**The corporate governance of NITTO DENKO CORPORATION. is described below.**

## I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

### 1. Basic Views

At the Nitto Group, we make clear our fundamental values and sense of purpose with respect to business performance in the form of our Corporate Philosophy.

In order to maximize our corporate value and achieve continuous growth under the Corporate Philosophy, we believe that prompt and transparent decision-making, as well as bold managerial decisions, are necessary. Being fully aware of the importance of establishing corporate governance to achieve such decision-making, we will further improve our corporate governance system by establishing these Corporate Governance Guidelines [Reference 1] in accordance with the following basic principles.

1. We ensure the rights and equality of our shareholders.
2. We collaborate with our stakeholders appropriately.
3. We disclose information appropriately to ensure transparency.
4. We aim to realize the management functions expected of us by our stakeholders.
5. We engage in constructive dialogue with our shareholders.

#### [Reason not to Enforce Each Principle of the Corporate Governance Code]

##### 【Supplementary Principle 4.10.1 Composition, Independence, Etc. of Advisory Committees】

Nitto established the Nomination, and Remuneration Advisory Committee as an advisory body to the representative director. For details, please see "Voluntary Establishment of Committee(s) Equivalent to Nomination

Committee or Remuneration Committee" of the Corporate Governance Report.

Please note that Nitto does not necessarily believe that only independent directors can provide useful advice on nomination, and remuneration but rather believes that inviting opinions from a broad range of independent third parties contributes to the enhancement of corporate governance. As such, said Committee consists of independent individuals who are deemed to be appropriate at the time, such as outside corporate auditors and external experts. This being the case, independent directors may not always compose a majority of said Committee, though we believe that its independence is secured as full-time executives other than the representative director are not eligible to be a member of said Committee.

**【Supplementary Principle 5.1.1 Dialogue between Senior Management and Shareholders】**

Please refer to Principle 5.1 Policy for Constructive Dialogue with Shareholders for Nitto's policy for dialogue with shareholders.

Nitto is studying to comply with this Code, and in FY2024, in addition to interviews with the President of the Board of Directors, the Company has increased the frequency of interviews with the CFO and the Director in charge of Sustainability. Although we have not yet achieved the participation of outside officers, we are continuing discussions on more effective methods at the Management, Nomination, and Remuneration Advisory Committee and the Board of Directors, and we have included interviews with outside officers in the Integrated Report as a measure to expand opportunities for shareholders to learn about the thinking of outside officers. As disclosed timely on May 23, 2025, in order to further enhance the fairness, transparency, and objectivity of procedures related to matters such as the nomination and remuneration of the management team by clarifying the positioning of each advisory matter, we have decided to restructure the Management, Nomination and Remuneration Advisory Committee, and established a voluntary Nomination and Remuneration Advisory Committee effective June 20, 2025.

**[Disclosure Based on the Principles of the Corporate Governance Code]**

**【Principle 1.2.5 Participation of Institutional Investors in the General Meetings of Shareholders】**

Nitto sets a policy for the procedure of substantial shareholders' participation in the general meetings of shareholders, for cases where institutional investors who hold shares in the name of a trust bank, etc. express their wish in advance to exercise their voting rights on behalf of the trust bank, etc. at the general meetings of shareholders. However, from the viewpoint of verifying shareholder status and promoting constructive dialogue, participation in the general meetings of shareholders is limited to institutional investors who substantially hold at least 300 voting rights and who have implemented the prescribed procedures in advance.

**【Principle 1.4 Cross-Shareholdings】**

The Nitto Group does not hold any cross-shareholdings and has established a "Zero-Cross-Shareholding Policy" as follows.

**The Zero-Cross-Shareholding Policy**

Nitto Denko Corporation shall not hold cross-shareholdings (referring to shares of other listed companies, which

Nitto, as a stable shareholder, holds for its business partners, and hence excluding shares for the purpose of capital and business alliances).

**【Principle 1.7 Related Party Transactions】**

At Nitto, related party transactions conducted by our Directors or major shareholders and other parties are resolved at Board of Directors meetings or entrusted to Outside Directors as appropriate in order to verify the rationality (business necessity) of such transactions and the validity of their terms and conditions.

Whether or not any items to be presented at Board of Directors meetings and other important meetings fall under the definition of related party transactions is examined by the Secretariat beforehand in conjunction with the legal department.

The soundness and appropriateness of such transactions are ensured through ex-post-facto checking of their nature, etc. by the internal audit department and through audits by the Board of Corporate Auditors (members).

**【Supplementary Principle 2.4.1 Ensuring Diversity】**

Nitto strives to empower women by appointing more female employees to managerial positions by including "Empowering diverse employees" in its material issues (materiality) for sustainability. Meanwhile, at this point, we do not set or disclose performance targets for the appointment of foreign and/or mid-career employees to managerial positions as we do not perceive a significant difference in appointing our employees to managerial positions on account of their nationality or timing of hiring. Please refer to the Company's website and Integrated Report regarding our performance targets and progress for the appointment of women to managerial positions. Remaining committed to developing a "Nitto Person" who comprehends and carries out the Nitto Way, Nitto is developing a group-wide foundation for human resource management to empower human resources across the globe. Please refer to the Company's website and Integrated Report for the latest on our concrete evaluation systems and human resource development programs.

