The status of corporate governance of the Company is as follows.

I. Basic Concept on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Concept

The Company will, with the aim of achieving sustainable growth and improvement of corporate value on a medium to long-term basis, make efforts to enhance corporate governance in accordance with the basic concepts described below based on the belief that the essence of corporate governance lies in increasing the dynamism of management by securing the transparency and fairness thereof and making management decisions in a prompt and decisive manner.

- (1) To respect the rights of the shareholders and secure equality among them.
- (2) To consider the interests of the stakeholders including the shareholders and cooperate with them in an appropriate manner.
- (3) To disclose corporate information in an appropriate manner to secure transparency of management.
- (4) To have the board of directors, taking into account the fiduciary responsibility and accountability to shareholders, enhance separation of the execution of management from the supervision thereof and the function of management supervision by outside directors to ensure the sustainable growth of the Company, enhancement of corporate value on a medium to long-term basis, and improvement of profitability and capital efficiency.
- (5) To have constructive dialogue with the shareholders.

[Reasons for Non-compliance with the Principles of Corporate Governance Code.]

The Company has implemented each principle in the Corporate Governance Code.

This report is written based on the revised Corporate Governance Code in June 2021.

[Disclosure Based on the Principles of the Corporate Governance Code.]

UPDATED

The Company's Basic policy on Corporate Governance is disclosed on the Company's website, in addition to this report.

<https://kito.com/ir/governance>

[Principle 1.4 Cross-Shareholding]

- (1) **Policies for Holding of Shares for Political Purposes**
The Company will hold listed shares of its business partners for political purposes only in the cases that the holding of the shares including the number of shares to be held is deemed rational when its importance in the Company's business strategies and business relationship with the trading partners are comprehensively considered. The rationality for holding such shares will be verified on a regular basis. Also, as a result of the verification, the basic policy is to promptly dispose of and reduce the number of shares held for political purpose that it is considered that the significance of its possession is weak.
- (2) **Exercise of Voting Rights**
The Company will make a decision concerning the exercise of its voting rights in terms of each agendum after confirming, while respecting the management policies of the companies it invests in, the attitude toward returns to its shareholders, corporate governance, contribution to the increase in the Company's corporate value on a medium to long-term basis as well as the prospect of its business relationship with the Company in the future and its corporate social responsibility.
- (3) **Sale the Company's Shares by the cross-shareholders**

When cross-shareholders (i.e., shareholders who hold a company's shares for the purpose of cross-shareholdings) indicate their intention to sell their shares, the Companies will respect their intention.

- (4) Do not engage in transactions that harm the interests of the shareholders of the Company between the cross-shareholders and the Company
Regardless of whether the client is a cross shareholder or not, the Company has sufficiently verified the economic rationality in transactions, and the Company has not made any transactions that would harm the interests of the company or its shareholders.

[Principle 1.7 Related party transactions]

Conflict-of-interest transactions between the Company and its director, executive manager or controlling shareholder or competing transactions by the Company's director or executive manager, if any, will be subject to presentation to the board of directors for approval pursuant to the provisions of the Regulations of the Board of Directors

[Supplementary Principle 2.4.1 Ensuring Diversity in the Promotion of Core Human Resources]

Recognizing the importance of the vitality and challenge of our employees, as well as the diversity of perspectives and values that contribute to the sustainable growth and development of the company, the corporate philosophy of our company is to "aim for an organization with a harmonious mix of diverse members."

We believe that diversity of human resources is an important factor for innovation and new value creation. As well as hiring new graduates with various backgrounds and experiences, we have traditionally focused on career hiring that emphasizes ability, knowledge, and experience. We also take an open stance in hiring and promoting managers and core human resources.

Although the number of female managers is currently in the 3% range, we will make comprehensive efforts, including enhancing opportunities such as recruitment and career education, and improving our personnel system, to expand opportunities and aim for 6% of female managers in five years of the next medium-term plan.

