Debt equity ratio*1	2.2	2.3	0.1	 Net debt equity ratio: 2.0x
Interest-bearing debt / EBITDA multiple*2	10.9	-	-	

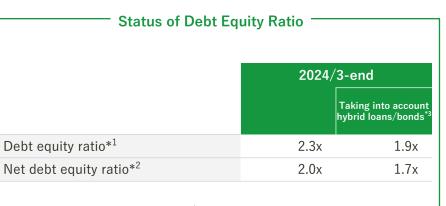

*1 Debt equity ratio = Interest-bearing debt / Equity capital

*2 Interest-bearing debt / EBITDA multiple = Interest-bearing debt / (Operating profit + Interest & dividend income + Share of profit (loss) of entities accounted for using equity method + Depreciation expense + Goodwill amortization expense)

Breakdown of Real Estate for Sale -

*1 Debt equity ratio = Interest-bearing debt / Equity capital

*2 Net debt equity ratio = (Interest-bearing debt - Cash and deposits) / Equity capital

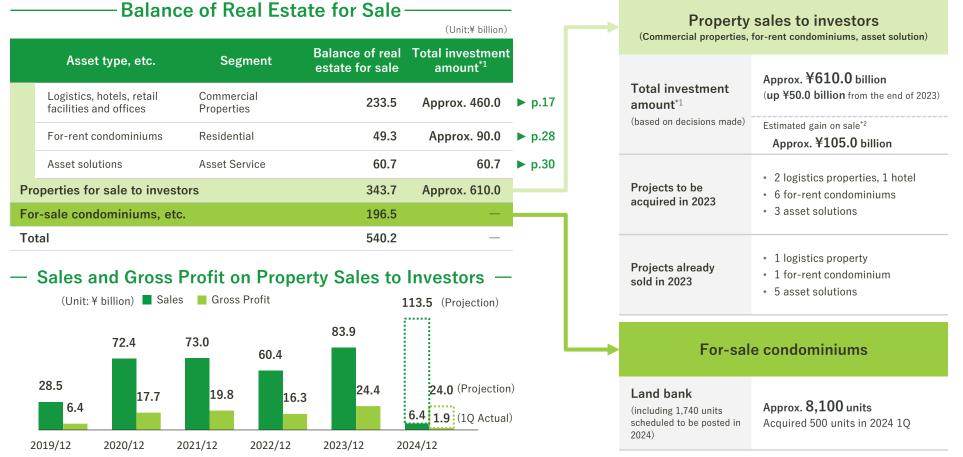

*3 Calculated by taking into account the total equity credit of ¥60 billion concerning ¥120 billion of the total amount procured from the hybrid bonds payable

🕝 ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

property assumed to be sold.

- In the first quarter, as a result of progress in acquisition of land for development of for-sale condominiums and properties for sale to investors, balance of real estate for sale increased to ¥540.2 billion. (An increase of ¥41.2 billion from the end of the previous fiscal year.)
- Total investment amount (based on decisions made) in properties for sale to investors increased by ¥50.0 billion to approximately ¥610.0 billion.

Condominiums for sale of approximately 8,100 units were secured with steady increase in land bank.

*1 Calculated by aggregating total investment amount, in which construction costs, etc. that arise after the acquisition are added to the book value of each property at the time of acquisition.

*2 Calculated by subtracting the "total investment amount" from the total estimated sales amount, which is provisionally calculated based on the estimated income and expenditure and the estimated cap rate at the time of sale for the

9

- It is necessary to monitor events that have an impact on profitability such as construction costs and interest rate trends.
- Profitability is determined by taking into account the trend of rising prices when considering acquisitions of new projects.

Cor

Pr

Re

We will promote the planning of new products with a view to diversification of work styles and living styles based on changes in the external environment centered on the Commercial Properties and Residential businesses.

Recognition of the overall business environment and impact on Tokyo Tatemono

• The trend of rising construction expenses continues.

Projects that started in or before FY2022

Almost no impact.

