1. CAGR from FY2024.6

2. Following the transition to IFRS as of FY2024.6, disclosure is conducted based on IFRS beginning with the business results for FY2023.6.

3. In the event an opportunity arises for significant growth that will contribute to the future growth of the company, a temporary loss may be incurred resulting from making a flexible investment, but the company will explain the investment if this occurs.

FY2027.6—Mid-Term Objectives of Main Businesses (Updated)

Group-wide

Mid-Term Objectives

- Work with external partners to realize an ecosystem
- Promote global expansion by growing our US business and strengthening crossborder transactions
- Create a borderless organization where talent from all over the world can thrive and strengthen I&D
- Create an AI-Native company

Marketplace

Objectives

- In addition to the stable growth of C2C, lead the market with high growth of crossborder transactions and B2C
- Establish a firm position in the on-demand work industry

Focus Areas

- Strengthen the core experience of the product
- Redesign UI/UX using AI/LLMs
- Crossborder transactions/B2C
- On-demand work
- Ads

Fintech

Objectives

- Expand Group synergy
- Lift core operating profit to over 10B JPY and establish Fintech as the second pillar of Mercari Group

Focus Areas

- Expand payments and credit balance focused on the loyalty program
- Maintain and enhance AI credit accuracy and collection rates
- Expand usage situations and types of cryptoassets

US

Objectives

- Establish an independent position by distinguishing our product clearly
- Realize sustainable growth while essentially continuing to break even

Focus Areas

- Enhance the product's core experience
- Use AI to innovate our UI/UX
- Differentiate Mercari from our competitors with category-specific strategies

Organization base as an AI-Native Company

Our Innovations in AI and Evolution into an AI-Native Company

Dramatically change our organization and product with AI at the base of all our operations to establish a firmer competitive advantage

Our Efforts to Become an AI-Native Company

- We are already seeing dramatic improvements in productivity due to AI
- We will continue to advance product innovation and organizational reform

Current Progress on AI Utilization

Percentage of employees using AI-powered tools¹ **95%**

Percentage of code for product development generated by AI² **70%**

Productivity increase per engineer involved in development³ **+64%**
YoY

Product innovation

Integrate AI in our infrastructure to restructure a safe and secure platform
Create services that anyone can use effortlessly

Examples of actions we have started working on:

- Building customer support infrastructure such as AI-driven chat support
- Using AI to eliminate fraudulent usage
- Developing AI agents that support the process of buying/selling items on Mercari

Organizational reform

Created an AI Task Force of approx. 100 people
Redesigned our workstyles to encourage growth of the business

- List all of our work processes and start planning the implementation of AI
- Rebuild our work processes based on AI (to be completed by December 2025)

1. Percentage of Mercari Group employees using one or more major AI tools (ChatGPT, Gemini, Claude Code, Cursor, Devin, Notion AI, or an internally developed AI tool) as of July 2025 (excludes employees on leave, departing employees, and persons hired by the Kashima Antlers)

2. Percentage of total code changes made within Mercari Group that were generated using three major AI tools (Cursor, Claude Code, and Devin) as of June 2025; figure includes code that was not implemented

3. The development output per engineer is calculated by dividing the total amount of code changes at Mercari Group in June 2024 and June 2025 by the number of engineers at each respective time

FY2025.6 Business Objectives

- Aim for a GMV growth rate of around +10% YoY and an adjusted¹ core operating margin² of 37–42% through strong growth of crossborder transactions and B2C, in addition to steady growth of the C2C business
- *Mercari Hallo*: Establish an environment enabling the service to be used across the country and aim to become the number-one service in Japan in the medium term

Although crossborder transactions and B2C continued to see high growth and the impact of fraudulent use on GMV was kept minimal due to our speedy response, the GMV growth rate for the full year was +4% YoY and did not achieve the target

Adjusted core operating margin was 38% (43% excluding *Mercari Hallo*), achieving high profitability

We executed effective investment in *Mercari Hallo*, and in one year we substantially grew the number of registered crew and partner locations. *Mercari Hallo* started to collect service fees in April after ending a no merchant fee promotion that lasted approximately a year

1. In Q4 of FY2025.6, Mercari Group transferred the sales and costs of MVNO from Marketplace to the Other Bets segment, a new organization created under the Japan Business (name was changed from Japan Region as of FY2025.6 Q4)