The Company believes that the Company has established an environment to actively recruit mid-career employees and to receive a wide range of work experience and corporate culture from other industries, and considers them as valuable and diverse human resources who bring new perspectives and ideas to the Company. As more than 40% of our managers are mid-career hires, we believe that we are making full use of their talent, and we have not set any targets.

To date, we have focused on various global perspectives and a management system that optimizes overall management. Since 2008, we have hired foreign nationals as executive officers. At present, 6 out of 15 executive officers are foreign nationals, and we believe that sufficient efforts have been made to promote foreign nationals to managerial positions.

Although the program has been suspended due to the coronavirus, since 2015 it has been held under the title of "KITO University" for personnel selected mainly from young people and leaders from Japan and overseas subsidiaries, as an opportunity to deepen their understanding of the corporate philosophy and philosophy of management, as well as exchange and cross-cultural understanding among Group companies.

Since 2011, we have created a master plan for the employment of people with disabilities, aiming to create a work environment where people with various individuality can work, and to become a company where everyone can work comfortably. Based on the principle of assigning persons with disabilities to and working at in-house workplaces, we have worked together with employees at workplaces where persons with disabilities are assigned. As a result, the number of employees with disabilities now stands at 34, with statutory employment rate of just under 7%.

We introduced a selective retirement age (at 65) system in 2013, providing an environment in which veterans continue to work. We believe that the experience and knowledge of the younger and middle generations and their senior generations will be fully utilized together, providing a foundation for our company's continued growth.

[Supplementary Principle 3.1.3 Initiatives for Sustainability]

Our stance and policies on sustainability are as follows. Please refer to our website for its initiatives.
(<https://kito.com/jp/csr>)

KITO has been providing products with superior safety, operability, and durability, with the first priority placed on the realization of a safe and efficient work environment for workers, in order to solve the universal problem of gravity. We believe that our products, which have become indispensable to social infrastructure, will continue to contribute to the development of various industries in every region.

As the future of society and the economy is difficult to predict and changes drastically, in order to continue providing high added value into the future, we aim to be a "Continuing to be sensitive to changes in society, cultivating business through continuous innovation, developing new markets, and continuing to serve society". We will work to improve our corporate value over the long term by organizing the framework for realization into the following five.

- (i) Inexhaustible pursuit and provision of products and services that meet the needs of society
We will promote the development of products needed by society and develop business activities that contribute to the creation of added value for customers and the expansion of new businesses and markets.
- (ii) Coexistence and co-prosperity with environmental, social and business partners
We will make effective use of limited resources throughout the supply chain and strive to reduce the impact on the natural environment. In order to solve various social issues, we will strengthen the relationship of trust with our business partners, such as suppliers, sales and service networks, and utilize our mutual strengths to achieve coexistence and co-prosperity.
- (iii) Management Foundation for Sustainable Future Creation
By maintaining a highly profitable business structure that generates stable profits over the long term, we will ensure reinvestment for future business growth and management strategy options. We will increase our tolerance for unexpected events such as sudden changes in the external environment and stay ahead of changes in the natural environment and society.
- (iv) Environment where diverse human resources can fully demonstrate their abilities
We will create an environment in which employees can fully demonstrate their abilities and work in a sound manner both mentally and physically, and we will work together as individuals, teams, and organizations to expand results.
- (v) Organizational formation based on corporate philosophy
The Corporate Philosophy is positioned as the top concept of decision making and action guidelines, and we aim to form an organization with the Corporate Philosophy as the unifying force. We are a team of people with a strong sense of ethics, and a team with the ability to execute to achieve our goals enhances corporate sustainability.

<Investing in Human Capital>

We believe that creating a company where employees can feel happiness and pride will lead to increased added value for customers and prosperity for all stakeholders. Aiming to create a bright, dynamic and attractive workplace, we have implemented a variety of software and hardware initiatives, including the promotion of corporate philosophy management and the review of organizations and systems. We are also working to develop human resources for the new stage of our global strategy, including strengthening diversity and fostering the next generation of business leaders. We are continuing discussions on our next medium-term management plan toward the new fiscal year of April 2022, and will actively implement personnel measures to achieve its management goals.

