1. Qualitative Information on Quarterly Financial Results for the Period under Review

(1) Explanation of Operating Results

In the first nine months ended November 30, 2023, the Japanese economy saw socioeconomic activities returning to normal propelled by the lifting of various COVID-related restrictions. However, soaring energy and raw materials prices attributed to geopolitical tensions and rising domestic prices caused by foreign exchange rate changes dampened consumer sentiment and corporate activities, rendering the economic outlook uncertain.

The apparel and fashion industry witnessed a drastic change in consumer purchasing behavior caused by higher-than-usual temperatures between September and November, which delayed the sales of fall and winter merchandise.

Under these circumstances, at the Onward Group, sales of the mainstay brand business continued to be robust, owing to flexible merchandising strategies and further improvement in the operation of OMO (Online Merges with Offline) stores that offer "Click & Try" services. Operating profit margin also increased year-on-year, due to the success of global business reforms and progress in streamlining the supply chain.

Thanks to the above, sales and all profit categories grew in the third quarter of the current fiscal year. As a result, during the first nine months ended November 30, 2023, consolidated net sales came to 141,383 million yen (+8.4% year-on-year), consolidated operating profit 9,700 million yen (+124.8% year-on-year), consolidated recurring profit 9,055 million yen (+92.7% year-on-year), and profit attributable to owners of parent 5,746 million yen (+111.0% year-on-year).

The Onward Group is accelerating growth by reinforcing and expanding its business base through the development of new businesses and M&As. In doing so, the Group has adopted EBITDA (operating profit + depreciation and amortization) as a key performance indicator to facilitate earnings comparisons between companies regardless of differences in accounting standards.

In the first nine months ended November 30, 2023, EBITDA amounted to 13,282 million yen (+61.1% year-on-year).

Results by segment were as follows.

[Apparel Business]

In the domestic business, sales grew thanks to the strong performance of "Nijyusanku" and other mainstay brands of the core operating company Onward Kashiyama Co., Ltd. The development and launch of popular products in "UNFILO" also contributed to sales growth. At Onward Personal Style Co., Ltd., which operates the "KASHIYAMA" brand, sales at directly managed stores and B2B sales performed well.

Overseas, sales increased in Europe, Americas, and Asia, with the profitability sharply improving. As a result, the Apparel Business posted higher sales and profit.

[Lifestyle Business]

Chacott Co., Ltd., which runs the wellness business, posted higher sales owing to enhanced marketing strategies utilizing social media and the development and launch of popular products in the Chacott Cosmetics line. At Creative Yoko Co., Ltd., which operates the pet and home life business, sales continued to expand backed by the success of aggressive store opening measures.

As a result, sales and profit increased in the Lifestyle Business.

(2) Explanation of Financial Position

(Status of assets, liabilities, and net assets)

Total assets as of the end of the third quarter of the fiscal year under review increased by 13,658 million yen compared with the end of the previous fiscal year to 172,857 million yen. This was primarily due to increases in notes and accounts receivable—trade, and contract assets of 5,124 million yen and merchandise and finished goods of 9,768 million yen, and decreases in cash and deposits of 1,138 million yen and investment securities of 909 million yen.

Liabilities increased by 16,012 million yen compared with the end of the previous fiscal year to 90,137 million yen. This was primarily due to increases in notes and accounts payable—trade of 585 million yen, electronically recorded obligations—operating of 3,033 million yen and short-term borrowings of 12,477 million yen, and a decrease in long-term borrowings of 1,312 million yen.

Net assets decreased by 2,353 million yen compared with the end of the previous fiscal year to 82,719 million yen. This was primarily due to profit attributable to owners of parent of 5,746 million yen, dividends of surplus of 1,628 million yen, a decrease in valuation difference on available-for-sale securities of 1,055 million yen, a decrease in foreign currency translation adjustment of 125 million yen, and a decrease in non-controlling interests of 5,182 million yen.

As a result, the shareholders' equity ratio was 44.9%.

(3) Explanation of Consolidated Performance Forecast and Other Forward-looking Information

In the nine months ended November 30, 2023, net sales, operating profit and recurring profit generally progressed as planned according to the consolidated performance forecast for the full year announced on October 5, 2023. Profit attributable to owners of parent is expected to exceed the previous forecast due to a decrease in income taxes—deferred accompanying recording of deferred tax assets, as increased taxable income due to ongoing favorable business results is expected.

Due to the above results, the consolidated performance forecast for the full year is revised as follows:
