1. Qualitative Information Regarding Quarterly Settlement of Accounts

(1) Explanation of operating results

During the third quarter of the fiscal year ending March 31, 2023 (April 1, 2022 through December 31, 2022), the economic environment saw a sharp rise in prices due to rising crude oil prices triggered by the military invasion of Ukraine by Russia. Concerns about an economic slowdown increased due to monetary tightening aimed at curbing inflation in Europe and the U.S. On the other hand, in China, the Zero-COVID policy was revised, and the restrained consumption is expected to recover. In addition, in the foreign exchange market, the Bank of Japan raised its cap on the long-term yield, which resulted in a change in the rapidly progressing trend of yen depreciation.

In the key markets of Nitto Group (the "Group") under this economic environment, there was a marked reactionary decline in demand of staying at home for electronics products in the third quarter of the fiscal year. Demand for products for semiconductors and data centers, which had been strong, decreased as customers moved to optimize inventory levels. On the other hand, demand for products for high-end smartphones and laptops, on which the Group is focusing, grew. Demand for automotive materials recovered moderately as the impact of COVID-19 and other factors eased.

In response to COVID-19, the Group is working to continue supplying to customers while prioritizing everyone's health and safety and preventing the spread of infection. The Group will continue to make our utmost efforts to prevent any disruption in the provision of products and services to our customers.

The yen's exchange rate against the U.S. dollar for the third quarter ended December 31, 2022, was 135.3 yen to the dollar, a 22.0% depreciation of the yen compared with the same period of the previous year, and the effect of the weaker yen increased operating income by 59.5 billion yen.

As a result of the above, revenue increased by 14.3% from the same period of the previous year (changes hereafter are given in comparison with the same period of the previous year) to 738,979 million yen. Operating income increased by 27.1% to 137,718 million yen, income before income taxes increased by 26.4% to 137,397 million yen, net income increased by 22.9% to 95,838 million yen, and net income attributable to owners of the parent company increased by 22.9% to 95,766 million yen.

Summary of results by segment

① Industrial Tape

For Functional Base Products, revenue increased from the same period of the previous year. Demand for assembly materials for high-end smartphones increased, and automotive materials recovered from sluggish demand due to the impact of COVID-19 and semiconductor shortages in the previous fiscal year. On the other hand, demand for semiconductors and ceramic capacitors used in electronic equipment declined due to deteriorating market conditions. In addition, the Group was affected by rising raw material prices and transportation costs due to the increase in crude oil prices. In the automotive materials business, the Group agreed to transfer a portion of NVH (Noise, Vibration, Harshness) business to Parker Corporation and recorded an impairment loss on a portion of the related assets.

As a result of the above, revenue increased by 8.8% to 262,265 million yen and operating income decreased by 18.0% to 24,518 million yen.

② Optronics

In Information Fine Materials, revenue increased from the same period of the previous year. In addition to optical films for high-end laptops, demand for optical films used on automotive applications, which is positioned as the next growth point, increased. For products for TVs, the Group received royalty payment under the licensing agreements with our business partners. The Group recorded expenses related to a fire at its consolidated subsidiary Korea Optical Hight Tech Co., Ltd., occurred on October 4, 2022.

In Flexible Printed Circuits, revenue increased from the same period of the previous year. Revenue of high-precision circuits for high-end smartphones grew significantly due to an increase in the number of models in which they are adopted. Meanwhile, demand in CIS (Circuit Integrated Suspension) decreased due to adjustments in HDD (hard disk drives) market, such as for data-center applications.

As a result of the above, revenue increased by 12.9% to 393,984 million yen and operating income increased by 54.6% to 114,508 million yen.

③ Human Life

In Life Science, revenue increased from the same period of the previous year. Along with the expansion of nucleic acid drugs market, demand for oligonucleotide contract manufacturing and polymer beads for nucleic acid synthesis (NittoPhase™) increased. On the other hand, immunologic adjuvants for COVID-19 vaccines have been expanding with the rapid increase in the number of COVID-19 infected patients, new orders stopped from the second quarter of the current fiscal year due to the global decline in vaccination rates. In Medical Products, demand for transdermal absorbents and surgical tapes recovered from sluggish demand caused by COVID-19. In development of nucleic acid drugs, the Group continues to engage in clinical trials of idiopathic pulmonary fibrosis and intractable cancer drugs.

Membrane saw increased demand compared to the same period of the previous year. Demand for high-polymer separation membrane increased in various industrial applications.

The Personal Care Materials business was launched under the new organization, Advanced Film Solutions Division, integrating the personal care component business of Mondi plc acquired in July 2022 and the existing hygiene material business. The functional films for hygiene products, our main products, are being developed for use in baby care, adult diapers, feminine care, and other applications.

As a result of the above, revenue increased by 47.2% to 102,772 million yen and operating income decreased by 38.6% to 6,544 million yen.

④ Others

Please note that this segment includes new products that have not generated sufficient revenue yet. Major business themes are the development of optical plastic fiber and disposable holter ECG device, EG Holter™, aiming for early mass production.

As a result of the above, revenue amounted to 4 million yen (no revenue was reported in the same period of the previous year), and operating loss amounted to 4,232 million yen. (operating loss of 4,746 million yen was reported in the same period of the previous year)

(2) Explanation of financial position

The Group's financial position at the end of the third quarter of the fiscal year ending March 31, 2023 was as follows.

