- Providing tailor-made products across every customer touchpoint based on a proprietary analytics platform that visualizes individual customer behavior in real time, continuously generating and collecting rich, highly detailed 1st Party Customer Data
- Accelerate AI implementation lowers the barriers to customer and market understanding, fostering human-AI collaboration and promoting automation through AI agents

Real-time Analytics Platform

Continuous release of diverse products

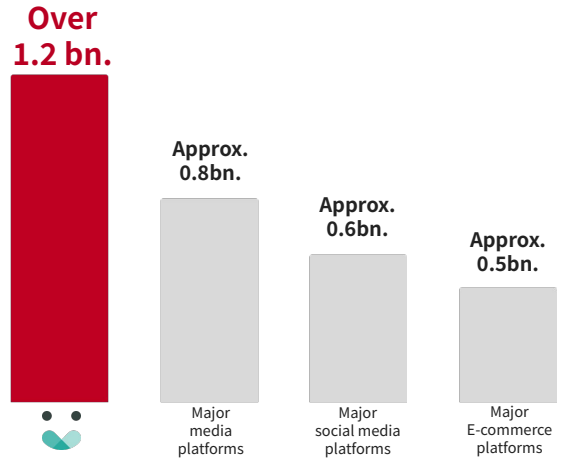

© PLAID, Inc.

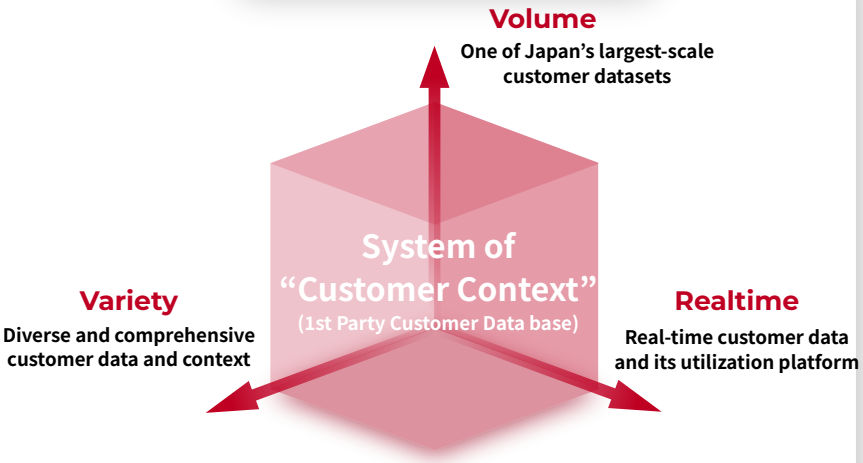

One of Japan’s Largest 1st Party Customer Data Platforms

- With over 1.2 billion MAUs[(1)(2)(3)] analyzed by KARTE, we have grown into one of the largest 1st Party Customer Data Platforms in Japan
- Fostering a data platform with large-scale, diverse, and real-time capabilities to provide enterprises with a high-quality data environment combining volume and precision

of MAUs analyzed by KARTE

Our company's data environment

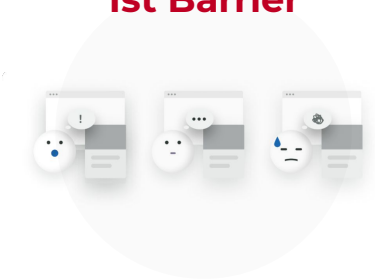

PLAID © PLAID, Inc.

Notes: 1. MAU: Monthly active users. The number of unique active users for a particular website or mobile application during a particular one-month period / 2. Total of the view events for all websites/applications where KARTE installed / 3. Based on data from Similarweb Ltd., our company compiled the comparison site numbers, which are the total monthly visitors in June 2026

Overcoming Two Business Barriers

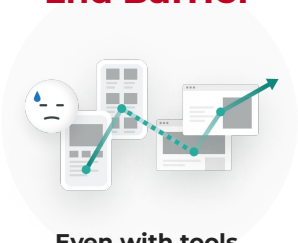

- Business activities are hindered by critical barriers in data analysis and development
- Drive solutions through 1st Party Customer Data, combining "AI (Automation)" and "People (Professional Services)"