<Investment in Intellectual Property>

We promote research and development by constantly imagining future customer use environments and needs, as well as new industries and markets. The results of research and development are properly managed and utilized as intellectual property, whether tangible or intangible, to maximize profits. In addition, by

establishing in-house systems such as the "Commendation for Employee Inventions, etc." and "Technology Research Report", we build a culture in which all engineers create new business and new technology ideas and new design and manufacturing know-how. The results of new inventions and research activities not only activate existing technologies, but also play a major role in the adoption, accumulation, and transmission of new technologies and in improving the knowledge and motivation of engineers. KITO products are broadly divided into standard products and specialty products that are customized according to the customer's work environment. Based on the philosophy of "value both standard and specialty products" which has not changed since its foundation, a large number of new technologies have been born from manufacturing at KITO. Our intellectual property activities will continue to evolve so that we can continue to be a company that benefits society.

<Disclosure based on TCFD recommendations>

The Kito Group has endorsed the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD) as established by the Financial Stability Board, has disclosed climate-related information based on the TCFD framework on our website, and will continue to enhance its disclosure. For our approach toward the four TCFD-designated thematic areas of governance, strategy, risk management, and metrics and targets, please refer to our website at; <https://kito.com/csr/tcfid>.

[Supplementary Principle 4.1.1 Scope and content of the matters delegated to the management]

The Board of Directors, as a decision-making body for the management of the Company, resolves legal matters, determines and approves basic management policies and important matters in business execution and supervises directors' execution of duties. In addition, it is positioned as the highest decision-making body of the Group, and makes important decisions regarding group companies and controls the entire group. The Company has introduced a division system and delegated the execution of operations within the scope of division of duties of each director.

[Principle 4.9 Independence standards and qualification for independent directors]

In order to objectively judge the independence of outside directors and outside corporate auditors, the Company independently defines and determines the independence criteria based on the independence criteria established by the Financial Instruments Exchange. In addition, we will judge based on not only independence, but also from the perspective of knowledge, experience, ability, personality, and from the perspective on whether candidates for directors and corporate auditors can expect to make proactive proposals and issues for the Company's decision-making.

[Supplementary Principle 4.11.1 A view on the appropriate balance between knowledge, experience and skills of the board as a whole, and also on diversity and appropriate board size]

In terms of the composition of our board of directors, we believe that it is desirable for directors to have a good balance of knowledge, experience, and ability, and to have diversity in genders and nationality, and to have the board of directors in a proper size. The policies and procedures for the election of Directors of the Company are as described in "Disclosure based on the principles of the Corporate Governance Code" of "I. Basic Policy and Capital Structure for Corporate Governance, Corporate Attributes and Other Basic Information" section of this report. Please refer to 3-1: Full Disclosure (iv). The skill matrices of each Director and Corporate Auditors, which indicate the skills, careers and expertise held by and expected of them, are shown in the attached sheet.

[Supplementary Principle 4.11.2 Major concurrent positions in other organizations of directors/corporate auditors]

The important concurrent positions of the Company's directors and corporate auditors are described in the Notice of the General Meeting of Shareholders.

<https://kito.com/wp/wp-content/uploads/Notice-of-the-77th-Ordinary-General-Meeting-of-Shareholders.pdf>

[Supplementary Principle 4.11.3 Analysis and evaluation on effectiveness of Board of Directors]

Below are the results of the most recent (fiscal 2020, the fiscal year ended March 31, 2021) evaluation of the effectiveness of the Company's Board of Directors.

(1) Evaluation method

A questionnaire was sent to all seven Directors and three Corporate Auditors to obtain their opinions on the following items, with a five-point scale for each item and a column for free entry of opinions. The evaluation items for fiscal 2020 year are the same as the evaluation items for fiscal 2019 (based on the TSE Corporate Governance Code revised in June 2018).