Projects that were acquired or yet to start in FY2022 Construction

expenses

Interest

rates

Construction expenses are rising compared with the anticipation when the sites were acquired. We will focus on cost management and endeavor to secure the initially anticipated profit.

New projects that started in or after FY2023

Decisions on investment value will be made based on trends in construction expenses.

 Interest rates are rising, but the impact has been suppressed because steps have been taken in financing (borrowing, etc.) to lengthen loan durations and maturity dates and to use fixed interest rates.

• Although the cap rate in real estate transactions has not shown any signs of significant change recently, it is necessary to monitor future trends.

Recognition of the environment in each segment and Tokyo Tatemono's initiatives

mmercial operties	 The continuing moderately high level of the market vacancy rate must be monitored. The likelihood of vacancy rates and rent levels significantly deteriorating is expected to be low because Tokyo Tatemono has a superior portfolio in terms of size and location and there has been little impact recently. In addition to excellent locations and high specs, Tokyo Tatemono's policy is to respond to changing and diversifying customer needs such as improvement of productivity, well-being and flexibility.
sidential	 Demand for for-sale condominiums remains excellent among real consumers in central Tokyo and suburban areas despite anticipation of a rise in mortgage rates. Tokyo Tatemono will promote product planning that meets rising demand for balancing a comfortable work environment with relaxing living space.
Asset Service	 Brokerage: The brokerage business is expected to continue to perform well backed by a steady real estate transaction market. Parking business: Focus will be on acquiring new projects, and an increase in the number of parking spaces and growth are expected
Other	 Leisure business: Dog-friendly hotels and golf courses performed well. Bathing facilities also recovered to pre-

COVID levels. Aim for further improvement of profitability.

In FY2024, revenue and profit are expected to increase due to factors such as an increase in sales and gross profit of for-sale condominiums.

(Unit: ¥ billion)	2023/12 Full-year actual	2024/12 Full-year forecast	Increase/ Decrease
Operating revenue	375.9	495.0	119.0
Commercial properties	155.2	201.0	45.7
Residential	134.1	212.0	77.8
Asset service	63.8	60.0	(3.8)

Profit attributable to owners of parent	45.0	48.0	2.9

Cash flows from operating activities	20.5	20.0
Cash flows from investing activities	(54.0)	(170.0)
Cash flows from financing activities	77.9	100.0

* Business profit = Operating profit + Share of profit (loss) of entities accounted for using equity method

Main factors for increase/decrease

· Operating revenue

Revenue increased due to factors such as an increase in sales of for-sale condominiums and property sales to investors

• Breakdown of share of profit (loss) of entities accounted for using equity method: ¥0 billion for commercial properties (-¥1.6 billion), + ¥2.0 billion for other business (-¥0.2 billion).