1st Barrier

Even with data,
effective analysis for
customer understanding
is challenging

2nd Barrier

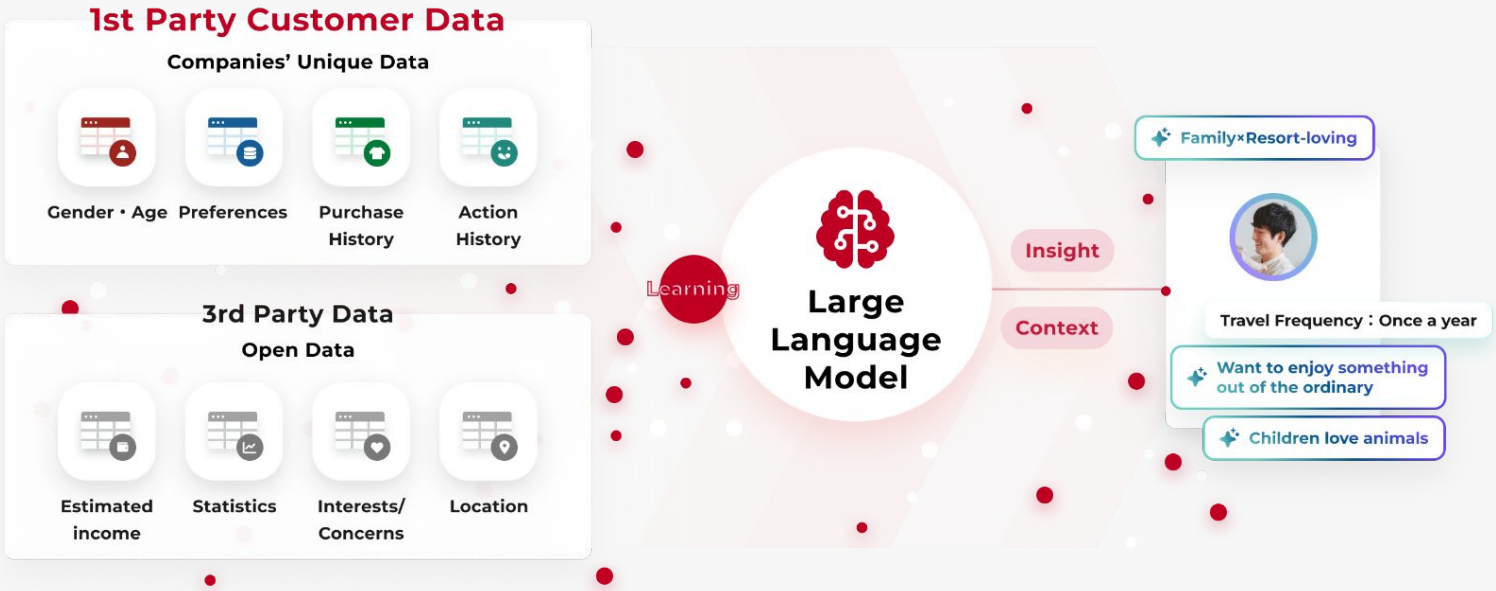

Even with tools,
designing measures across
all customer touchpoints
is challenging

1. **AI automating analysis and extraction of customer context from data**
2. **Automation of analysis and measure development via AI Agent Studio**
3. **Professional services providing strategy formulation and execution support**
4. **Management console and AI support ensuring secure and reliable operations**

© PLAID, Inc.

AI-Driven Breakthroughs in Customer and Market Understanding

- LLMs are ushering in an era where anyone can extract "insights" and "context" from vast data, even without advanced data analysis skills
- Leveraging large-scale customer data to enable advanced customer insights

© PLAID, Inc.

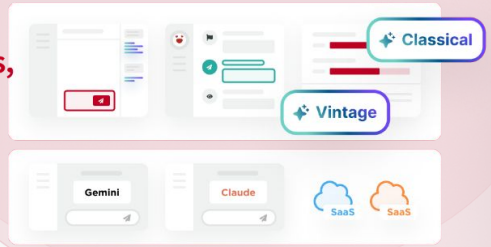

Comprehensive Solution Capabilities Delivering Business Outcomes

- Centering on 1st Party Customer Data, connecting our products, AI agents, and diverse environments through AI Agent Studio
- Accelerating implementation and value creation by providing professional services to comprehensively support business activities

Comprehensive support for all enterprise activities, grounded in deep customer insights

AI Agent SaaS Application

AI Agent and SaaS Application inside and outside PLAID

AI Agent Studio

Built on a foundation of a comprehensive product suite

Professional services

Data Generation, Collection, and Integration /Accelerating AI Agent Building

A New Professional Services Model for Sustainable Growth and Competitive Advantage

- Customer data, industry expertise, and IT capabilities enable the development of highly effective AI agents
- With all of these capabilities in-house, we are positioned to deliver more differentiated and effective professional services

03. Going Forward
A New Professional Services Model

Customer Data × Industry Expertise × IT Capabilities = Effective AI Agents

Differentiated customer data, deep industry expertise, and advanced IT capabilities enable highly effective AI agents and a new professional services model.

02. Today
Enhancing Customer Value

AI Embedded Across the Entire Service Delivery Process

CloudFit expands our DX capabilities across the value chain, while AI adoption improves productivity across service delivery.

01. To Date
Building Deep Industry Expertise

Expanding Our Track Record in CX/DX for Major Enterprises

CX initiatives for major enterprises have built deep industry expertise and expanded the sophistication and scope of our services.

Continued Share Gains, Closing In on the No. 1 Position

- Our market share in the CX/Marketing Suite market(1) steadily increased from 21.8% in 2023 to 27.3% in 2025
- The gap with the market leader narrowed from 13.5 percentage points in 2023 to 0.9 percentage points in 2025

* Source: Compiled by PLAID based on Fuji Chimera Research Institute, Inc. "Software Business New Market 2026 Edition," "Software Business New Market 2025 Edition," and "Software Business New Market 2024 Edition" (CX/Marketing Suite, <SaaS/PaaS>, Vendor Share, Revenue Basis, FY2023–FY2025 results)

Notes: 1. The market defined as products that collect a wide range of customer data across digital customer touchpoints—such as messaging tools like email, proprietary websites, and smartphone applications—as well as offline touchpoints like physical stores, and automatically execute optimal marketing initiatives based on that data.
(Excerpt from Fuji Chimera Research Institute, Inc. "Software Business New Market 2026 Edition")

PLAID © PLAID, Inc.

Hosted Business Conference "X DIVE"

- Hosted a conference on data strategy and management in the AI era, attracting ~700 attendees, mainly from digital departments
- Introducing our technology vision, partner alliances and examples of value co-creation with our client companies

The Essentials for Turning 1st Party Customer Data into a competitive advantage

- Converting 1st Party Customer Data generated from customer touchpoints into customer context
- Companies that accumulate data suitable for AI and utilise it across the entire organisation can build a genuine competitive advantage

Apps & Agents

Customer Context Data

Transform scattered data into "customer intent"

Integrated Development & Data Infrastructure

Leverage high-value data and AI across the entire organization

AI Agent Infrastructure

AI seamlessly executes human intent from analysis to execution

1st Party Customer Data

PLAID © PLAID, Inc.