2. Profit after deduction of internal transactions with Marketplace/Fintech (outsourced payment processing fees)

3. Core operating profit is defined as IFRS operating profit excluding other income/expenses, etc.

Credit Balance¹ and Collection Rates²

1. Merpay Smart Payments (lump-sum payment, fixed-amount payment, or installment payment) and Smart Money credit balance at the end of the quarter (excludes debt converted into bankruptcy reorganization debt)

2. Weighted average rate of the quarterly cumulative collections completed within the past 11 months compared to the amount of Merpay Smart Payments (lump-sum payment, fixed-amount payment, and installment payment) and Smart Money billed in the past 11 months (excludes bankruptcy reorganization debt)

3. Installment payment (two-installment payment only) can be used without incurring fees, so credit balance is disclosed together with lump-sum payment, which does not generate interest income. However, installment payment of three or more installments does generate interest income (annual rate 15.0%), and therefore, credit balance is disclosed together with fixed-amount payment

**FY2025.6
Business Objectives****Commit to breaking even and aim to get back on track for growth**

In addition to continuing as Group CEO, Shintaro Yamada has also assumed the role of US CEO from H2. As a result of placing focus once again on strengthening the product's core experience and carrying out updates to the fee model, etc., saw signs of improvement in GMV growth rate

As a result of improving unit economics, optimizing marketing costs, and further reviewing fixed costs, achieved US's first positive full-year profit with a core operating profit of 900 million JPY

Successfully broke even and saw positive signs in GMV growth trends. Given this progress, will continue the business and aim to get back on track for growth quickly

US—State of the Business

- Under the new leadership beginning in H2, YoY GMV growth rate reversed direction as a result of reviewing strategies
- Profit and cost structure improved significantly

GMV Continued to Trend Upward

- YoY GMV growth rate trend reversed direction as a result of strengthening anti-fraud measures, improving the listing/buying experience, and changing the fee model

YoY GMV Growth Rate

Successfully Broke Even

- Achieved US's first positive full-year profit as a result of enhancing the product's core experience and reviewing the business's cost structure

Core Operating Profit

(Billion JPY)

1. Removed selling fees and changed to a model where the buyer pays fees

2. Changed the buyer-paid service fee from a model where the rate depends on category, brand, and other factors to a flat rate of 10%

3. Changed to a fee model where the seller pays a selling fee of 10% and the buyer pays a buyer protection fee of 3.6%

Break even³

Positive full-year GMV growth YoY

Policy/Major Initiatives

- Differentiate *Mercari* from our competitors with category-specific strategies
- Enhance the product's core experience

1. Core operating profit is defined as IFRS operating profit excluding other income/expenses, etc.

2. People overseas register as *Mercari* users, which allows them to purchase items in their local language and with prices shown in the local currency, while sales and payments are handled through a third-party company, creating a smooth user experience

3. Envisioning break-even based on IFRS core operating profit

4 Marketplace—Business Objectives

mercari

Objectives

- While prioritizing enhancing the product's core experience, also emphasize strengthening crossborder transactions to lay the foundation for accelerating GMV growth in FY2027.6 and beyond
- Aim for GMV growth rate of +3–5% YoY and core operating profit of 32.0B–36.0B JPY¹

Enhancing the Product's Core Experience

Establish *Mercari* as a safe and secure marketplace and continue enhancing the product's core experience for both buyers and sellers

Crossborder Transactions

Focus on the Entertainment & Hobbies category and expand *Mercari's* presence in the global market by increasing the number of countries to which we provide direct crossborder transactions² and by strengthening UI/UX

1. Core operating profit for FY2025.6 is 30.5B JPY

2. People overseas register as *Mercari* users, which allows them to purchase items in their local language and with prices shown in the local currency, while sales and payments are handled through a third-party company, creating a smooth user experience

Marketplace—Enhancing the Product's Core Experience mercari

- We will prioritize enhancing the product's core experience, which supports the growth of C2C, B2C, and crossborder transactions, and establish *Mercari* as a safe and secure marketplace that is easy for anyone to use

Establishing a Safe and Secure Environment

- Leverage AI to detect and score fraudulent users, restrict account usage, and take legal action
- With the new Mercari Appraisal Center, eradicate listings of counterfeit brand-name items and encourage purchase of high-priced items
- Offer users support covering the full price of the item in the event of a transaction dispute and provide an environment that helps users feel at ease using *Mercari*

不正利用者の

Strengthening the User Experience

- As a driver to increasing the number of transactions, move forward with a discovery experience that leverages AI to promote users' desire to buy things
- Strengthen the user experience by expanding anonymous shipping and offering new shipping options