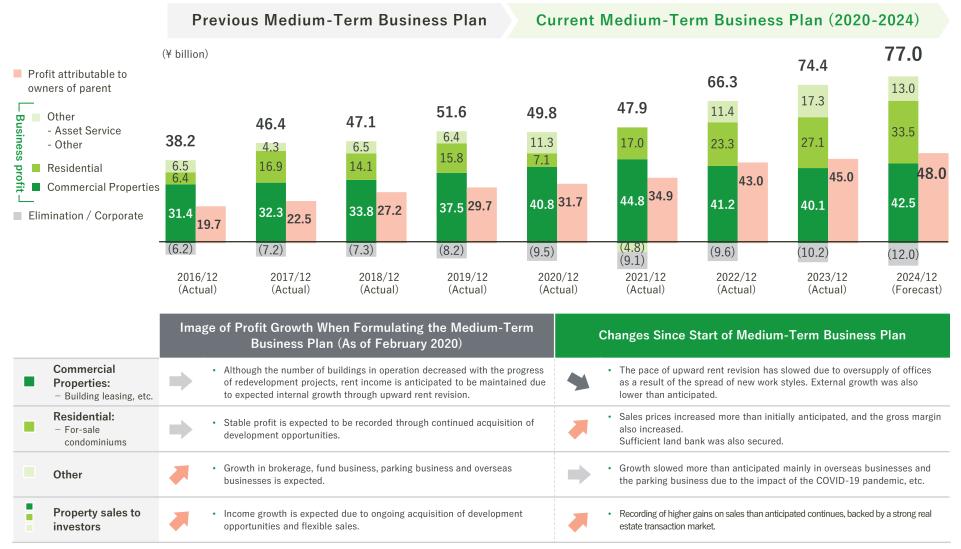

· Business profit

Profit increased due to factors such as an increase in gross profit of for-sale condominiums.

• Decrease in share of profit of entities accounted for using equity method, etc.

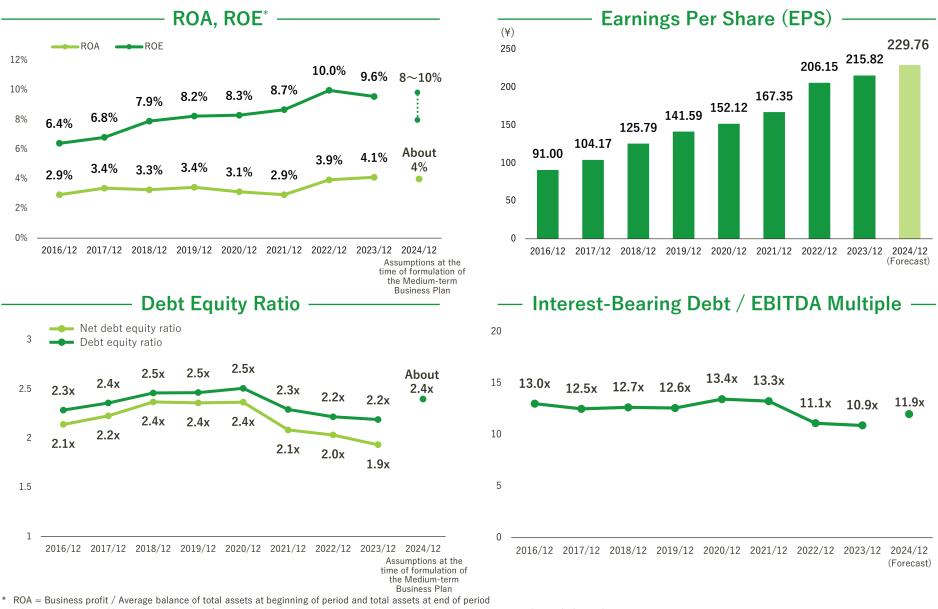

• Dividends paid on real estate specified joint enterprise law, increase in interest expenses, etc.

The trends in business profits and profit attributable to owners of parent for the previous fiscal years are as follows: We aim to achieve business profit of ¥75.0 billion, the target under the medium-term business plan, in FY2024.

Copyright © Tokyo Tatemono Co., Ltd. All Rights Reserved.