Our AI Technology Stack & Products

- End-to-end support from customer context data to secure, agile development and AI agent deployment

	Customer Context Data **Context Lake**	Integrated Development & Data Infrastructure (WIP) **Obel**	AI Agent Infrastructure (New) **Agent Studio**
Overview	• **A data environment that integrates various data sources, including KARTE, to gain insights into customer context and enable a unique and in-depth understanding of customers**	• An integrated development and data infrastructure enabling **high-agility, secure data and application handling**	• An AI Agent leveraging customer context data to **complete the end-to-end process from strategy formulation to execution solely through natural language instructions**
Issues & Needs	• The commoditization of value propositions • The difficulty in identifying the factors that ensure customers continue to select the company	• Difficulty in co-creative development arises, as the interfaces that are easiest to use differ for users and AI respectively • Heightened risk of data misuse and proliferation of unmaintainable systems	• Operational inefficiencies caused by complex UIs and fragmented tools • High barriers due to required technical expertise and system learning curves
Our Value Proposition	• Enhancing corporate activities based on a high-resolution understanding of customers • E2E support, from the planning and execution of business strategies	• Development of an interface that is user-friendly for both users and AI • Enabling secure, flexible data integration and external connectivity within tenant-isolated environments	• Dramatic operational efficiency gains by delivering cross-tool AI Agents • Executing user intent solely through natural language instructions

© PLAID, Inc.

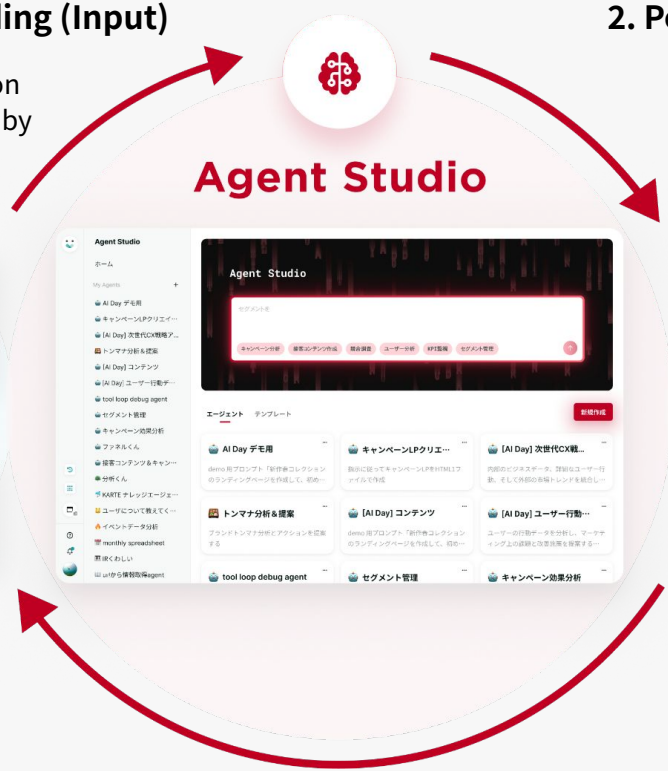

Strengths & Key Features of Agent Studio(1)

1. Unrivaled Customer Understanding (Input)

Holds an overwhelmingly high-definition understanding of customers—powered by Customer Context Data—on a unified platform

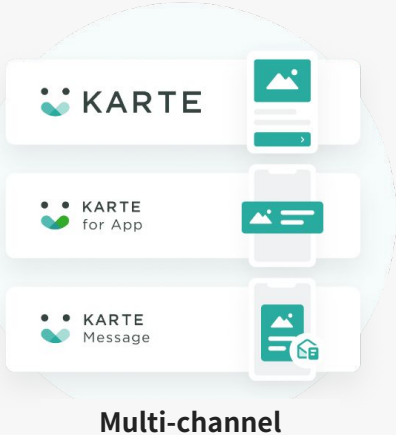

1st Party Customer Data

2. Powerful Execution Capabilities (Output)

Seamlessly integrated with multi-channel execution capabilities built on KARTE's 11-year track record