Marketplace—Accelerating Growth with Crossborder Transactions

- The Toys, Figurines & Merchandise category makes up 60% of crossborder transactions on *Mercari*, with items unique to Japan particularly popular
- The market size of the Entertainment & Hobbies category, which is *Mercari*'s strength, was 120 billion USD (17 trillion JPY)¹ in 2023, and the share of Japanese IP in the same market globally (excluding Japan) was approximately 24%, showing strong potential for growth

Crossborder GMV

- Crossborder GMV grew 15x in the past 3 years, reaching 90.0B JPY in FY2025.6
- Launched direct crossborder transactions² in Taiwan and Hong Kong in FY2025.6 aiming for further growth

(billion JPY)

Future Policy

- Expand Mercari's presence in the global market by increasing countries to which direct crossborder transactions are available and strengthening UI/UX
- Promote business listings from our B2C business in order to meet the high overseas demand for Entertainment & Hobbies items from Japan

Aim for further growth as the leading player in both primary and secondary distribution for Entertainment & Hobbies items

1. Source: Calculations by Mercari based on a report from a research agency

2. People overseas register as *Mercari* users, which allows them to purchase items in their local language and with prices shown in the local currency, while sales and payments are handled through a third-party company, creating a smooth user experience

4 Marketplace—On-Demand Work

mercari

- Improve profitability by establishing fees as a source of revenue and carrying out disciplined investments
- Optimize crew acquisition by polishing the product and carrying out effective marketing

Crew Acquisition

- Design the UI/UX to be easy to use even for people new to on-demand work; activate latent users of various attributes
- Carry out effective and targeted marketing to increase recognition of the service

Mercari Hallo home screen showing job openings for beginners

Partner Acquisition

- Move ahead with service/system integration customized to individual companies and industries to meet the needs of partners
- Leverage generative AI to reduce the work involved in posting job listings

4 Fintech—Business Objectives

mercari

Objectives

- Establish the foundation to become a product that is chosen by users for all payment/credit use cases
- Aim for core operating profit of 5.0–7.5B JPY

Increasing Users Through *Mercard*

Continue to increase *Merpay* users mainly by increasing *Mercard* holders

Increasing Usage Amount Per User

Increase usage of payment/credit through initiatives such as encouraging users to make *Mercard* their main card and to convert to *Mercard Gold*

Leveraging Partnerships

Expand features that contribute to enhancing ease-of-use by integrating with external services in addition to inhouse development

Fintech—Focus Areas

Increasing Mercard Holders

- The number of issued Mercards exceeded 5 million as of July; will continue to aim to acquire more cardholders focused on *Mercari's* 18 million identity-verified users

Increasing Usage Amount

- Aim to increase everyday usage of payment/credit services through *Mercard Gold*, which has a high credit limit and stronger incentives for external payments, and expansion of scope of installment payment availability

Began offering installment payments for payments outside of *Mercari* on June 30, 2025

Partnerships

- Leverage partnerships to realize flexible feature expansion; through collaboration between Mercoin and Coincheck, Inc., will expand the types of cryptoassets that can be traded, increase transaction volume, and promote diversification of revenue sources

Objectives

- Continue to break even while aiming for positive full-year GMV growth YoY by enhancing the product's core experience and distinguishing us from our competitors by using category-specific strategies

**Enhancing the Product's
Core Experience**

Realize exceptional ease of use and safety with updates to the UI/UX leveraging AI and strengthening anti-fraud measures

**Distinguishing *Mercari* from
Competitors by Using
Category-Specific Strategies**

Offer competitive shipping options and carry out initiatives to increase trust in *Mercari*, mainly in *Mercari's* flagship fashion-related categories

4 US—Category-Specific Strategies

mercari

- To firmly distinguish *Mercari* from our competitors in fashion categories, which have the highest GMV share, we will offer competitive shipping options and carry out initiatives such as a proof-of-concept of a clothing exchange program in FY2026.6
- In the mid-to-long term, will aim to expand to other categories

Financial Policy

5 Approach to Capital Allocation

mercari

- Alongside our transition to a phase of profit growth, we expect retained earnings to become positive in FY2026.6 if progress goes according to our plans

Internal Reserve Levels

- Gradually build up equity capital with the expansion of Fintech and other businesses to ensure stable financing capabilities
- Boost financing efficiency by enhancing external ratings, etc. and prioritize debt financing for the funds necessary for the credit business

Capital Allocation Priorities

- For cash other than internal reserves, compare the following options and prioritize carrying out capital allocation that will contribute to long-term profit growth
 1. Growth investment in existing businesses and new businesses (including M&As)
 2. Investment in Mercari, centered around stock buybacks
- For shareholder returns, prioritize stock buybacks over dividends from the perspective of maintaining flexibility to make quick decisions