Questionnaire items (5 categories, 35 questions)

- (i) Structure of the Board of Directors (composition, number and ratio of outside officers, diversity, term of office, etc.)
- (ii) Operations of the Board of Directors (roles of the Board of Directors, contents of materials, delegation of authority, degree of active discussion, etc.)
- (iii) Agenda items of the Board of Directors (discussions on remuneration, election, dismissal, compliance, etc., status of response to previous issues, etc.)
- (iv) System to support the Board of Directors (opportunity and frequency of information exchange, cooperation with departments, information access, etc.)
- (v) The Nomination and Compensation Committee (composition, status of discussions on remuneration, dismissal, succession planning, etc.)

(2) Evaluation results (summary)

As a result of the evaluation, the effectiveness of the Board of Directors as a whole was assessed to be adequately ensured. In particular, at the Board of Directors meeting where the evaluation results were reported, it was reconfirmed that each Director and Corporate Auditor can freely and openly engage in constructive discussions and opinions, and that any meeting has become a forum for transparent, fair, prompt and decisive decision-making. On the other hand, positive evaluations of “(iii) Selection of agenda items” and “(iv) System to support the Board of Directors” remained at around 70% this year. This is because the three issues recognized as a result of the effectiveness evaluation in fiscal 2018 and 2019 have not yet been resolved in fiscal 2020, although it was unavoidable due to the Covid-19 outbreak, and we have reached a common understanding that they will continue to be addressed in fiscal 2021.

(3) Issues to be addressed

As explained in “(2) Evaluation Results (Summary)” above, based on the results of this evaluation, the Board of Directors has come to the conclusion that the three issues identified as a result of the effectiveness evaluation for fiscal 2018 and fiscal 2019 need to be continued to be addressed. In fiscal 2021, the Company will continue to address and improve the issues identified in order to further enhance the effectiveness of the Board of Directors as it formulates the next medium-term management plan.

The three issues identified as a result of the effectiveness assessment and the policy for addressing them are as follows:

- (i) Deepen discussions on medium- and long-term strategies, product strategies, and regional strategies
Response Policy: Discussions started in FY2020, but still halfway through due to the Covid-19 outbreak; quality of discussions will be improved in FY2021 and discussions will be deepened in conjunction with the formulation of the next medium-term management plan (scheduled to start in FY2022).
- (ii) Increase the frequency of risk discussions and conduct regular reviews
Response Policy: Based on what we experienced in the Covid-19 outbreak, we will share the risks of our business and conduct sufficient analysis and consideration.
- (iii) Specifically discuss management’s succession plan
Response Policy: While progress has been made in the development of management succession, we will continue to discuss and advance a succession plan for the President and Representative Director.

[Supplementary Principle 4.14.2 Training policy for directors and corporate auditors]

In order to achieve sustainable growth and medium- to long-term improvement of corporate value, the Company needs directors and corporate auditors from the perspective of securing human resources who can ensure management transparency and fairness and make quick and decisive decisions. When he/she takes office, he/she has an opportunity to explain the company law, management issues, corporate governance, and finance. In addition, when outside directors and outside corporate auditors take office, in addition to explaining our corporate philosophy, history, and business content, we set up opportunities for plant inspections and overseas subsidiary inspections.

[Principle 5.1 Policy for Constructive dialogue with shareholders]

In order to achieve sustainable growth and medium- and long-term corporate value improvement, we aim for shareholders, institutional investors, analysts, the media, and all other stakeholders, including IR executives and other management executives, and through dialogues and exchanges involving employees, we will promptly and accurately disclose company information.

- (1) The director in charge of IR and the IR department will deal with dialogues and interviews with shareholders and investors. Depending on the purpose of the dialogue, the department in charge of IR works organically with each department in the company to enhance the dialogue.