**【Principle 2.6 Roles of Corporate Pension Funds as Asset Owners】**

In order for Nitto to perform a function as an asset owner with its enhanced investment expertise, it appoints a CFO, a manager in charge of finance, and a manager in charge of human resources as the pension management director, and in addition, appoints human resources with experience in fund management as an executive director, and supplements professional capacity and knowledge by employing an external advisor, thereby properly operating and managing Nitto's corporate pension.

Please refer to the Company's website at <https://www.nitto.com/jp/en/ir/>

(iv) (v) Nomination Policy and Procedures, and Reasons for Individual Nomination of Candidates for Directors and Corporate Auditors

(Appropriate Structure of the Board of Directors and Board of Corporate Auditors)

Given the current scale of business, the need to facilitate substantial discussions at Board of Directors meetings and Board of Corporate Auditors meetings and to ensure an appropriate number of Outside Directors, etc., we believe that the appropriate size of the Board of Directors is not more than ten Directors (one third or more of whom are independent directors). Likewise, the Articles of Incorporation set an upper limit of ten. We also believe that the appropriate size of the Board of Corporate Auditors is not more than five members (half or more of whom are independent auditors), who are individuals having appropriate experience and ability as well as necessary knowledge in finance, accounting, and legal affairs, with at least one (1) Corporate Auditor who has sufficient expertise in finance and accounting. Furthermore, in order to make important policy decisions in an ever-changing business environment and to exercise a sustained supervisory function, we have identified five qualities, knowledge, experience, etc. (hereinafter collectively referred to as "skills") in "leadership," "technology," "finance," "governance," and "sustainability" for the Board of Directors and Board of Corporate Auditors and believe that a composition that ensures a good balance of such skills will contribute to management.

(Appointment and Dismissal of Directors and Corporate Auditors)

The Officer Appointment Standards and the Officer Dismissal Standards have been established as described below and are applied when appointing or dismissing a Director or Corporate Auditor. In addition, in order to further enhance fairness and transparency in appointment and dismissal of Directors, the Management, Nomination and Remuneration Advisory Committee meets and reports the results of its deliberations to the Board of Directors, and the Board of Directors makes the final decision by taking such report into account.

<Officer Appointment Standards>

1. A person who practices the Nitto Way\*
2. A person who can contribute to the Company with the five skills identified by the Company.

\*Nitto's unique values, consisting of: "Safety," "Sustainability," "Diversity & human rights," "Customer," "Anticipation of change," "Challenge," "Sanshin Activities," "Niche Top," "Speed and perfection," "Corporate culture," "Personal development," and "Sense of ownership"

<Officer Dismissal Standards>

1. An act was committed that was contrary to public order and morality;
2. A violation of the laws and ordinances, the Articles of Incorporation, or any other regulations of the Group was committed, and Nitto suffered a substantial loss or hindrance to Group business operations due to such violation;
3. A material inconvenience was caused to the execution of the duties of an Officer; or
4. Any of the quality requirements set forth in the Officer Appointment Standards is no longer satisfied.

(Nomination of Outside Directors and Outside Corporate Auditors)

When nominating Outside Director and Outside Corporate Auditor candidates, individuals who are considered appropriate for such positions must meet the Independent Officer Appointment Standards and the Officer Appointment Standards. Furthermore, in order for Outside Directors and Corporate Auditors to set aside the time and labor necessary to properly fulfill their roles and responsibilities at Nitto, due attention is paid to the statuses of concurrent positions (officers, etc.) that they might hold at other companies to ensure that such statuses are appropriate.

<Criteria for Independent Outside Directors and Outside Corporate Auditors>

The Company, in an effort to ensure the objectivity and transparency of governance, has set forth the criteria for the independence of Outside Directors and Outside Corporate Auditors (hereinafter collectively referred to as "Outside Officer(s)"), as follows.

7. A person who has kinship status (being a relative within the third degree of kinship or a relative living together) with an executing person of the Group;

#### **【Supplementary Principle 4.1.1 Brief Summary of the Scope and Nature of Matters Delegated to the Board of Directors】**

At Nitto, decisions are made at different levels: the Board of Directors serves as an organization for making management decisions and conducting oversight; the Corporate Strategy Committee undertakes business affairs based on decisions made by the Board of Directors; each business division (including corporate departments) has its own meeting structure(s); and heads of each department make decisions (see Nitto's website(<https://www.nitto.com/jp/ja/ir/>) for information on the Corporate Governance System).