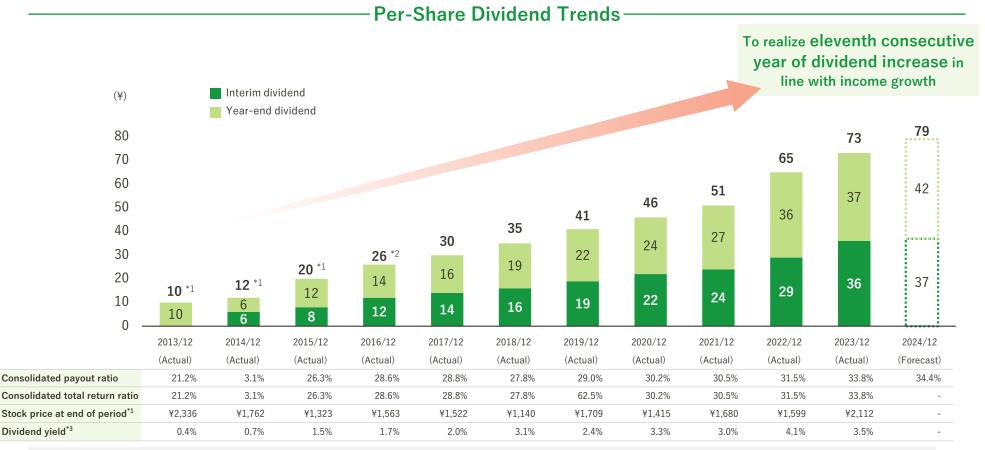

ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

ROE = Profit attributable to owners of parent / Average balance of equity capital at beginning of period and equity capital at end of period

Copyright © Tokyo Tatemono Co., Ltd. All Rights Reserved.

- For FY2023, an annual dividend was raised from the previous fiscal year's ¥65 per share to ¥73 per share, resulting in a payout ratio of 33.8%.
- For FY2024, annual dividend of ¥79.0 per share (payout ratio of 34.4%) is estimated in light of the full-year earnings forecast.

Shareholder returns policy

During the period of the medium-term business plan (FY2020–FY2024), establish a baseline consolidated payout ratio of 30% or more and aim to increase shareholder returns continuously through sustainable growth.

Consider whether to repurchase company shares based on the business environment and financial situation, among other factors.

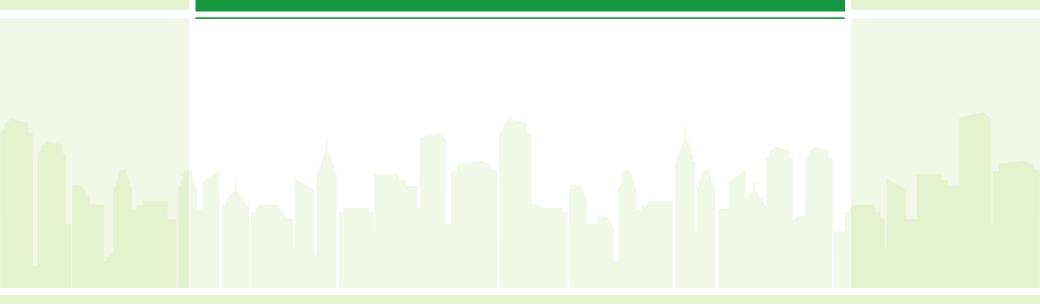

*1 A 1-for-2 reverse stock split was implemented on July 1, 2015. The figures for 2013 to 2015 are calculated by factoring in the reverse stock split.

*2 The interim and year-end per-share dividend for FY2016 both include a ¥2 commemorative dividend to celebrate the 120th anniversary of Tokyo Tatemono's founding.

*3 Dividend yield is calculated based on the closing price at the end of each fiscal period.

Features of the Yaesu-Nihonbashi-Kyobashi (YNK) Area

- Access to various locations including regional cities, areas in Tokyo and international airports is excellent due to the existence of bullet trains, existing JR lines and multiple subway lines, giving the area overwhelming transportation convenience, its main feature.
- Nearby are business areas, commercial/tourist areas and areas popular for residential purposes. Urban development that utilizes diverse regional features including the rich cultural resources and concentration of long-established corporations is expected.
- With highly diverse properties suitable for startups and several innovation hubs, the area's innovativeness has been accelerating in recent years.
- The land value and suitability for offices lag behind the Otemachi-Marunouchi-Yurakucho area, but the value of the area as a whole is expected to increase significantly going forward with the various redevelopment projects planned.

