## **1. Qualitative Information on the Financial Statements**

### **Consolidated Operating Results**

In the nine months ended December 31, 2012, the Japanese economy showed positive signs including the shift to a weaker yen and the recovery of stock prices thanks to expectations for the easy monetary policy in the wake of the change of government at the end of 2012, in addition to active demand associated with recovery activities following the Great East Japan Earthquake. However, the economic outlook is still unclear because of continued concerns over stagnation in consumer spending, slowing global economic growth due to the prolonged European debt problem and other factors. Despite the difficult environment, in this first year of the three-year 2014 Medium-Term Management Plan that started in April 2012, the GLORY Group has implemented the Business Strategy, the Constitutional Strategy and the Corporate Management Strategy based on the plan's basic principle: Implement a growth strategy and strengthen profitability to achieve the Long-Range Vision 2018. Further, GLORY completed the acquisition of Talaris Topco Limited of the UK through GLORY Global Solutions Ltd., a UK subsidiary on July 10, 2012. Accordingly, starting with the first half of this fiscal year, GLORY Global Solutions and its subsidiaries are included in the scope of the Company's consolidation.

As a result, net sales in this nine-month period totaled ¥126,974 million (up 22.6% year-on-year). Sales of merchandise and finished goods were ¥91,399 million (up 16.7% year-on-year) and sales from maintenance services were ¥35,575 million (up 41.0% year-on-year). Operating income was ¥8,571 million (up 17.1% year-on-year), ordinary income was ¥9,208 million (up 19.5% year-on-year), net income was ¥4,971 million (up 36.4% year-on-year), and comprehensive income was ¥12,602 million (up 248.6% year-on-year).

Results of operations in business segments were as follows.

#### **(Financial market)**

Sales of open teller systems, the main product in this segment, were soft for conventional models but strong for compact models sold to small and midsize bank branches. Sales of coin and banknote recyclers for tellers and multifunctional banknote changers were healthy because of replacement demand. Therefore, sales were around the same as one year earlier for the overall market.

As a result, net sales in this segment were ¥30,338 million (up 1.5% year-on-year) and operating income was ¥2,450 million (up 21.8% year-on-year).

#### **(Retail and transportation market)**

Sales of sales proceeds deposit machines and multi-functional cash management station to cash-in-transit companies were strong but sales of coin and banknote recyclers for cashiers, the main product in this segment, were weak because of a decline in large orders. Therefore, sales were around the same as one year earlier for the overall market.

As a result, net sales in this segment were ¥20,729 million (up 3.7% year-on-year) and operating income was ¥2,186 million (down 12.3% year-on-year).

#### **(Amusement market)**

Although sales of card systems, the main product in this segment, were steady, sales of membership management systems were slow. Therefore, sales were around the same as one year earlier for the overall market.

As a result, net sales in this segment were ¥19,736 million (down 0.3% year-on-year) and operating income was ¥1,491 million (up 1.6% year-on-year).

#### **(Overseas market)**

Sales increased significantly from a year earlier due to brisk sales of banknote sorters and banknote recyclers for tellers, a new product, as well as the acquisition of Talaris Topco Limited.

As a result, net sales in this segment were ¥45,307 million (up 92.7% year-on-year) and operating income was ¥2,355 million (up 53.2% year-on-year).

In the "others" business segment, net sales were ¥10,862 million (up 4.4% year-on-year) and the operating income was ¥88 million (operating loss of ¥189 million one year earlier).

All amounts in this section do not include consumption taxes.

## 2. Supplementary Information on the “Notes”

### (1) Changes in Significant Subsidiaries During the Period:

On July 10, 2012, GLORY purchased all of the outstanding shares of Talaris Topco Limited (“Talaris”) through GLORY Global Solutions Ltd., a special purpose company that was established to acquire the shares.

GLORY Global Solutions, Talaris and the three wholly owned subsidiaries of Talaris (Talaris Midco Limited, Talaris Holdings Limited and Talaris Limited) have become “specified subsidiaries” of GLORY because the capital of each company is one-tenth or more of the capital of GLORY.

### (2) Application of Accounting Methods Specific to Preparation of the Quarterly Consolidated Financial Statements

Tax expense is calculated by rationally estimating the effective tax rate after application of tax-effect accounting to income before income taxes for the fiscal year including this third quarter, and then multiplying the income before income taxes for the period by the estimated effective tax rate.

### (3) Changes in Accounting Policies and Estimates, and Restatement

(Changes in accounting policy that are difficult to distinct from changes in accounting estimates)

In conjunction with a revision in Japan’s Corporation Tax Act, GLORY and its consolidated subsidiaries in Japan have changed the method used for depreciation from the first quarter of the current fiscal year. The changed depreciation method, which is based on the revised Corporation Tax Act is applied to property, plant and equipment purchased on or after April 1, 2012. As a result of this change, operating income, ordinary income and income before income taxes and minority interests increased by ¥57 million each.