The scope and content of decisions to be made at each level are regulated through the Group's decision-making regulations and standards that are specifically segmented based on the nature of such decisions, amounts to be approved, and other factors. Management decision-making at the Board of Directors meetings and execution of operations are thus separated from each other, and the effectiveness of discussions at the Board of Directors meetings is ensured.

#### **【Supplementary Principle 4.1.3 CEO's Successor Plan】**

Pursuant to the succession plan for the president (Chief Executive Officer), the Board of Directors appropriately

exercises supervision to ensure that an individual with the necessary knowledge, experience, and ability to be a candidate for the successor is fostered systematically, with sufficient time and resources devoted thereto.

Nitto’s internal officers are obliged to constantly gather information and train themselves proactively in order to fulfill their roles.

Outside Directors will be provided with opportunities to learn Nitto’s business lines, financial position, and other topics when taking office. After taking office, they will be offered materials for important meetings and be allowed to inspect Nitto’s factories in and out of Japan to improve their abilities required to play the role of outside director and fulfill their responsibilities as such.

### 【Principle 5.1 Policies Related to Constructive Dialogue with Shareholders】

In order to achieve sustainable growth and increase our medium- and long-term corporate value, we provide clear explanations of our business to our shareholders and promote constructive dialogue with them in order to gain their understanding. To this end, we have established the following policies.

1. We at Nitto position IR activities as one of our key business issues, and senior management members personally promote dialogue with shareholders, with the CEO in charge and the CFO serving as a competent director.
2. In order to ensure the effectiveness of dialogue, a dedicated IR department has been established, and a cross-sectional structure for sharing and disclosure of IR information has been constructed through positive cooperation with the Legal, Corporate Planning, Corporate Accounting & Finance, General Affairs, Public Relations, Management of Group Companies, CSR, and other departments. In addition, an information-handling officer has been appointed to strive to ensure disclosure of information in a timely and appropriate manner.
3. As measures to promote opportunities for dialogue aside from individual meetings, information meetings are held every quarter, with the CEO or CFO providing explanations. Additionally, overseas IR roadshows in the United States, Europe, and Asia are conducted at least once a year.
4. Information on views and business issues uncovered through dialogue with shareholders are periodically relayed to senior management and relevant departments to communicate, share, and feed the same back to management.
5. In order to control insider information, the “Nitto Group Regulations to Prevent Insider Dealings” have been established to ensure infallible information control. Meetings with shareholders and investors to be interviewed are limited during the “quiet periods” immediately prior to the announcement of financial results.

(Status of dialogue with shareholders, etc.)

Nitto publishes annual summaries of the status of dialogue with shareholders at its website:

### Action to Implement Management That Is Conscious of Cost of Capital and Stock Price

Content of Disclosure	Disclosure of Initiatives (Update)
Availability of English Disclosure	Available
Date of Disclosure Update	6/18/2025

## Explanation of Actions

In order to realize management conscious of capital costs and share price, Nitto identifies ROE as one of its key management indices.

ROE can be broken down into three elements: net profit ratio attributable to owners of the parent company, asset turnover ratio, and financial leverage. Of these, Nitto focuses on the improvement of the first two and makes its policy not to use financial leverage, which aims at improving short-term ROEs. Nitto considers, on the other hand, the utilization of debts when large-scale M&A projects and the like that contribute to its business growth require capital in excess of cash on hand. In addition to operating profit (margin), ROIC is used as an internal management index to ensure asset efficiency and financial discipline.

It sets a hurdle rate for each business division, demanding return and efficiency that surpass weighted average cost of capital (WACC). The status of ROICs by business division is reported to and discussed by both the Board of Directors and the Corporate Strategy Meeting on a regular basis.

Nitto publishes Action to Implement Management that is Conscious of Cost of Capital and Stock Price at its website:

[https://www.nitto.com/jp/en/sustainability/governance/capital\\_stockprice\\_action/](https://www.nitto.com/jp/en/sustainability/governance/capital_stockprice_action/)

Of the financial indicators defined by the Nitto for Everyone 2025, or the Mid-Term Management Plan for Three Years (2023-2025) published in May 2023, operating profit is set to 170 billion yen; operating profit margin, 17%; and ROE, 15%. Nitto adopts consolidated operating profit and consolidated ROE as part of the evaluation indices in the remuneration (bonuses and performance-linked share-based remuneration) for directors of the Company (excluding Part-Time Directors and Outside Directors).

#### Coordination between Corporate Auditors, Accounting Auditor, and Internal Auditing

Corporate Auditors hold regular meetings with accounting auditors to receive from them reports on the results of audits and to exchange information with them. In addition, the completion of the integration of the auditing firms of overseas group companies into KPMG member firms has contributed to the strengthening of corporate governance. In particular, information on audit results and issues at overseas group companies is gathered by KPMG's area partners, who are assigned to each of the same areas as our six overseas areas, and shared with the accounting auditors through meetings held as needed to exchange opinions and information.