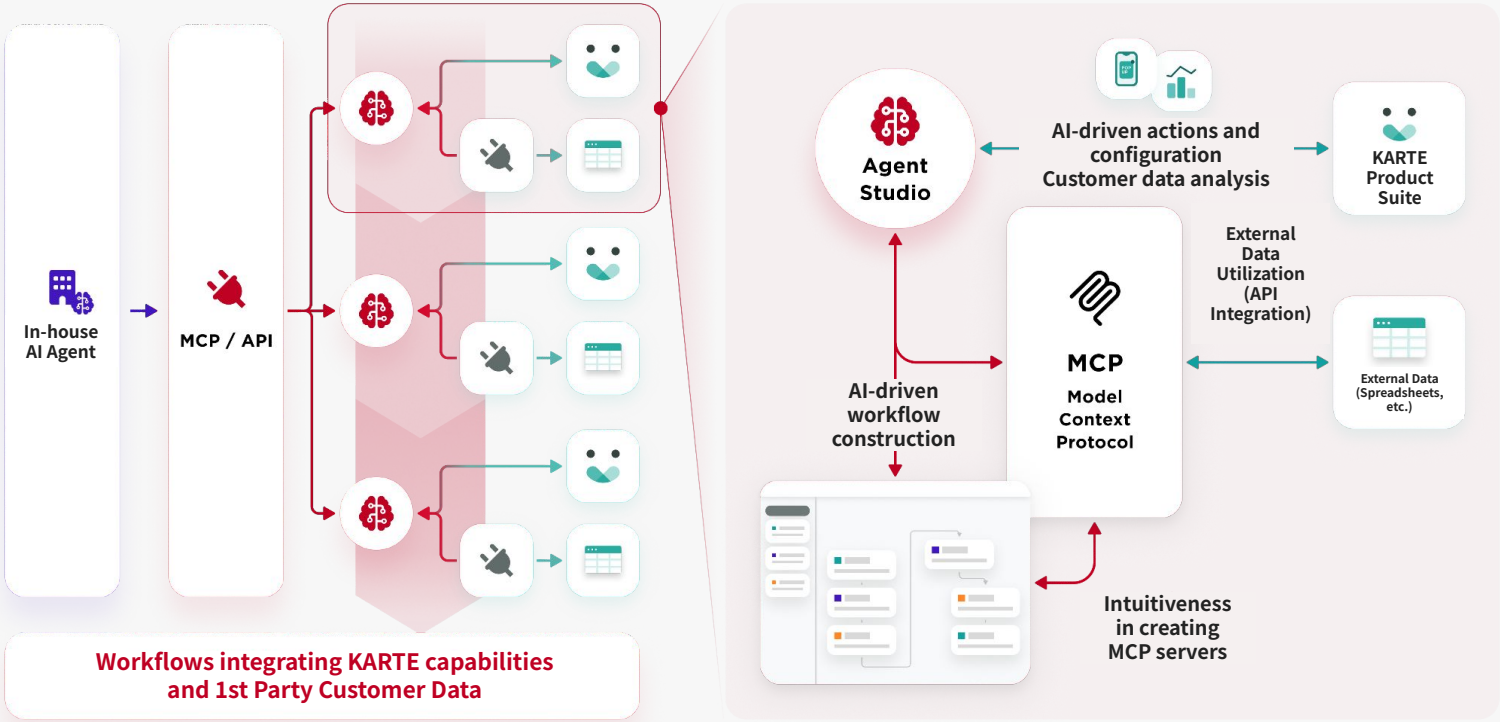

Multi-channel capable actions

© PLAID, Inc.

Strengths & Key Features of Agent Studio(2)

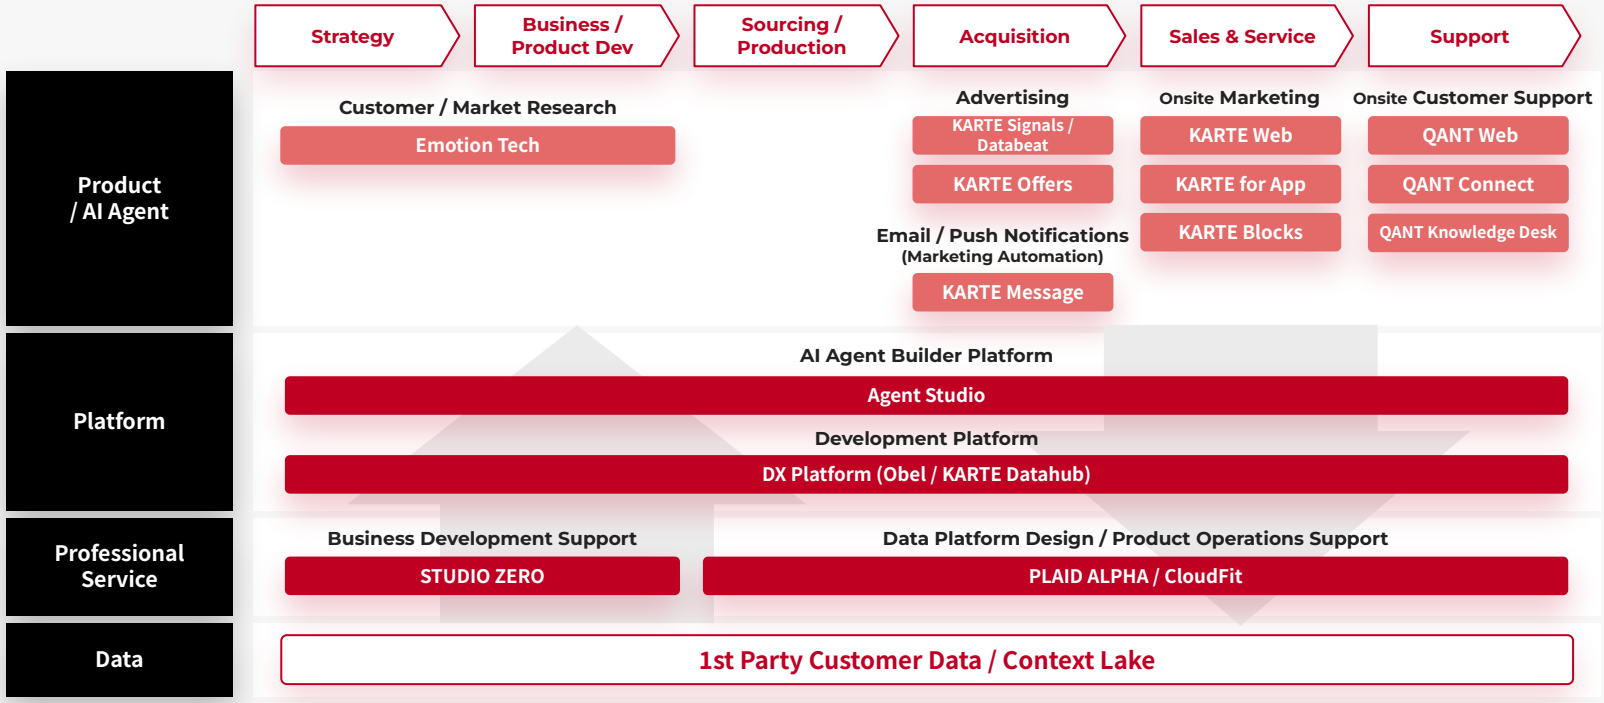

- Orchestrates our multi-product suite and enables mutual connectivity with external data and external AI Agents

 © PLAID, Inc.