🕢 ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

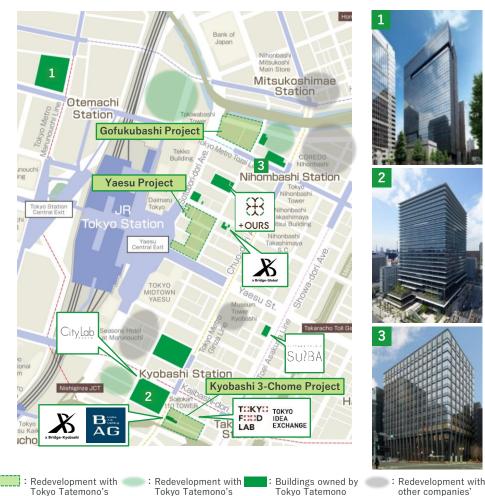

Initiatives in the Yaesu-Nihonbashi-Kyobashi (YNK) Area

Tokyo Tatemono owns many office buildings in the area around Tokyo Station, a key area, and several large-scale redevelopment projects are scheduled to be completed by around 2030.

participation

Copyright © Tokyo Tatemono Co., Ltd. All Rights Reserved.

Utilizing the properties it owns in the area, Tokyo Tatemono is promoting the formation of a business environment (innovation ecosystem) where venture firms, leading companies, investors, research institutions and other players from the fields of industry, academics and government come together and collaborate for coexistence and mutual prosperity, thereby nurturing cutting-edge industries and giving rise to positive economic growth cycles.

involvement

participation

- Promotion of an Innovation Ecosystem

Promising startups will be attracted to the YNK area by utilizing the diverse regional features and properties owned by Tokyo Tatemono. An initiative with focal categories of business topics and growth fields of leading companies such as x-tech, SDGs, food, and craftsmanship is being promoted.

Selected as a Partner Entity for the Tokyo Metropolitan Government's "Startup Support Development Project by Diverse Entities" (TOKYO SUTEAM)

Launched Project SYNK aimed at further strengthening the innovation ecosystem through collaboration and cooperation with multiple startup supporters and innovation sites established within the YNK (Yaesu, Nihombashi, Kyobashi) area.

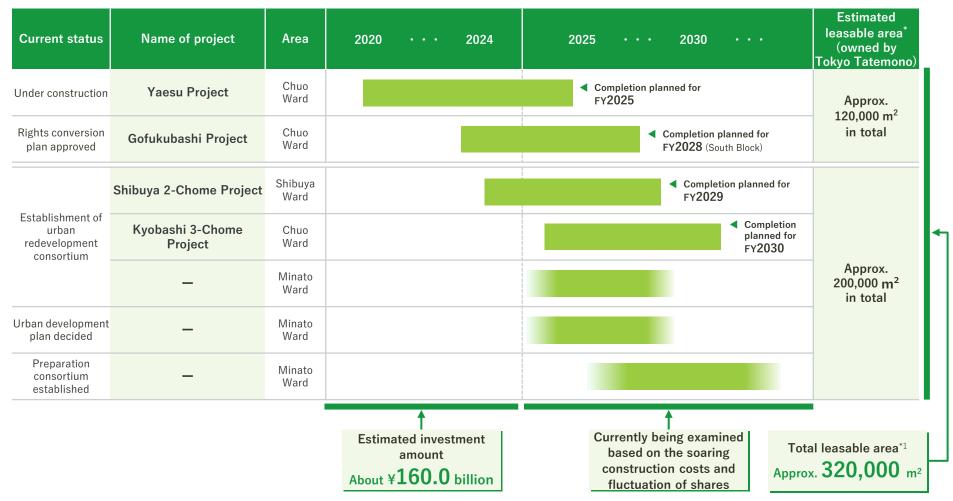

* Balloons indicate initiatives at properties owned by Tokyo Tatemono.

* "x Bridge-Kyobashi" is scheduled to open in May 2024.

The redevelopment projects in which we are participating or involved are progressing smoothly. Redevelopment projects with an estimated leasable area^{*} (owned by Tokyo Tatemono) of approximately 320,000 square meters are slated for completion one after another by around 2030.

Project period (construction start to completion)

* Estimated leasable area includes leasable area of non-office space, such as conference and retail facilities. Values assumed when formulating the Medium-Term Business Plan.