Corporate auditors receive reports from the department in charge of internal audits on the audit system and audit plan, as well as the results of audits based on these reports. In addition, corporate auditors share information on the status of audits conducted by themselves. In addition, the Company ensures the effectiveness of audits by holding regular meetings of domestic and overseas group company auditors and exchanging opinions and information as necessary.

Further, the Group has established the "Nitto Group Regulations to Prevent Anti-Social Transactions" to clarify the Group's prohibition of anti-social transactions, responsibilities of its officers and employees, and its systems, public relation activities, and awareness-raising activities for the prevention of anti-social transactions.

## V. Other Matters

### 1. Matters Regarding Takeover Defense Measures

Adoption of Anti-Takeover Measures	None
------------------------------------	------

#### Supplementary Explanation

The basic views of the Company on acquisition of substantial shares of the Company are as follows:

In case acquisition aimed at substantial shareholdings is to be made, the Company is of the opinion that the decision on whether or not to accept the acquisition should ultimately be left to the judgement of its shareholders. On the other hand, however, the Company cannot deny the existence of corporate takeovers with unjust objectives such as sell-offs at high prices, and realizes that it is obviously the responsibility of the management of the Company to secure the basic principles and the brand of the Company and protect the interests of our shareholders and other stakeholders from such unjust parties.

At present, neither is the Company placed under any specific threat for acquisition of substantial shareholdings nor does the Company intend to define explicit defense measures against the advent of such a buyer (so-called takeover

defense measures). Yet the Company, having assumed the management responsibility entrusted from its shareholders, is committed at all times to keep close watch over its stock transactions and shareholder movements, and will immediately take measures deemed most appropriate should there be any sign of a party with the intention to acquire substantial shares of Nitto Denko stocks.

## 2. Other Matters Concerning the Corporate Governance System

### <Summary of Timely Disclosure System>

The status of the internal system concerning the timely disclosure of Nitto's corporate information is as follows:

#### 1. Basic Policy on Timely Disclosure

Our basic stance on information disclosure is to pursue sound business activities, earn shareholders' trust through appropriate information disclosure and communications, and conduct ourselves with good sense, guided by laws and ethics. We will continuously disclose important information relating to our group activities to every stakeholder, including shareholders and investors. The information that we provide will be of a timely and transparent nature and will be made available in a fair manner.

#### 2. Internal System for Timely Disclosure

Nitto has formed the Timely Disclosure Committee to improve its timely and appropriate information disclosure system based on the aforementioned basic policy.

The Timely Disclosure Committee, chaired by the CFO and comprising several relevant departments' managers, determines the establishment of systems and various rules of each process for information collection, analysis, judgment, and disclosure procedures. In addition, it examines matters concerning the dissemination and awareness raising of timely disclosure and whether or not these processes are properly handled.

Further, the Nitto Group has established regulations for its internal system concerning information disclosure, including the regulations that specify decision-making bodies and their authorities in accordance with the standards of managerial importance, amount, etc.; to promptly grasp information in the case of emergency such as an accident or disaster, the regulations that specify reporting routes and report details according to the severity of matters that happened; the regulations that specify the management of undisclosed internal information; and to unify external transmission of information, the regulations that stipulate departments in charge and how to handle transmitted information.

#### 3. Timely Disclosure Procedures

The Nitto Group discloses information timely in accordance with the following procedures:

##### (1) Information collection

Based on the various regulations stated above, the Group has set judgement criteria exceeding the disclosure standards requested under the timely disclosure rules for information on decisions, occurrences, and financial results of the Group. The Group has formed a system of timely and comprehensively collecting information by informing the entire Group so that information falling under the criteria should be reported to the Timely Disclosure Committee. Further, with regard to urgent matters such as accidents, it has established a system of promptly collecting such

information by setting reporting routes to report the same directly to the department in charge of general affairs or the President of the Company.

(2) Analysis, judgement, and disclosure of information

The Timely Disclosure Committee analyses collected information and judges the necessity of disclosure in accordance with the timely disclosure rules. Based on this judgement, an information-handling officer instructs the department in charge of IR to make disclosure in an appropriate manner such as via TDnet.

4. Securing Appropriateness for the Timely Disclosure System

We raise awareness about the prevention of insider dealings and the management of corporate information by conducting compliance education for the Group. Further, the Timely Disclosure Committee checks whether or not information collection, judgement, or disclosure procedures are properly conducted through the entire information disclosure process to review the internal system concerning timely disclosure as necessary.

