

ACOM's website has been selected as the "Best Website" in the Overall Category of the "2025 Website Quality Ranking of All Listed Companies" for the ninth consecutive year

ACOM has been rated as the "Best Website" in the Overall Category of the "Website Quality Ranking of All Listed Companies," conducted by Nikko Investor Relations Co., Ltd., for the ninth consecutive year. In addition, ACOM has also been evaluated as the "Best Website" in the Other Financial Services Category for the fourth consecutive year.

The "Website Quality Ranking of All Listed Companies" has been carried out annually since 2003 with the aim of assessing the quality of information disclosure on the websites of listed companies and promoting greater awareness of corporate disclosure practices. Based on evaluation criteria established from three perspectives—clarity, usability, and abundance of information—the websites of all 3,937 listed companies are surveyed to create the ranking.

ACOM will continue to further enhance its IR website and related information, ensuring the timely, appropriate, and clear disclosure of information to its shareholders, investors, and other diverse stakeholders.