Driving Customer-Centric Transformation Through Customer Data

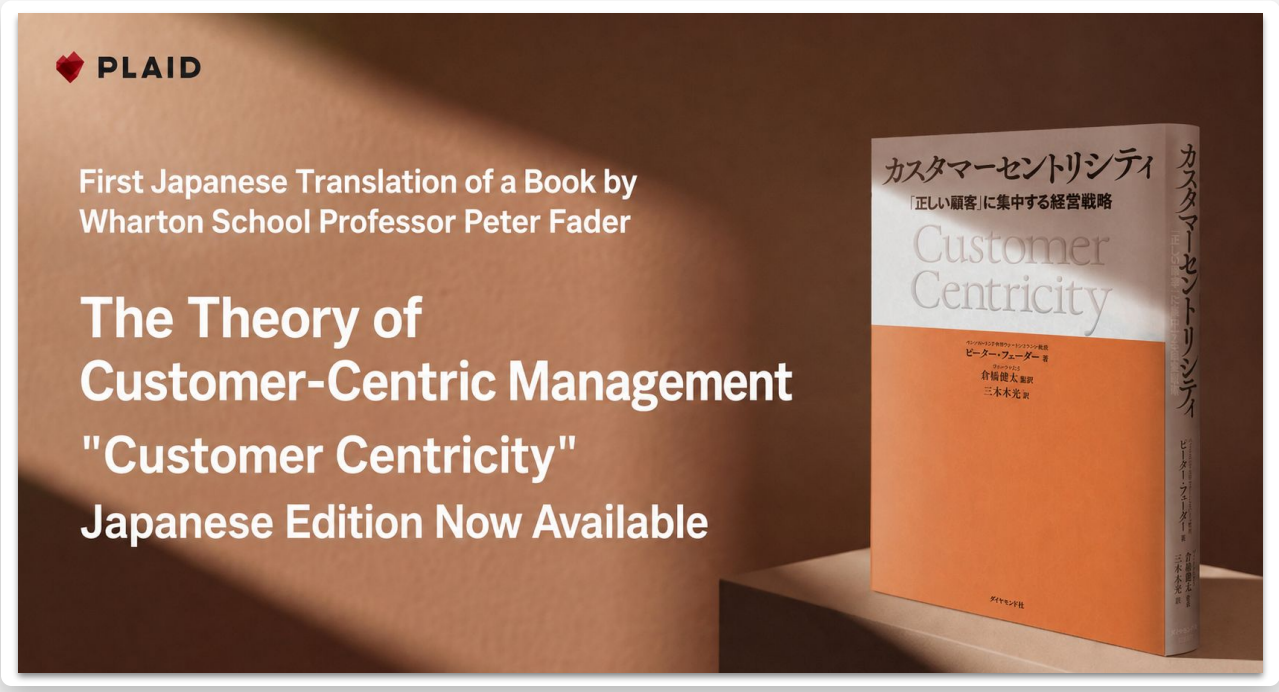

- Design data generated at customer touchpoints as an integrated customer data platform to deliver value back to upstream processes
- Support consistent, customer-centric management across diverse corporate activities, with vast potential to further expand and deepen our business domains

PLAID © PLAID, Inc.

Japanese Edition of Customer Centricity Published on June 16, 2026

- Customer centricity is a management framework that bases decision-making on the future value of customers
- Promoting this framework to accelerate the adoption of customer-centric management and market development in Japan

 © PLAID, Inc.

Potential for PLAID

Expanded Opportunities in Data Analytics & AI

 © PLAID, Inc. Source: Prepared by PLAID based on materials published by the Personal Information Protection Commission

Summary - External Environmental Changes and Our Vision

External Environmental Changes

- Growing importance of 1st-party customer data (closed data) driven by the widespread adoption of AI
- Emerging signs of greater data utilization flexibility brought by legal revisions

Our Strengths

- One of the largest 1st party customer data platforms in the domestic market
- Advanced technology stack & products that transform massive Data into corporate competitive advantage
- Professional services accelerating business outcomes for enterprises

Our Vision

- Through the integrated provision of customer data, AI agents and professional services, evolving our business position from a marketing SaaS provider to a platform that supports the transformation towards customer-centric management

Consolidated Financial Results

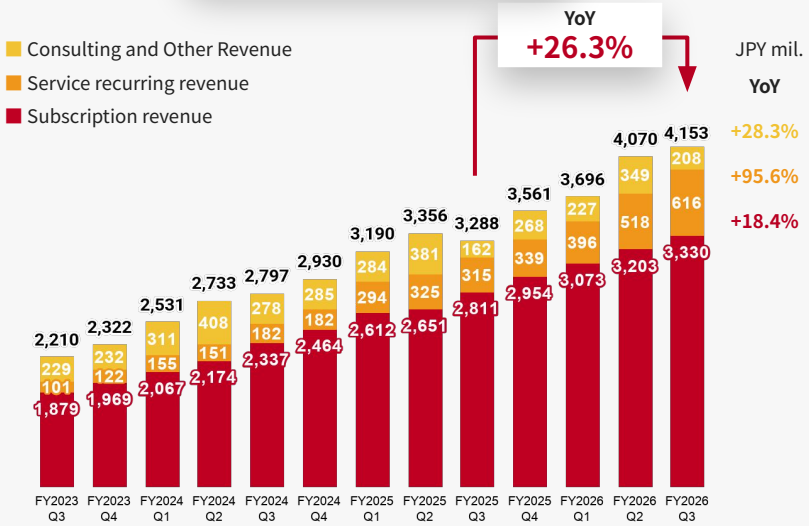

PLAID © PLAID, Inc.