### <Characteristics of Nitto's Corporate Governance Structure>

From the standpoint of unitary audits, independent of execution that contribute to the Company's enhanced governance, Nitto has chosen to be a company with the Board of Corporate Auditors. It has also adopted the executive officer system and promotes quick decision-making by making each Vice President's authority clear. Further, it has established the Nomination and Remuneration Advisory Committee that mainly consists of Independent Outside Officers to build a system to hear neutral opinions. Nitto's corporate governance structure has the following characteristics:

1. Diversity of the Board of Directors and the Board of Corporate Auditors to

consolidate multifaced opinions

Diversity of the Board of Directors and the Board of Corporate Auditors to consolidate multifaced opinions Comprehensively taking into account diversity including elements such as the balanced allocation of specializations (e.g., skill, specialty, and length of tenure) to be fully acquired, gender, age, work experience, race, ethnicity, or cultural background, Nitto appoints members of the Board of Directors and the Board of Corporate Auditors, who can practice The Nitto Way or a set of values that expresses what the Nitto Group should cherish and its standard for judgment.

2. Open and robust discussions by the Board of Directors

The Nitto Board Effectiveness Evaluation, which the Company conducts annually, confirms that open and robust discussions on each management issue are among its Board of Directors' strengths.

3. The Nomination and Remuneration Advisory Committee as a place to hear broad opinions

As a place for its members to exchange opinions and provide advice for Representative Directors, the Nomination and Remuneration Advisory Committee hears valuable opinions each time its meeting is convened. Chaired by an Outside Director, the Nomination and Remuneration Advisory Committee provides advice on key agenda items, including the nomination of Directors and the remuneration of Directors and Corporate Auditors. It should be noted that, under the Companies Act, decisions regarding nominations and remuneration are formally made by the Board of Directors, which engages in open and robust discussions. Accordingly, the Nomination and Remuneration Advisory Committee is not expressly required to report to the Board of Directors.

4. Triple axis management for adequate resolution of management issues

Nitto has built a system for adequately resolving management issues through supplementary and collaborative operations of the following three axes: the business axis centering on the business execution departments, the functional axis centering on the special function departments, and the regional axis centering on the regional oversight function.

5. ESG management promotion system to ensure effectiveness

Under the slogan, "Place ESG at the core of our management," Nitto has appointed a Director or Vice President in charge of ESG promotion and established a department in charge within a specialized functional department. The relevant department makes proposals on sustainability, including the identification of materiality issues, based on

which the Board of Directors and the Corporate Strategy Meeting make decisions. The Representative Directors and Vice Presidents, who are members of the Board of Directors and the Corporate Strategy Meeting, instruct the responsible business execution departments and Group companies in their respective areas to implement the proposals, ensuring the effectiveness of ESG management promotion. Please note that Nitto has not established a sustainability or ESG committee to which some members belong. Rather, it designates the Corporate Strategy Meeting for which the President is responsible and to which all Vice Presidents belong as a place to discuss ESG management promotion.

6. Compliance and risk management promotion system leading to voluntary activities  
Nitto has appointed a Director or Vice President in charge of compliance and risk management and established a department in charge within the specialized functional departments. These systems promote compliance and risk management. In addition, the department in charge puts together the status of compliance and risks (human rights, human capital, whistleblowing, environment, safety, information security, etc.) to report to the Board of Directors and the Corporate Strategy Meeting on a regular basis. Representative Directors and Vice Presidents, who are members of the Board of Directors and the Corporate Strategy Meeting, instruct the responsible business execution departments and Group companies in their respective areas to make improvements, thereby ensuring the effectiveness of internal control monitoring. Please note that Nitto has not established a risk committee or a committee for each target risk as a place for final monitoring. Rather, it has a system in place where the Corporate Strategy Meeting for which the President is responsible and to which all Vice Presidents belong receives compliance and risk monitoring results as their own problems.

7. Alignments to ensure audits by Corporate Auditors

It is characteristic of Nitto for Corporate Auditors to participate in its key meetings and strongly align with the departments in charge of internal audits and the Nitto Group's auditors, in order to ensure the effectiveness of audits by Corporate Auditors.

3. Disclosed below is the explanation for non-compliance with Supplementary Principle 4.10.1 of Japan's Corporate Governance Code.

Nitto established the Nomination, and Remuneration Advisory Committee as an advisory organization to the representative director. For details, please see "Voluntary

Establishment of Committee(s) Equivalent to Nomination Committee or Remuneration Committee" of the Corporate Governance Report.

Please note that Nitto does not necessarily believe that only independent directors can provide useful advice on nomination and remuneration but rather believes that inviting opinions from a broad range of independent third parties contributes to the enhancement of corporate governance. As such, said Committee consists of independent individuals who are deemed to be appropriate at the time, such as outside corporate auditors and external experts. This being the case, independent directors may not always compose a majority of said Committee, though we believe that its independence is secured as full-time executives other than the representative director are not eligible to be a member of said Committee.

4. Nitto discloses the status of consideration as the explanation for compliance with Supplementary Principle 5.1.1. of Japan's Corporate Governance Code every year.

[Appendix 1]

Our Basic Views on Corporate Governance (Principle 3.1, ii)

At the Nitto Group, we make clear our fundamental values and sense of purpose with respect to business performance in the form of our Corporate Philosophy.