Development Projects in the Yaesu-Nihonbashi-Kyobashi (YNK) Area (1)

- Promoting "Urban Redevelopment Project for Yaesu 1-Chome East Area in Front of Tokyo Station (District A, District B)," in front of Tokyo Station and "Urban Redevelopment Project for Yaesu 1-Chome North Area" along Nihonbashi River.
- Aiming to realize urban development that generates new added value for the entire area through various efforts that increase global competitiveness, reduce the environmental load, etc. while also securing stable leasing revenue.

Yaesu Project -

Urban Redevelopment Project for Yaesu 1-Chome East Area in Front of Tokyo Station (District A, District B)

- Large-scale redevelopment project in front of Tokyo Station, including Tokyo Tatemono's former headquarters building
- · Accumulation of sophisticated urban functions worthy for the land gateway of Tokvo, an international city
- Formation of prosperity that passes down Yaesu's history and tradition to the future

→ October 2021 District B, February 2024 District A Start of construction

 Total floor area 	District A	about 12,000 m ²	District B	about 225,000 m ²
 Main uses 	District A	offices, shops, etc.	District B	offices, medical facilities, bus terminal, conference halls, etc.
 No. of floors 	District A	10 floors above ground, 2 below	District B	51 floors above ground, 4 below
- Construction start	District A	2024	District B	2021
 Completion date 	Schedule	d for FY2025		

Value Created by the Project

Enhancement of traffic node function in front of Tokyo Station

- Establishment of large-scale bus terminal connecting to international airports and regional cities
- Establishment of above- and below-ground pedestrian network connecting Tokyo Station and nearby urban districts

Introduction of city functions that increase global competitiveness

- Establishment of primary care in collaboration with sophisticated medical facilities
- Increase of urban appeal and vibrancy through implementation of area management

Strengthening of disaster preparedness and reduction of environmental burden

- Establishment of space for those stranded during disasters and storage for emergency supplies
- Enhancement of business continuation functions through establishment of cogeneration systems and emergency power generation facilities

Gofukubashi Project

Urban Redevelopment Project for Yaesu 1-Chome North Area

- · Large-scale redevelopment project in an excellent location directly connected to Nihombashi subway station
- Formation of cityscape suitable as a gate of the area alongside Nihonbashi River
- Accumulation of city functions forming a sophisticated financial hub
- → September 2023 Approval of rights conversion plan

 Total floor area 	South Block	about 185,500 m ²	North Block	about 1,000 m ²
 Main uses 	Offices, shop professionals	s, lodging facility, Facility s , etc.	supporting high	nly skilled financial
- No. of floors	South Block	44 floors above ground, 3 below	North Block	2 floors above ground, 1 below
 Construction start 	Scheduled fo	r FY2024		
 Completion date 	South Block	Scheduled for FY2028	North Block	Scheduled for FY2031

Value Created by the Project

Formation of financial hub that contributes to enhancement of global competitiveness

Establishment of support facility for sophisticated financial personnel that assist international finance and urban MICE

Establishment of waterfront space and pedestrian network

- Various types of cooperation for moving the Metropolitan Expressway belowground
- Establishment of plaza space that will become a symbol of the bustling areas on the Nihonbashi River
- Establishment of above-and below-ground pedestrian network that connects Tokyo Station, Otemachi Station and Nihombashi Station

Strengthening of disaster preparedness and reduction of environmental burden

- Establishment of space for those stranded during disasters and storage for emergency supplies
- Promotion of greater energy efficiency in the entire area through establishment of district heating/cooling plant and cooperation with existing plants

Promoting the "Kyobashi 3-Chome Higashi District Urban Redevelopment Project (Kyobashi 3-Chome Project)" in the Kyobashi area.