Compared with the end of the fiscal year ended March 31, 2022, total assets increased by 73,395 million yen to 1,167,864 million yen and total liabilities decreased by 1,878 million yen to 270,485 million yen. Total equity increased by 75,273 million yen to 897,379 million yen. As a result, the ratio of equity attributable to owners of the parent company to total assets changed from 75.0% at the end of the fiscal year ended March 31, 2022 to 76.8% at the end of the third quarter of the fiscal year ending March 31, 2023.

The main changes in assets were a decrease in cash and cash equivalents of 44,909 million yen, an increase in trade and other receivables of 1,853 million yen, an increase in inventories of 18,542 million yen, an increase in other current assets of 1,209 million yen, an increase in assets held for sale of 4,182 million yen, an increase in property, plant and equipment of 35,977 million yen, an increase in goodwill of 60,440 million yen, a decrease in financial assets of 3,209 million yen. (3) Explanation of forecasts and other projections

In the business environment surrounding the Group, market conditions rapidly deteriorated in products for electronics, with a reactionary decline in those demand from staying at home. This trend is expected to continue in the fourth quarter of the consolidated fiscal year. In this environment, we will continue to enhance our corporate value by identifying "things that will grow" "things that will recover" and "things that will not recover" properly, and simultaneously pursue the growth strategy and structural reforms.

Given the financial results of the period under review and the circumstances described above, the full-year forecasts of the fiscal year ending March 31, 2023 were revised. The exchange rate from the fourth quarter onward is assumed to be 1\$ = ¥133.3.

Third quarter ended December 31, 2022 (April 1, 2022 through December 31, 2022)

(Acquisition of 4 subsidiaries of Mondi plc)

(1) Outline of the business combination

On June 30, 2022, the Group acquired 100% of the shares of four companies (Mondi Gronau GmbH in Germany, Mondi Ascania GmbH in Germany, Mondi China Film Technology Co., Ltd in China, and a newly established company that takes over Personal Care Components Business* of Mondi Jackson LLC in the U.S.) that consists of the Personal Care Component business of Mondi plc (listed on the London Stock Exchange), making them our wholly owned subsidiaries. Through this acquisition, in addition to business growth in the “human life” domain, which is one of our focus areas outlined in our mid-term plan “Nitto Beyond 2023”, the Group believe that synergies with our core technologies will expand the possibility of creating new products and innovations such as environmentally friendly products, highly-performance films, and multifunctional development of non-woven fabric.

* Personal Care Components Business: The manufacturing and sale of hygienic materials for elastic components, non-woven fabrics and functional film that are found in diapers, feminine hygiene products, wet wipes, and face masks

(2) Breakdown of fair value of acquired assets and assumed liabilities and consideration for acquisition on the acquisition date

The amount of acquired assets and assumed liabilities are provisionally calculated based on rational information currently available to the Group, since the consideration had not been allocated yet at the end of the third quarter ended December 31, 2022.

	(Yen in Millions)
	Amount

(4) Impact on the Group's financial results

Had the business combination taken place at the beginning of the fiscal year, the amounts of revenue and net income would have been 751,070 million yen and 94,329 million yen, respectively. These estimates have yet to be certified by an audit.

(Acquisition of Bend Labs, Inc.)

(1) Outline of the business combination

On May 31, 2022, the Group acquired 100% of the shares of Bend Labs, Inc. and made it a wholly owned subsidiary of the Group as Nitto Bend Technologies. Going forward, the Group will combine the sensor device technologies developed by Bend Labs, Inc. with Nitto's strengths to develop next-generation technologies and products, as well as to expand our business in our three focus domains of next-generation mobility, information interface, and human life through new businesses that utilize data acquired from the sensors.

(2) Breakdown of fair value of acquired assets and assumed liabilities and consideration for acquisition on the acquisition date

The amount of acquired assets and assumed liabilities are provisionally calculated based on rational information currently available to the Group, since the consideration had not been allocated yet at the end of the third quarter ended December 31, 2022.

	(Yen in Millions)
	Amount

As part of its restructuring, the Group made a decision to transfer a portion of Transportation business belonging to Industrial Tape Business Segment to Parker Corporation, and accordingly, at the end of the second quarter of the fiscal year under review, the disposal group belonging to this business was classified as held for sale. The equity transfer agreement was entered into on October 24. The disposal group belonging to the business is scheduled to be sold within 1 year from the date it is classified as held for sale. Disposal groups held for sale are measured at the lower of carrying amount or fair value less cost to sell. During the third quarter of the fiscal year under review, the Group recognized impairment losses in Others expenses as the disposal group was classified as held for sale.

(Impairment losses)

In the third quarter of the fiscal year under review, Impairment losses were 3,447 million yen, which are included in “Other expenses”.

The major factors are as follows.

As part of the restructuring, the Group made a decision to transfer a portion of Transportation business belonging to Industrial Tape business segment. In conjunction with this decision, the Group recognized an impairment loss because the carrying amount of the disposal group (property, plant and equipment, etc.) was less than the fair value less the selling price. Fair value is determined based on pricing negotiations with the seller and other factors, and the hierarchy of this fair value is Level 3.