In order to maximize our corporate value and achieve continuous growth under the Corporate Philosophy, we believe that prompt and transparent decision-making, as well as bold managerial decisions, are necessary. Being fully aware of the importance of establishing corporate governance to achieve such decision-making, we will further improve our corporate governance system by establishing these Corporate Governance Guidelines in accordance with the following basic principles.

1. We ensure the rights and equality of our shareholders.
2. We collaborate with our stakeholders appropriately.
3. We disclose information appropriately to ensure transparency.
4. We aim to realize the management functions expected of us by our stakeholders.
5. We engage in constructive dialogue with our shareholders.

[Appendix 3]

Policies and Procedures for Electing and Dismissing Directors and Corporate Auditors  
(Principle 3.1, iv, Supplementary Principle 4.11.1)

[Appropriate structure of the Board of Directors and Board of Corporate Auditors]

Given the current scale of business, the need to facilitate substantial discussions at Board of Directors meetings and Board of Corporate Auditors meetings and to ensure an appropriate number of Outside Directors, etc., we believe that the appropriate size of the Board of Directors is not more than ten Directors (one third or more of whom are independent directors). Likewise, the Articles of Incorporation set an upper limit of ten. We also believe that the appropriate size of the Board of Corporate Auditors is not more than five members (half or more of whom are independent auditors), who are individuals having appropriate experience and ability as well as necessary knowledge in finance, accounting, and legal affairs, with at least one (1) Corporate Auditor who has sufficient expertise in finance and accounting. Likewise, the Articles of Incorporation set an upper limit of five. Furthermore, in order to make important policy decisions in an ever-changing business environment and to exercise a sustained supervisory function, we have identified five qualities, knowledge, experience, etc. (hereinafter collectively referred to as "skills") in "leadership," "technology," "finance," "governance," and "sustainability" for the Board of Directors and Board of Corporate Auditors and believe that a composition that ensures a good balance of such skills will contribute to management.

[Appointment and Dismissal of Directors and Corporate Auditors]

The Officer Appointment Standards and the Officer Dismissal Standards have been established as described below and are applied when appointing or dismissing a Director or Corporate Auditor. In addition, in order to further enhance fairness and transparency in appointment and dismissal of Directors, the Nomination and Remuneration Advisory Committee meets and reports the results of its deliberations to the Board of Directors, and the Board of Directors makes the final decision by taking such report into account.

<Officer Appointment Standards>

1. A person who practices the Nitto Way\*
2. A person who can contribute to the Company with the five skills identified by the Company.

\*Our unique values consisting of safety, sustainability, diversity and human rights,

customer, anticipation of change, challenge, sanshin activities, niche top, speed and perfection, corporate culture, personal development and sense of ownership.

#### Five skills identified by the Company

Skill	Reason for selection
Leadership	For a company to keep growing in a dramatically changing business environment, it needs to make bold business decisions. For this reason, we have chosen leadership qualities and experience in a global organization, such as being part of a management team or a person responsible for a large project at a listed company, or a manager of a venture company, or having a key role in a government, as a skill we seek in our Board members.
Technology	To achieve Nitto's mission, "Contribute to customers' value creation with innovative ideas," we need to keep investing in innovation. For this reason, we have chosen in-depth knowledge in science and technology not only in relation to our existing businesses but also in relation to IT, DX, quality, the environment, safety technologies, and new areas as a skill we seek in our Board members.
Finance	To manage a company, we need scientific investment measures based on financial indicators. For this reason, we have chosen knowledge in finance and accounting as a skill we seek in our Board members.
Governance	The statement, "Place safety before everything else," which is one of the principles of "The Nitto Way," also encompasses "management security." For this reason, we have chosen insights into and board experience in areas such as legal matters, risk management, and labor as a skill we seek in our Board members.
Sustainability	For a company to keep growing, it needs to help build a sustainable society in addition to achieving its own growth. For this reason, we have chosen a background in areas, such as diversity, environmental contribution, and brand value, as a skill we seek in

	our Board members.

[Nomination of Outside Directors and Outside Corporate Auditors]

Furthermore, in order for Outside Directors and Corporate Auditors to set aside the time and labor necessary to properly fulfill their roles and responsibilities at Nitto, due attention is paid to the statuses of concurrent positions (officers, etc.) that they might hold at other companies to ensure that such statuses are appropriate.

<Criteria for Independent Outside Directors and Outside Corporate Auditors>

The Company, in an effort to ensure the objectivity and transparency of governance, has set forth the criteria for the independence of Outside Directors and Outside Corporate Auditors (hereinafter collectively referred to as "Outside Officer(s)"), as follows.

[Appendix 4]

Brief Summary of the Scope and Nature of Matters Delegated to the Board of Directors  
(Supplementary Principle 4.1.1)

At Nitto, decisions are made at different levels: the Board of Directors serves as an organization for making management decisions and conducting oversight; the Corporate Strategy Committee undertakes business affairs based on decisions made by the Board of Directors; each business division (including corporate departments) has its own meeting structure(s); and heads of each department make decisions (see Nitto's website for information on the Corporate Governance System).