- (2) We have prepared briefing sessions for institutional investors, analysts, media and factory tours, and held briefings on business strategies and business content as appropriate. In addition, we hold shareholder exchange meetings and factory tours for individual shareholders and provide opportunities for dialogue. In addition, a dedicated page has been established on the website to make it easy to understand business results, business content, and business strategies.
- (3) The contents of dialogues with shareholders and investors are shared on a regular basis by utilizing the Board of Directors, Board of Directors meetings, internal intranet, etc.
- (4) In the dialogue, we will not communicate insider information (important undisclosed facts). The four weeks before the announcement of financial results is considered as the "silent period".

[Supplementary Principle 5.2.1 Formulation and Announcing of Business Strategy and Management Plan]

Toward the new fiscal year that begins in April 2022, the Company has been discussing the formulation of its next medium-term management plan and the establishment of profitability through the streamlining of operations. In the next medium-term management plan, we will strengthen our product and regional strategies. In our product strategy, we will maximize the added value we provide customers by developing new products, acquiring new businesses, and expanding our customization business by enhancing our engineering capabilities, with a focus on the hoist crane business. As part of our regional strategy, we will strengthen the production functions at each of our global bases, optimize our group's supply chain, promote PMI at our overseas subsidiaries, and strengthen organic coordination among subsidiaries. In addition, we are considering incorporating capital efficiency indicators in the next medium-term plan and will improve the process for evaluating our business portfolio.

Supplementary Information

The Company has established a committee composed of five directors (Yoshio Kito, Shigeki Osozawa, Katsumi Nakamura, Takashi Hirai and Koji Osawa) as an advisory body to the Board of Directors and an optional committee on the nomination and compensation of directors and corporate auditors.

The Committee secures independence and neutrality by appointing three outside directors out of five members. The committee deliberates on matters relating to the election, dismissal and dismissal of candidates for directors, corporate auditors, executive officers and officers of subsidiaries, as well as the content of remuneration, etc. of directors, executive officers and officers of subsidiaries. In addition, the Committee evaluates the results of business execution of directors, executive officers and executives of subsidiaries, and makes recommendations to the Board of Directors.

The main items discussed and decided in the fiscal 2020 are as follows.

- Fiscal 2019 executive performance evaluation
- Fiscal 2020 target setting for performance-based compensation
- Formulation of the Company's policy governing decision-making regarding the contents of compensation, etc., for individual directors
- Decline to receive partial amounts of compensation by director's

[Incentives]

Incentive Policies for Directors	
Supplementary Explanation	

From July 2019, the Company has provided fixed compensation, performance-linked compensation and stock-based compensation (shares with restricted transfer) to the Internal Directors of the Company. Details are described in "II.1. [Director Relationship] and [Director Compensation]" in this report.

Recipients of Stock Options	
Supplementary Explanation	

[Director Remuneration]

Disclosure of Individual Directors' Remuneration	Not individually disclosed.
Supplementary Explanation	

The compensation paid to directors and corporate auditors (collectively "Officers") of the Company in fiscal 2020 is as follows.

(Million yen)

Officer classification	Total	fixed compensation	performance-linked compensation	stock-based compensation (shares with restricted transfer)	stock option compensation	Number of Officers (Persons)
Directors (excluding outside directors)	156	83	55	16	1	3
Corporate Auditor (excluding outside corporate auditor)	14	14	-	-	-	1
Outside Officers	36	36	-	-	-	5

