Our group promotes the trust service business that supports the trust of the digital society by proving the legitimacy, completeness, and authenticity of "people," "goods," and "action" in a society where various things are connected to the Internet and all processes are digitized.

During the first quarter of the current fiscal year (April 1, 2024 to June 30, 2024), the Japanese economy has recently been stagnant, but the domestic economy has been recovering moderately, thanks in part to the improvement in the employment and income environment and the effects of various policies. However, the outlook remains uncertain due to concerns over economic and price developments against the backdrop of continued high interest rate levels in Europe and the United States and rising domestic prices.

The business climate surrounding us is accelerating the pace of DX promotion, such as changes in lifestyles such as removing a stamp, on-line, and non-face-to-face life, as well as changes in legal systems accompanying advances in digital technology and digitization. In addition, with the increase in cyber-attacks and cyber crime, the development of international security standards in each country and movements in economic security are progressing. The necessity of responding to standards and laws and regulations related to economic security is becoming evident not only domestically but also primarily in manufacturing and other industries that operate globally.

Against this backdrop, in the Certification and Security Services segment, we captured security needs stemming from the expansion of DX market. Net sales grew 4.1% year on year to 921 million yen. This was due to growth in transactions with (1) eKYC services and electronic contract services for financial institutions in iTrust electronic certification service, and (2) transactions with partners in the Device ID device certificate management service, which provides cloud authentication services for enterprises and remote access.

In Linux/OSS services, within corporate Linux support, the backlog of orders steadily accumulated beyond expectations, thanks to the success of strengthened sales promotion activities such as campaigns for the expiration of community support in June 2024 for CentOS7 extension support. In addition, we promoted ties with collaborative partners in AlmaLinux and acquired support service contracts. As a result, net sales increased 3.3% year on year to 322 million yen.

In IoT services, long-term support for Linux OS "EMLinux" for IoT and embedded devices was expanded by the full-size development of products by existing customers and the horizontal development of other products. In addition, the number of security consulting projects related to international safety standards and compliance with laws and regulations grew. On the other hand, as a result of the sluggish acquisition of new projects in the consigned development projects, net sales were 249 million yen (up 1.1% year-on-year).

Segment information is omitted because our Group is a single segment of the Trust Services Business.

As a result of the above, net sales were 1.493 billion yen (up 3.4% year on year), operating income was 144 million yen (down 19.4% year on year) due to an increase in expenses resulting from factors such as an increase in personnel costs associated with an increase in the number of employees and an increase in outsourcing and payment fees associated with temporary expenses such as expenses incurred for the audit of the Company's route certification office, etc.; ordinary income was 148 million yen (down 17.6% year on year) due to non-operating income such as equity in earnings of affiliates and non-operating expenses such as foreign exchange losses; and quarterly income attributable to owners of parent was 103 million yen (down 10.9% year on year) due to the impact of tax effect accounting.

<Main services>

· Authentication and security services

We provide client certificates such as SSL/TLS server certificate "SureServer" and device certificate management service "Device ID", electronic authentication services such as electronic identity verification and digital signature "iTrust", web security services, and vulnerability diagnosis services.

· Linux/OSS servicing

Assets

Assets at the end of the first quarter of the current fiscal year increased by 7 million yen from the end of the previous fiscal year to 8.425 billion yen.

Current assets decreased by 80 million yen from the end of the previous fiscal year to 6.101 billion yen. This was mainly due to an increase of 267 million yen in cash and deposits mainly due to proceeds from sales, a decrease of 420 million yen in notes and accounts receivable-trade and contract assets, and an increase of 78 million yen in prepaid expenses.

Non-current assets increased by 88 million yen from the end of the previous fiscal year to 2.323 billion yen. This was mainly due to an increase of 110 million yen in guarantee deposits for the relocation of the head office and a decrease of 38 million yen in deferred tax assets.

Liabilities

Liabilities at the end of the first quarter of the current fiscal year increased by 33 million yen from the end of the previous fiscal year to 2.418 billion yen.

Current liabilities increased by 135 million yen from the end of the previous fiscal year to 1.976 billion yen. This was mainly due to an increase of 348 million yen in contract liabilities and a decrease of 198 million yen in income taxes payable due to tax payment.

Non-current liabilities decreased by 101 million yen from the end of the previous fiscal year to 442 million yen. This was mainly due to decreases in lease obligations and asset retirement obligations of 65 yen million and 36 million yen, respectively, resulting from current liabilities for the transfer of the head office.

(Net assets)

Net assets at the end of the first quarter of the current fiscal year decreased by 26 million yen from the end of the previous fiscal year to 6.006 billion yen.

This was mainly due to an increase of 103 million yen due to the recording of quarterly profit attributable to owners of parent and a decrease of 141 million yen due to the payment of dividends, which resulted in a decrease of 37 million yen in retained earnings from the end of the previous fiscal year, and increases of 5 million yen in capital and 5 million yen in capital surplus due to the issuance of new shares through the exercise of subscription rights to shares. As a result, the equity ratio was 71.3%, compared with 71.6% at the end of the previous fiscal year.

(3)Notes to Quarterly Consolidated Financial Statements

(Notes on Changes in Accounting Policies)

(Apply of Accounting Standard for Income Taxes, Inhabitant Taxes and Business Taxes, etc.)

Effective from the beginning of the first quarter of the current fiscal year, the Company has applied the "Accounting Standard for Income Taxes, Inhabitant Taxes and Business Taxes" (ASBJ Statement No. 27, October 28, 2022), etc.

There was no impact on the quarterly consolidated financial statements for the first quarter of the fiscal year under review.

(Notes on Changes in Accounting Estimates)

(Changes in estimates due to transfer of head office)

Due to the decision on the transfer of the head office in the first quarter of the current fiscal year, the useful lives of fixed assets that will become unavailable have been shortened and changed in the future.

Asset retirement obligations related to restore are also shortened for a reasonable period of time related to depreciation.

As a result of this change, operating income, ordinary income and income before income taxes for the first quarter of the current fiscal year have each decreased by ¥5541000 compared with the previous method.