The scope and content of decisions to be made at each level are regulated through the Group's decision-making regulations and standards that are specifically segmented based on the nature of such decisions, amounts to be approved, and other factors. Management decision-making at the Board of Directors meetings and execution of operations are thus separated from each other, and the effectiveness of discussions at the Board of Directors meetings is ensured.

[Appendix 5]

Related Party Transactions (Principle 1.7)

At Nitto, related party transactions conducted by our Directors or major shareholders and other parties are resolved at Board of Directors meetings or entrusted to Outside Directors as appropriate in order to verify the rationality (business necessity) of such transactions and the validity of their terms and conditions.

Whether or not any items to be presented at Board of Directors meetings and other important meetings fall under the definition of related party transactions is examined by the Secretariat beforehand in conjunction with the legal department.

The soundness and appropriateness of such transactions are ensured through ex-post-facto checking of their nature, etc. by the internal audit department and through audits by the Board of Corporate Auditors (members).

[Appendix 6]

Training for Directors and Corporate Auditors (Supplementary Principle 4.14.2)

When nominating Directors and Corporate Auditors, Nitto makes it a policy to nominate candidates appropriate for such positions who, in light of the Officer Appointment Standards, can fulfill the duties and responsibilities of Directors and Corporate Auditors.

Additionally, Nitto periodically provides training on practicing the Corporate Philosophy, compliance, and corporate responsibilities that should be assumed by the Officers, which are attended not only by employees, but also by all of the officers, who thereby set an example for others to follow. Nitto's internal officers are obliged to constantly gather information and train themselves proactively in order to fulfill their roles.

Outside Officers will be provided with opportunities to learn Nitto's business lines, financial position, and other topics when taking office. After taking office, they will be offered materials for important meetings and be allowed to inspect Nitto's factories in and out of Japan to improve their abilities required to play the role of outside officers and fulfill their responsibilities as such.

[Appendix 7]

Policy related to remuneration of Directors (Principle 3.1, (iii))

1. Basic policy related to remuneration of Directors

- The content of remuneration shall be such that Nitto Persons\* are allowed to be appointed as a Director.
- The remuneration structure shall be such that Directors are motivated to contribute to Nitto's sustainable growth and the enhancement of its corporate value over the mid- and long-term.
- The remuneration determination process shall be fair and transparent.

\* In addition to the basic requirement of having profound insights and high levels of expertise acquired from past experience, Nitto Persons should comprehend and live up to our Corporate Philosophy, deliver results, and continue to take on new challenges.

2. Components of remuneration

Directors (excluding Part time Directors and Outside Directors) shall be remunerated as follows.

Type	Category	Policy related to the content of remuneration, methods of calculating the amount/number, and the timing of payment
Fixed remuneration	Remuneration in cash	Monthly remuneration as determined by position, responsibility, and length of service is paid in cash.
Short-term performance-linked remuneration	Bonus for Directors in cash	The amount of compensation paid to each Director is determined by the progress of achievement of the Group's performance indicators on consolidated operating profit and consolidated ROE over the period of one business term and by the progress of achievement of targets set for each Director's areas of responsibilities.
Mid-term performance-linked remuneration	Performance-linked share-based remuneration	This additional remuneration is designed to incentivize Directors to improve business performance over the mid-term and share-based remuneration is granted once every three consecutive business terms. The number of shares to be granted to each individual is determined by consolidated operating profit and consolidated ROE, and ESG-related performance when three years have passed since the commencement of their performance evaluation. Targets should be set high and no remuneration is paid if the targets are not met. The number

		of shares to be granted ranges between 0% and 150% according to the progress of achievement of the targets.
Mid- and long-term performance-linked remuneration	Restricted share remuneration	Share remuneration is granted for each business term to align the interests of Directors and shareholders and reflect mid- and long-term business performance in their remuneration. The number of shares to be granted to each Director is determined by position, responsibility, and length of service. The amount of remuneration is linked to the market price by setting restrictions on transfer until retirement.

Note: Consolidated operating profit is chosen as an indicator for their commitment to delivering results, whereas consolidated ROE serves as an indicator for measuring business stability. ESG-related performance serves as a measure of sustainable corporate value improvement.

In light of their roles and independence, Part time Directors and Outside Directors are remunerated by fixed remuneration only.

### 3. Policy related to designing of the remuneration level

In order to ensure that remuneration for Nitto's officers, etc. is at a competitive level vis-à-vis industry standards, their remuneration level is set by benchmarking a group of major companies of a similar scale in the same industry as Nitto.

### 4. Policy related to the component ratio of remuneration

For the purpose of standard evaluation, the target component ratio of remuneration is: Remuneration in cash : Bonus for Directors : Restricted share remuneration = 30% : 60% : 10%. Performance-linked share-based remuneration is provided as additional remuneration when mid-term targets have been achieved, but not provided based on standard evaluation.