5 Dividends from US Subsidiary

- We published a timely disclosure on the same date that we released the FY2025.6 Q4 financial results

Recording of Corporate Income Tax Expense (Benefit)

- As the amount of equity required to be held according to US laws has decreased and our US business has recorded a profit, Mercari, Inc. (US), which operates our US business, paid dividends to its parent company from its capital surplus as part of its capital policy
- As a result, a portion of the loss on valuation of shares of subsidiaries and associates that was added from a taxation standpoint in previous fiscal years has been acknowledged, and Mercari, Inc. (US) recorded a corporate income tax expense (benefit) of 8.3 billion JPY for FY2025.6
- The amount of dividends has been calculated from the perspective of financial soundness compared to the decreased amount of equity required to be held according to US laws; Mercari, Inc. (US) may pay additional dividends in FY2026.6 and beyond based on its financial situation

1. Signed after Mercari obtained third-party evaluation for conformance with the "Sustainability Linked Loan Principles" and "Green Loan and Sustainability-Linked Loan Guidelines"

2. A shortened form of "New and Prosperous Lifestyles toward Decarbonization," it is a new word created by combining portions of three words: the "de" of decarbonization (reduction of carbon dioxide [CO₂]); the "eco" in ecologically friendly; and "katsu," which is part of the Japanese words for both activity (*katsudo*) and daily living (*seikatsu*)

3. Aiming to pave the way to a society that circulates all forms of value, which is Mercari's mission

4. As of June 30, 2025

Major Itemization of Consolidated BS

- We will continue to leverage various methods of financing and appropriately control our balance sheet to maintain a sound financial foundation

Primarily deposits related to user funds and government bonds

With regard to preservation of user funds, we act in accordance with laws regarding funds transfer services, etc., by depositing funds and government bonds to the authorities and concluding a Guarantee Contract for Security Deposits for Providing Funds Transfer Services with financial institutions

Mainly credit from transactions within *Mercari*, items under "Trade accounts receivable", items under "Allowance for doubtful accounts", etc.

Credit balance from *Merpay's* credit services

Convertible bonds and long-term borrowings

Long-term borrowings, including convertible bonds but excluding funds financed by liquidating receivables
In September 2024, purchased approximately 21B JPY worth of the total 50B JPY euro-yen denominated convertible bonds issued in July 2021 (25B JPY maturing in 2026, 25B JPY maturing in 2028)

Mainly *Mercari* sales balance (including US) and wallet balance from users adding funds from banks

Funds financed by liquidating receivables

Liquidated lump-sum payment and fixed-amount payment receivables for *Merpay Smart Payments*. Starting FY2023.6, we have carried out non-recourse² financing for a portion of liquidated receivables.

Total assets at end of FY2025.6 Q4: **543.7B JPY**

1. Among non-current assets, 30.0B of other financial assets falls under investment securities. In accordance with carrying out investment securities, Mercari Group is proceeding with refund processing for a portion of deposits, with the expectation that guarantee deposits will decrease as of the end of Q1.

2. A method of financing in which the amount collected from the credit is the only source of repayment, and the repayment obligation is not borne by Mercari

Approach to Financing for Credit Services

- We plan to expand and diversify financing in sync with the growth of our credit services centered on non-recourse¹ receivable liquidation, in which financing is based on confidence in the actual credit receivable for *Merpay Smart Payments*

- We have received an external rating for *Merpay Smart Payments* fixed-amount payment receivables and carried out non-recourse¹ financing for a total of 93.3B JPY as of the end of FY2025.6 Q4.
- Additionally, we have liquidated receivables in line with the growth of our credit balance per month, with the maximum amount set to 34.0B JPY for fixed-amount payment and 50.0B JPY for lump-sum payment, and improved the efficiency of our funds.

1. A method of financing in which the amount collected from the credit is the only source of repayment, and the repayment obligation is not borne by Mercari

- We moved MVNO from Marketplace to a new segment under Japan Business¹ called “Other Bets,” established based on nature of profitability

1. Renamed Japan Region to Japan Business in FY2026.6 Q1

Marketplace—Cost Composition (Quarterly)

(Billion JPY)

1. In accordance with accounting standards, starting in FY2024.6 Q4, a portion of point-related expenses (attributed to advertising costs) is deducted from revenue figures and advertising costs

2. Outsourcing expenses, land rent and depreciation, etc.