Kyobashi 3-Chome Project

Kyobashi 3-Chome Higashi District Urban Redevelopment Project

- Urban development linked to the Tokyo Expressway (KK Line) Revitalization Policy
- Directly connected to Kyobashi Station, forming an underground pedestrian
 network from Tokyo Station
- Creation of continuity of the bustle of Chuo-dori connecting Kyobashi and Ginza
- April 2024 Approval of establishment of urban redevelopment consortium

 Total area 	Approximately 6,820 m ²
- Total floor area	Approximately 164,900 m ²
 Main uses 	Offices, hotel, shops, etc.
- No. of floors	35 floors above ground, 4 below
- Construction start	Scheduled for FY2026
- Completion date	Scheduled for FY2030

Value Created by the Project

Establishment of urban infrastructure that contributes to the greater and wider flow of people in the Kyobashi area

- Formation of a multi-level pedestrian network connecting the station, town and Tokyo Sky Corridor
- Creation of extensive pedestrian space generating bustle and movement
- Construction of Tokyo Sky Corridor, etc.

Introduction of urban functions supporting the creation of bustle in the Kyobashi area

- Establishment of communication, education and interaction functions contributing to the development of the culture of art and craftsmanship
- Establishment of world-class accommodation facilities

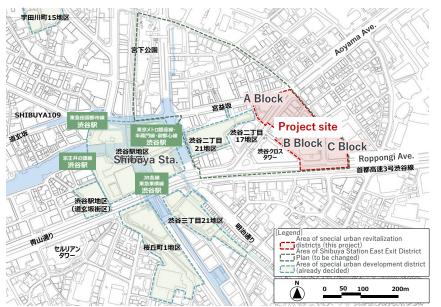

Strengthening of disaster preparedness and reduction of environmental burden

- Efforts to strengthen disaster preparedness of the area
- Efforts to reduce environmental burden

- Promoting the "Shibuya 2-Chome West Area Redevelopment (Shibuya 2-Chome Project)" in the Shibuya Station East Exit area.
- Aiming for urban development that creates new added value in the area through various initiatives that contribute to urban infrastructure development, international competitiveness improvement, and environmental burden reduction that will create an expanse of the town.

— Shibuya 2-Chome Project — Shibuya 2-Chome West Area Redevelopment

→ January 2023 Approval of establishment of urban redevelopment consortium

- Total area Approx. 18.800 m² Total A Block Approx. 1,700 m² B Block Approx. 12,800 m² C Block Approx. 4,300 m² - Total floor area Total Approx. 322,200 m² A Block Approx. 4,200 m² B Block Approx. 255,000 m² C Block Approx. 63,000 m² Offices, shops, hotels, human resources development facilities, bus terminals, housing, Main uses life support facilities, etc. 5 floors above 41 floors above 41 floors above A Block B Block C Block No. of floors ground, 4 below ground, 1 below ground, 2 below - Construction start Scheduled for FY2025 Completion date Scheduled for FY2029

* A and B blocks are assumed to be type 1 urban redevelopment projects, and C block is assumed to be voluntary joint rebuilding project.

Value Created by the Project

Strengthening Shibuya's wide-area transportation functions and developing urban infrastructure to create an expanse of the town in the east exit area

- Development of bus terminals to enhance Shibuya's wide-area transportation functions
- Improvement of pedestrian network and road environment spreading from station to town
- Creation of plaza space, a center of the bustling and relaxation

Introduction of urban functions that contribute to strengthening international competitiveness

- Development of STEAM human resources development base to contribute to next-generation innovation
- Development of residences and accommodations to meet the diverse needs of foreign nationals, etc.

Strengthening of disaster preparedness and reduction of environmental burden

- Efforts to strengthen disaster preparedness of the area
- Efforts to reduce environmental burden

- **To gain business opportunities in markets of emerging countries, invested in China and Asia.**
- In the markets of advanced countries, the Company invested in the U.S. residential business in FY2023, and is currently conducting investigation and analysis for further acquisition of business opportunities.
- Balance on the balance sheet for the overseas business was approximately ¥40.0 billion at the end of March 2024.
 - Conduct business centering on partnerships with partners who are familiar with the local market and have strong development and sourcing capabilities and high credit worthiness.