### 5. Policy related to the decision process

The policy related to the standard amount, calculation method, component ratio among different types of remunerations, timing or conditions of payment, etc. for the remuneration of each Director shall be decided by the Board of Directors after comprehensively taking into account such factors as Nitto's business lines, management environment, the levels of remuneration to officers at major companies of a similar scale in the same industry as Nitto and upon receiving a report on the results of deliberations by the Nomination and Remuneration Advisory Committee.

Decisions on concrete details of remuneration in cash for each term of office and allocation of bonuses for officers to each Director shall be entrusted to the President (who is also a

Board Member) pursuant to a resolution of the Board of Directors. Because the President is in a position to evaluate if targets for Directors other than Outside Directors have been met, it is deemed rational for him/her to make a decision on the allocation. Remuneration in cash shall be determined according to the position, responsibility, and length of service, whereas bonuses for officers shall be determined by taking into account the progress of achievement of targets set for areas of responsibilities of each Director in accordance with the predetermined standard amount and calculation method above, in order to prevent arbitrary decisions from being made. For performance-linked share-based remuneration and restricted share remuneration, the Board of Directors shall determine the number of shares to be granted to each Director using a predetermined formula.

##### 3. Policy related to designing of the remuneration level

Policies Related to Constructive Dialogue with Shareholders (Principle 5.1)

In order to achieve sustainable growth and increase our medium- and long-term corporate value, we provide clear explanations of our business to our shareholders and promote constructive dialogue with them in order to gain their understanding. To this end, we have established the following policies.

1. We at Nitto position IR activities as one of our key business issues, and senior management members personally promote dialogue with shareholders, with the CEO in charge and the CFO serving as a competent director.
2. In order to ensure the effectiveness of dialogue, a dedicated IR department has been established, and a cross-sectional structure for sharing and disclosure of IR information has been constructed through positive cooperation with the Legal, Corporate Planning, Corporate Accounting & Finance, General Affairs, Public Relations, Management of Group Companies, CSR, and other departments. In addition, an information-handling officer has been appointed to strive to ensure disclosure of information in a timely and appropriate manner.
3. As measures to promote opportunities for dialogue aside from individual meetings, information meetings are held every quarter, with the CEO or CFO providing explanations. Additionally, overseas IR roadshows in the United States, Europe, and Asia are conducted at least once a year.
4. Information on views and business issues uncovered through dialogue with shareholders are periodically relayed to senior management and relevant departments to communicate, share, and feed the same back to management.
5. In order to control insider information, the “Nitto Denko Group Regulations to Prevent Insider Dealings” have been established to ensure infallible information control. ### **Findings on the Nitto Board Effectiveness Evaluation**

Nitto Denko Corporation (“the Company”) conducted an effectiveness analysis and evaluation of its Board of Directors for the fiscal year 2025 (FY2025), which confirmed that the Board is effective. The following shows a summary of the evaluation process and findings:

#### 1. An outline of the evaluation process

This evaluation was conducted based on the Company’s established annual process under which a survey is conducted by a third-party organization. The results are then discussed by the Board of Directors, and a summary of the findings is disclosed. Regarding the evaluation method, in addition to the conventional five-point scale (the current state of the Board, the composition of the Board, the operations of the Board, management strategy and management plans, internal controls and risk management, nomination and remuneration, and an overview), The Company adopted a policy of conducting deliberations using free statements (delegation of authority by the Board, strengthening the supervisory functions of the Board, nomination and remuneration governance, supervision of ESG promotion, and the roles of Outside Directors and Outside Corporate Auditors (collectively “Outside Officers”) as the main materials for discussion.

#### 2. Overview of the analysis/evaluation results

The Company has confirmed that one of the strengths of its Board of Directors is that it has open and robust discussions on all management issues. This was found in the FY2024 evaluation, too. It also confirmed that the quality of deliberations has been improved through initiatives to expand the involvement of Outside Officers, including information sharing with management meetings and participation in internal events.

On the other hand, the following issues were identified for future discussions:

- (1) The supervisory functions of the Board regarding internal controls and risk management
  - There is a need for more systematic and continuous discussions

- (2) Discussions concerning institutional design and succession
  - There is a need to deepen consideration from a medium- to long-term perspective
- (3) Effective utilization of the extensive knowledge and experience of Outside Officers
  - There is a need to deepen discussions on the role and operations of the Board

Concerning efforts by the Board to address the challenges recognized in the FY2024 evaluation, The Company established a voluntary Nomination and Remuneration Advisory Committee, and it put in place a framework to further strengthen the fairness, transparency, and objectivity of procedures related to the nomination and remuneration of management.

### 3. Future actions

With the above analysis and evaluation findings and discussions at the voluntary Nomination and Remuneration Advisory Committee in mind, The Company's Board of Directors will remain committed to further enhancing the effectiveness of the entire Board.