- 1 The number of Directors and Corporate Auditors as of March 31, 2021 is seven Directors and three Corporate Auditors. The abovementioned payment recipients among Directors and Corporate Auditors exclude one Director without compensation.
- 2 With regard to the abovementioned basic compensation for fiscal 2020, given the harsh business environment resulting from the impact of the COVID-19 pandemic, Officers have requested to decline acceptance of some of their compensation for the three month period from May to July of 2020. The abovementioned amounts of basic compensation reflect these reductions.
 - President & CEO: 20% reduction in basic compensation
 - Directors (excluding Outside Directors): 15% reduction in basic compensation
 - Corporate Auditors (excluding Outside Corporate Auditors): 10% reduction in basic compensation
- 3 Performance-based compensation is determined after the fiscal year-end and the settlement of accounts, by calculating the achievement level of targets (performance achievement rate) and conducting evaluations on an individual basis. The amounts of performance-based compensation for the fiscal year under review have not yet been finalized, and the abovementioned performance-based compensation amounts are scheduled payment amounts.
- 4 The amount of performance-based compensation for fiscal 2019 was finalized in June 2020. This amount is not included in the abovementioned performance-based compensation amounts. The finalized amount was based on the performance achievement rate for the fiscal year (67.6%) and reflects evaluations of each individual. The finalized amount was 54 million yen, which is a reduction of just over 10 million yen from the performance-based compensation amount (65 million yen) disclosed in the fiscal 2019 corporate governance report.
- 5 Due to the impact of COVID-19, low performance-based compensation target values have been set for fiscal 2020, since both revenue and profit were forecast to be significantly lower than in the previous fiscal year. Therefore, even if the targets for the current fiscal year are met, the performance-based compensation amount paid will be less than the usual standard amount.
- 6 Since there are no officers whose total amount of remuneration, etc. is 100 million yen or more, individual remuneration is not disclosed.

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

The Company's policy governing decision-making regarding the contents of compensation, etc., for individual Directors is determined by the Board of Directors. In making these decisions, the Nomination & Compensation

Committee deliberates and reports its findings to the Board of Directors. The details of Officer compensation, etc., of the Company, determined in accordance with this policy, are as follows.

Director compensation of the Company consists of compensation linked to shareholder returns to ensure that the compensation functions effectively as an incentive for achieving sustainable growth and improvement of medium- and long-term corporate value of the Group.

The Group's basic policy is to decide on compensation for individual Directors that is commensurate with their respective duties. Specifically, Director compensation comprises basic compensation (fixed compensation), performance-based compensation, and stock-based compensation. Outside Directors and Corporate Auditors, who are responsible for overseeing functions, are paid only basic compensation in consideration of the nature of their duties.

Basic compensation

Fixed compensation is paid on a monthly basis. The amount of fixed compensation is decided through comprehensive consideration of positions and duties, taking into account factors such as compensation standards at other companies, the Company's business performance, and employee salary standards.

Performance-based compensation (cash bonuses)

Bonuses as cash remuneration reflecting business performance indicators are paid at a given period each year, with the aim of promoting a greater focus on improving business results each fiscal year. The amounts of cash bonuses are calculated based on the level of achievement of consolidated net sales and EBITDA targets for each fiscal year, as well as evaluations performed using the targets set for each individual each year. The consolidated net sales and EBITDA targets are determined from business plans formulated each year, which are based on medium-term management plans, and on publicly announced figures. These targets are revised as necessary upon consultation with the Nomination & Compensation Committee to reflect changes in the business environment.

Stock-based compensation (transfer-restricted stock)

A standard annual amount is determined by the Board of Directors for each position, and the Company's common stock equivalent to that amount is granted annually at a given period each year. Transfer restrictions are lifted on the date on which the grantee resigns from the post of both Director and Executive Officer of the Company or the Company's subsidiary.

Compensation composition (the percentages of each type of compensation) is based on compensation standards which use as their benchmark the compensation offered in companies equivalent in scale to the Company and companies in the same business fields or with the same business formats. Performance-based compensation is weighed more heavily for upper level positions and duties. Compensation composition is deliberated by the Nomination & Compensation Committee and their findings are reported to the Board of Directors. The Board of Directors delegates decision-making regarding the details of compensation for individuals (amounts for basic compensation and performance-based compensation) to the President & CEO, within the scope indicated in the report from the Nomination & Compensation Committee. The standard for ratio of compensation by type is as follows: basic compensation : performance-based compensation : stock-based compensation = 6 : 3 : 1 (when performance indicator targets have been met 100%).