Consolidated

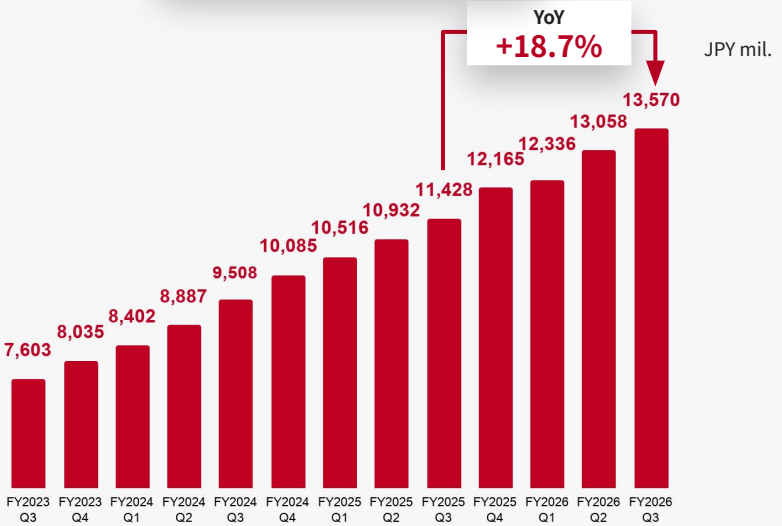

Subscription Revenue and Service Recurring Revenue Growing Steadily

- Revenue increased by +26.3% YoY to JPY 4,153 mil.
- Subscription revenue grew by +18.4% YoY
- Service recurring revenue increased significantly by +95.6% YoY, driven by strong performance of PLAID ALPHA and the consolidation of CloudFit

Consolidated Revenue

Consolidated ARR

PLAID © PLAID, Inc.

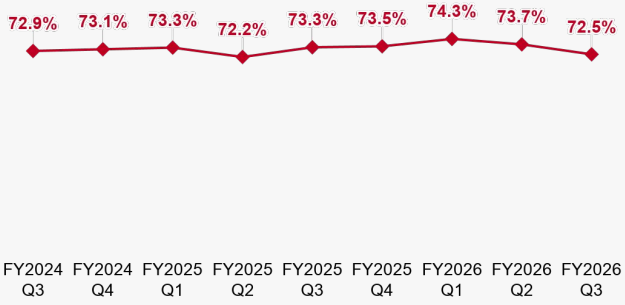

Notes: 1. Annual Recurring Revenue. Calculated by multiplying the monthly subscription sales at the end of each quarter by 12

Consolidated

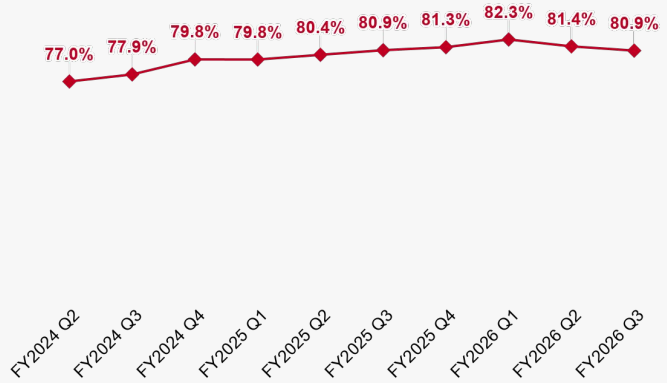

Gross profit margin[1] remained stable

- Q3 gross profit margin was 72.5%
- Subscription gross margin[2] remained stable at 80.9%

