1 Full-year Results for FY2024

Full-year Results for FY2024

Revenue	1,013.9 B. yen	Operating Profit 185.7 B. yen		Net profit attributable to owners of the parent company	137.2 B. yen	
YoY						
Revenue	+98.7 B. yen (+10.8%)	Operating Profit	+46.5 B. yen (+33.4%)	Net profit attributable to owners of the parent company	+34.6 B. yen (+33.7%)	

- Revenue, operating profit and net profit all reached a new record high for the full-year.
- Revenue exceeded 1.0 T. yen for the first time.
- For Industrial Tape and Optronics, revenue and operating profit increased YoY.
- Positive impact from the weaker yen on operating profit was 23.3 B. yen.

Total	915.1	1,013.9	98.7	+10.8%	
Total	139.1	185.7	46.5	+33.4%	

*As a result of changes in the management structure made in the second quarter fiscal year 2024, certain related businesses have been transferred from Industrial Tape to Optronics. Such changes have been reflected in the figures for fiscal year 2023.

Results by Segment: Industrial Tape

Revenue	355.7 B. yen	(YoY +5.3%)
Operating profit	46.0 B. yen	(YoY +19.0%)

Electronics

- Demand for assembly materials used in high-end smartphones increased due to expansion of models adopting existing materials as well as from the launch of new electrical release tapes used for fixing batteries in place.
- Demand for process materials used in ceramic capacitors continued its gradual recovery.

Process Materials

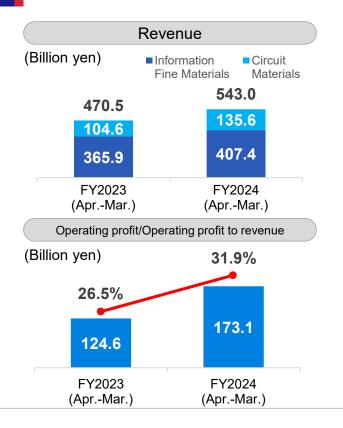

• Demand for process materials used in semiconductor memories continued its gradual recovery.

Others

• Demand for automotive materials were sluggish due to a decrease in the number of automotive unit productions.

Results by Segment: Optronics

Revenue	543.0 B. yen	(YoY +15.4%)
Operating profit	173.1 B. yen	(YoY +39.0%)

■ Information Fine Materials

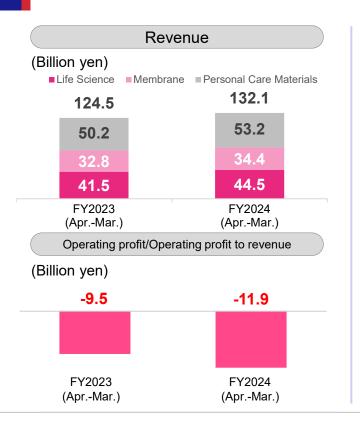

- Demand for optical films and transparent conductive films (ITO) increased significantly as the production of high-end laptop PCs and tablets remained strong.
- While the number of global automotive unit production remained sluggish, demand for high durability optical films increased due to expansion in automotive display size and increase in the number of displays installed.

■ Circuit Materials

- In Circuit Integrated Suspension (CIS), demand for Hard Disk Drives (HDDs) with high capacity used in data centers increased significantly.
- Demand for high-precision circuits increased, as the production of high-end smartphones remained strong.

Results by Segment: Human Life

Revenue	132.1 B. yen	(YoY +6.1%)
Operating profit	-11.9 B. yen	(YoY -)

■ Life Science

- The production of projects that are expected to be commercialized at a future date started at our new plant in Massachusetts.
- Demand for nucleic acid synthesis materials (NittoPhase[™]) used in commercial drugs increased among some customers.
- In nucleic acid drug discovery, Phase 1 clinical trial of intractable cancer drug was completed. We are continuing to work toward out-licensing our pipeline.

Membrane

• While demand for various industrial applications decreased particularly in China, demand for Zero Liquid Discharge (ZLD) increased due to the tightening of environmental regulations relating to wastewater in India.

Personal Care Materials

- We promoted new products for diapers and environmentally friendly products using biodegradable technologies.
- A goodwill impairment loss of 3.3 B. yen at a subsidiary was recorded during FY24Q4.