Position	Basic compensation	Performance-based compensation	Stock-based compensation
President & CEO	58%	29%	13%
Managing Director	62%	28%	10%

To ensure that this decision-making authority is exercised appropriately by the President & CEO, the Board of Directors consults with the Nomination & Compensation Committee regarding the draft proposal for compensation and receives their report. The President & CEO, to whom the aforementioned authority is delegated, then makes decisions on compensation in accordance with the content of this report. With regard to stock-based compensation, the Board of Directors passes resolutions regarding the number of shares to be allocated to individual Directors, based on the report from the Nomination & Compensation Committee.

The Board of Directors deems the compensation for individual Directors observe the determination policy, as the amounts of compensation for individual Directors are determined through the above process.

[Supporting System for Outside Directors and/or Corporate Auditors]

Although there is no dedicated support staff, the outside directors and corporate auditors may coordinate with each division, or request the Corporate Planning Department for assistance. Additionally, the agenda of the Board of Directors' meetings are submitted in advance and at the Board of Corporate Auditors' meetings, the status of activities of the standing corporate auditors is reported and information is exchanged.

IV. Matter Related to Internal Control Systems

1. Basic Views on Internal Control System and the Progress of System Development

The partial revision of “The Basic Policy for the Establishment of the Internal Control System of KITO Corporation” was resolved and approved at the Board of Directors meeting held on April 21, 2015. This Basic Policy was enacted through resolution of the Board of Directors’ meeting held on May 31, 2006, in response to the amended Companies Act. Subsequently, a partial revision was made through resolution of the Board of Directors’ meeting held on April 22, 2008, and a review was conducted of the responses to the partial revision, which resulted once again in a partial revision dated February 24, 2010.

With the enforcement of the Revised Companies Act and the Ordinance for Enforcement of the Companies Act as of May 1, 2015, we again resolved the partial revision of this Basic Policy.

1. Basic Policy

KITO Corporation, recognizing that its mission lies in the consistent delivery of satisfaction and excitement to all customers, must direct all business activity in line with this corporate mission.

For the realization thereof, it is essential that KITO set in place and utilize a mechanism allowing self-imposed monitoring and overseeing of all business activity as well as internal control.

Therefore, KITO’s Board of Directors made the following decisions with respect to the structure of business execution by KITO Corporation and its subsidiaries and the auditing structure, in an attempt to achieve the mission stated above through the execution of activities in accordance with the structures.

2. Systems concerning business execution

1) Systems to ensure that the performance of duties by the directors and employees of KITO and the directors, etc., (i.e., the directors, etc., prescribed in Paragraph 1-5-(i) of Article 100 of the Ordinance for Enforcement of the Companies Act; the same shall apply hereinafter) and employees of KITO’s subsidiaries complies with laws, regulations and Articles of Incorporation (Paragraph 4-(vi), Article 362 of the Companies Act, Paragraphs 1-4 and 1-5-(iv), Article 100 of the Ordinance for Enforcement of the Companies Act)

(1) KITO CORPORATION, a company with a board of corporate auditors, shall ensure the compliance of business executed by its directors by means of the supervisory function of its Board of Directors and the auditing function of its corporate auditors.

(2) The Board of Directors of KITO shall run the Board in compliance with laws, regulations, the Articles of Incorporation and the Rules of the Board of Directors. Directors shall ensure legal compliance of their duties by executing them in accordance with resolutions of the Board of Directors. Corporate Auditors shall carry out auditing, in accordance with laws, regulations, the Articles of Incorporation and the Rules of the Board of Corporate Auditors, on the duties performed by directors

(3) Subsidiaries of KITO shall be in a form compliant with local laws and regulations applicable at the places of organization thereof, and the Board of Directors of the subsidiaries or overseas organizations equivalent thereto (collectively, the “Board of Directors of Subsidiaries”) shall be run in compliance with laws, regulations, the Articles of Incorporation, KITO’s Global Regulations of Approval Authorities, and KITO’s Regulations on the Management of Affiliates, while the directors, etc., of KITO’s subsidiaries shall ensure the legal compliance of their duties by executing them in accordance with the resolutions of the Board of Directors of Subsidiaries. Corporate Auditors of KITO’s subsidiaries or other persons equivalent thereto, if any, shall carry out auditing, in accordance with laws, regulations, the Articles of Incorporation, and applicable internal regulations of KITO, on the duties performed by directors, etc.