Gross profit margin

Subscription Gross Profit Margin

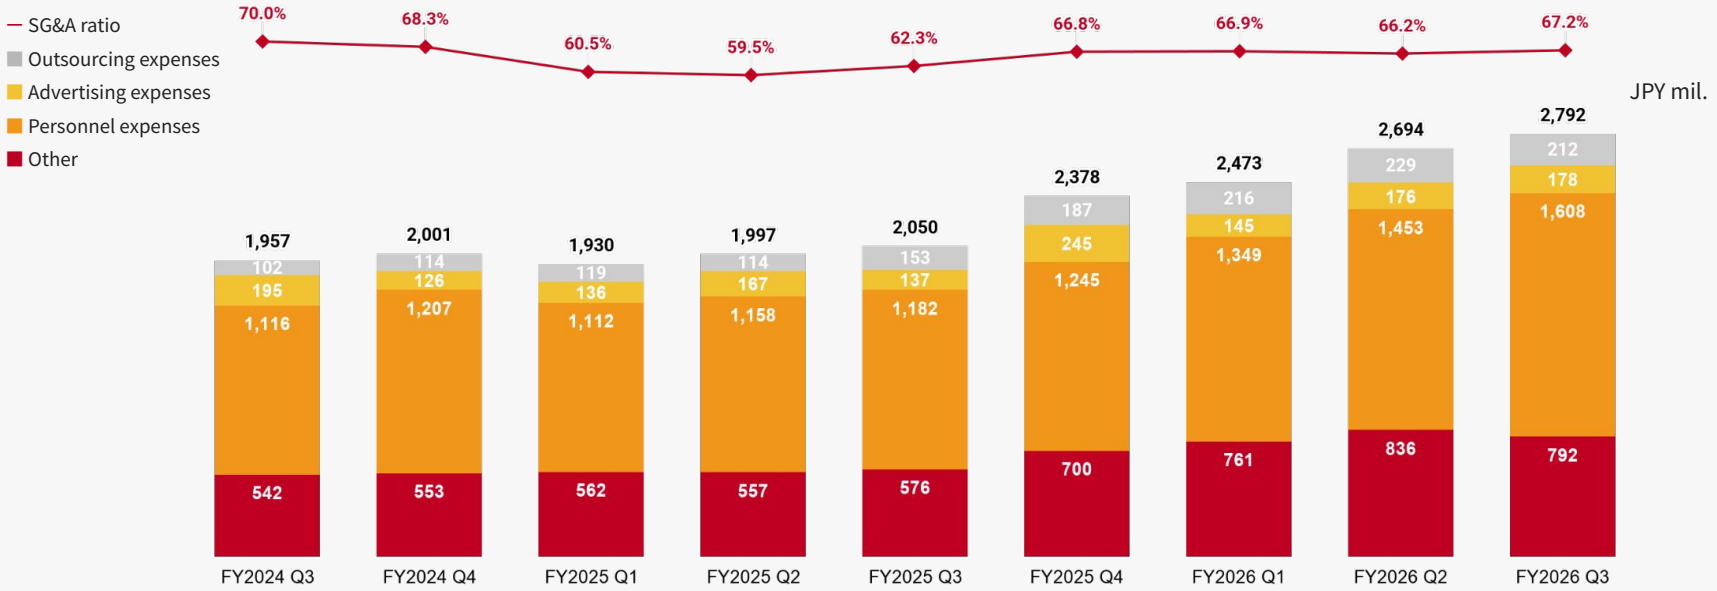

PLAID © PLAID, Inc.

Notes: 1. After deduction of provision for loss on order received / 2. After deduction of provision for loss on order received; represents the gross profit margin relative to subscription revenue

Consolidated

Growth Investments Peak in Q3; SG&A Ratio Expected to Gradually Decline from Q4

- Although the recruitment and investment in AI-related areas have been pursued actively since the start of the financial year, the increase in SG&A expenses peaked in Q3
- The SG&A ratio is expected to decline gradually from Q4 onward as growth investments normalize and expenditure growth moderates

 © PLAID, Inc.

Consolidated

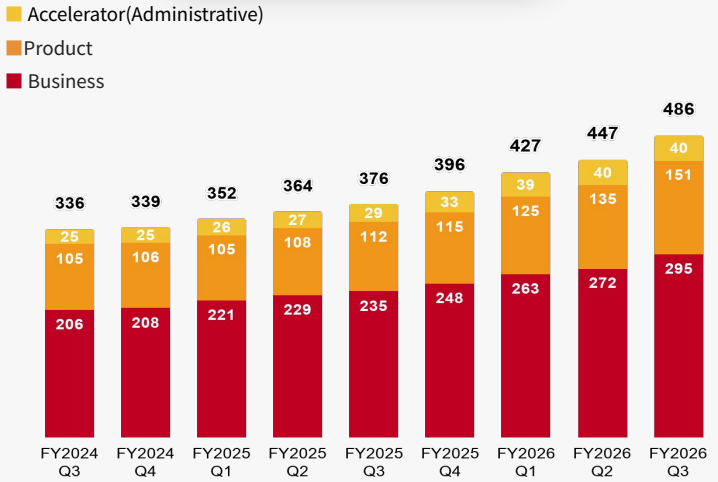

Headcount Is Growing Steadily

- The number of consolidated employees at the end of Q3 was 624, up 31 from QoQ
- Full-year hiring plans were largely secured in Q3, and net headcount growth is expected to moderate from Q4 onward

Number of employees_Consolidated

Number of employees by role Non-Consolidated(1)

 © PLAID, Inc.

Notes: 1. Absorbed consolidated subsidiary agito Inc. through a merger effective June 1, 2026

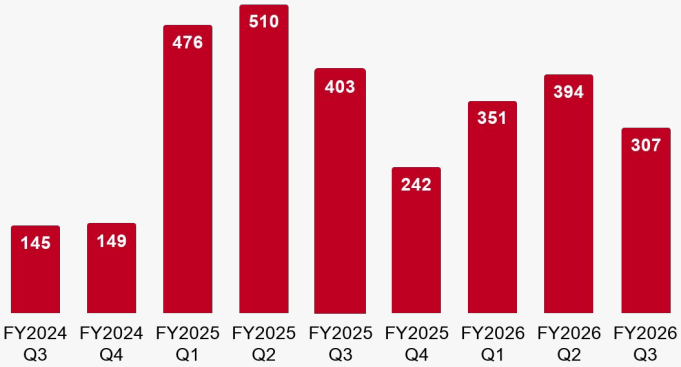

Consolidated

Adjusted Operating Income[1] for Q3 landed at JPY 307 Million

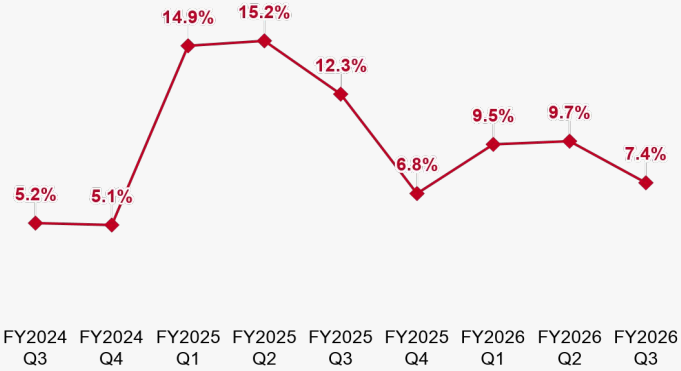

- Consistently generating profit while actively making growth investments
- From Q4 onward, earnings are expected to shift to an upward trend, driven by sustained revenue growth and moderating SG&A expenses

Adjusted operating income

JPY mil.

Adjusted Operating Profit Margin

 © PLAID, Inc.

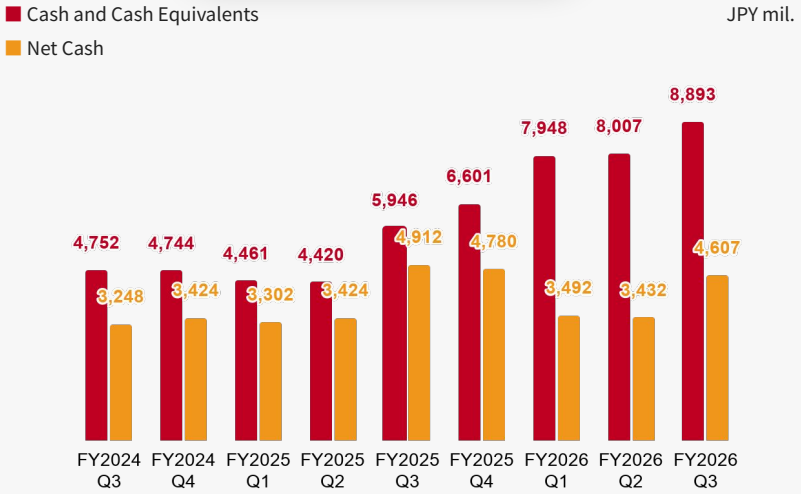

Notes: 1. Operating income + Goodwill amortization + Stock-based compensation expenses + Other one-time cost

Consolidated

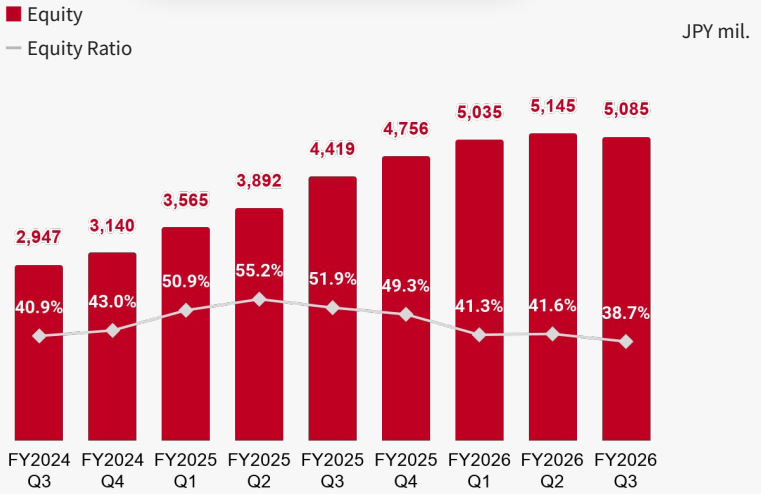

Cash on Hand and Equity Maintained at Stable Levels

- Net cash increased due to annual one-time payments since contract renewals are concentrated in Q3
- Drive sustainable corporate value enhancement via M&A and shareholder returns, while maintaining financial soundness

Cash and Net Cash

Equity

Business Domain Mapping

- Design data generated at customer touchpoints as an integrated customer data platform to deliver value back to upstream processes
- Enabling consistent customer-centric management across the enterprise, with significant room to expand our business scope

Main Products / Services -1

Offerings	Product/Service	Summary
Onsite marketing	KARTE / KARTE for App	Visualize the “now” of each customer online and support marketing activities of companies through flexible action design based on analysis results
Site improvement	KARTE Blocks	By breaking down every element of a website into blocks and enabling fast revisions, hypothesis testing, and performance measurement, allowing for continuous performance improvement and lean site operations
Data integration	KARTE Datahub	By connecting data owned by customers to KARTE and enabling advanced segmentation and action by integrating/analyzing/visualizing data scattered data from internal and external sources as big data
Advertising	KARTE Signals	Realize consistent customer communication both on and off the website through integration with various advertising media such as accumulated data by KARTE
Marketing automation	KARTE Message	KARTE marketing automation enables customers to have communication outside the website via e-mail, SMS, etc., using our unique customer journey function
Data infrastructure design / product implementation	PLAID ALPHA CloudFit	Professional services including support for utilizing KARTE and consulting on CX. Also assisting customers in resolving challenges related to their resources and capabilities and creating value

PLAID © PLAID, Inc.

Main Products / Services -2

Offerings	Product/Service	Summary
Strategic planning / Business development	STUDIO ZERO	With the mission of “Accelerating Industrial and Social Transformation,” providing professional services that support new value creation and business development by working side-by-side with companies
Onsite customer support	QANT Web (1)	Visualize the issues of each customer who needs support online, and match them to appropriate support channels such as FAQs to achieve early resolution to issues
Onsite customer support	QANT Connect (1)	Data on each customer's previous inquiry is returned to the company's operators, enabling them to smoothly grasp what the customer wants when answering the phone, greatly improving the quality and response time
Customer research/ Voice of customer	EmotionTech CX	Products and consulting services to collect/analyze customer emotional data, including NPS®(1)
Advertising	Databeat	Providing a Marketing Data Platform that enables automatic collection/accumulation of advertising-related data, analysis, and flexible data output. Also supporting marketers in customer companies by reducing operational workload and assisting in the establishment of a data utilization environment

 © PLAID, Inc.

Notes 1.Effective August 2025, “RightSupport by KARTE” will be renamed to “QANT Web,” and “RightConnect by KARTE” will be renamed to “QANT Connect” / 2. Net Promoter®, NPS®, NPS Prism®, and the NPS-related emoticons are registered trademarks of Bain & Company, Inc., Satmetrix Systems, Inc., and Fred Reichheld

Appendix

Industry-Wide Proportion of KARTE-introduced Websites and Apps (Sep. 2025)[1]

- Product adoption is progressing across a wide range of industries, primarily in B2C
- Build a customer database useful for corporate strategy formulation and execution, incorporating industry-specific customer behavior characteristics and the company's unique strengths

Notes: 1.Aggregated data covers products offered individually, such as Web, App, Datahub, and Blocks.