(4) Further, guidelines for compliance shall be established along with detailed rules. As action guidelines designed to urge the directors and employees of KITO and the directors, etc., and employees of its subsidiaries to fully comply with the laws, regulations and Articles of Incorporation as well as with the social code of conduct, they shall be disseminated internally to achieve thorough familiarity and full compliance. A structure shall be created to allow reporting, on a periodic and on an as-needed basis, of the state of compliance to the Board of Directors, which in turn shall be kept informed of problems and conduct reviews as needed.

- (5) A section whose function is to accept reports and whistle-blowing by insiders on matters concerning compliance-related problems within the KITO Group shall be established and operated at KITO.
When deemed necessary, a section to accept whistle-blowing by insiders shall be established and operated also at the subsidiaries in accordance with local laws & regulations and actual circumstances.
- (6) Periodic audits shall be performed by KITO's Internal Audit Group concerning the state of compliance of the applicable departments of KITO and its subsidiaries.
- 2) Systems for storage and management of information related to KITO's directors' performance of duties (Paragraph 1-1, Article 100 of the Ordinance for Enforcement of the Companies Act)
- Preservation and management of documents and records pertaining to the performance of duties by the directors of KITO and the directors, etc., of its subsidiaries shall be governed by the Articles of Incorporation and the Rules of the Board of Directors, etc. For more detailed rules, Document Management Rules shall be created to build a structure allowing proper filing and management of such documents.
Directors and corporate auditors of KITO may browse such information as needed.
Additionally, internal rules including the Rules on Personal Information Protection shall be established in an effort to ensure information security and its proper operation.
- 3) System to have matters related to the performance of duties by the directors, etc., of KITO's subsidiaries reported to KITO (Paragraph 1-5-(i), Article 100 of the Ordinance for Enforcement of the Companies Act)
- For the purpose of ensuring decision-making in line with uniform, Group-wide business strategies and the appropriateness of business, KITO shall set in place the Global Regulations of Approval Authorities, which prescribes the matters to be referred to for sanction at KITO and its subsidiaries, and the Regulations on the Management of Affiliates, which prescribes the matters to be referred to for sanction in advance and the matters to be reported by the directors, etc., of the subsidiaries. KITO shall also develop a system of reference for sanction and reporting in accordance with those regulations and shall promote its business in line with these.
- Furthermore, KITO shall establish, under the Regulations on the Management of Affiliates, a system to have the business results of the subsidiaries reported to KITO on a regular basis along with matters significant to business, if any, at each time of occurrence thereof.
- 4) Rules and systems for the management of risk of loss at KITO and its subsidiaries (Paragraphs 1-2 and 1-5-(ii), Article 100 of the Ordinance for Enforcement of the Companies Act)
- (1) Any significant matter shall be subject to the scrutiny of the Board of Directors, the Management Conference, or any other organ of KITO or its subsidiaries responsible for making decisions on the matter in question in accordance with the laws, regulations, Articles of Incorporation and internal rules.
Additionally, the department responsible for legal affairs and other relevant departments shall conduct preliminary examinations on any important matter in accordance with the internal rules and others in an effort to fully understand and identify risks.
- (2) KITO shall establish basic rules concerning risk management ("Risk Management Rules"), which shall be considered as the highest orders concerning the Group's risk management, and promote risk management by nominating directors to oversee matters relating to the risk management and by appointing divisions to be in charge of legal affairs as the division that is responsible at KITO for the risk management system and that functions as the Risk Management Headquarters of KITO and its subsidiaries.