Basic Strategy

- Dispatch resident officers from Tokyo Tatemono to the area and enhance relationship with partners, in addition to managing
 risks based on our view.
 - Invest mainly in quick turnover businesses primarily in China, countries in Asia and the U.S. in which Tokyo Tatemono has invested before.

Long-Term Vision and Medium-Term Business Plan

- In February 2020, announced a long-term vision for 2030, "Becoming a Next-Generation Developer," and the Medium-Term Business Plan for FY2020-FY2024^{*1}.
- Aim to achieve goals of Medium-Term Business Plan and realize the long-term vision through initiatives that contribute to the evolution of ESG management and the promotion of our five key strategies.

*1 For details, please refer to "Long-Term Vision, Medium-Term Business Plan" announced on February 12, 2020.

*2 Business profit = Operating profit + Share of profit (loss) of entities accounted for using equity method

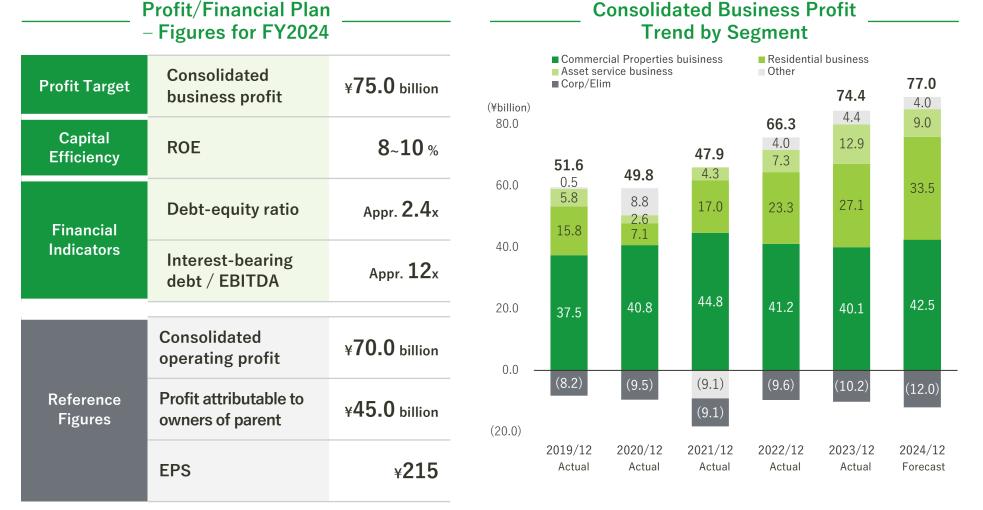

🕢 ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

In order to achieve our long-term vision, we reviewed important issues that need to be addressed, mindful of the values to be shared with society through our business. In this process, 14 material issues were identified.

* See the ESG Management & KPI page of our website for the KPIs and targets based on material issues. https://tatemono.com/csr/english/promotion.html

- In the Medium-Term Business Plan, we have set a business profit target of ¥75 billion in profit for FY2024. In addition, we have set targets for ROE, the debt-equity ratio, and the interest-bearing debt to EBITDA multiple in order to optimize the business portfolio in consideration of capital efficiency and fiscal discipline.
- Looking towards 2024, we plan to increase profit on property sales centering on property sales to investors.

Business Portfolio Concepts (1)

- Our business portfolio can be classified into three categories based on their profit characteristics: leasing, property sales (for-sale condominiums/sales), and services. We manage each segment with a focus on the value chain.
- We promote five key strategies with a focus on the balance between profitability, efficiency, and stability.

Business classification and management by profit characteristics, with awareness of the balance between profitability, efficiency, and stability

	Profit Type	Characterized by
Leasing	Profit from leasing offices, condominiums, etc.	 Highly stable profit Requires significant investment
Property Sales	Development profit, acquired from sale of properties held	Highly volatile profitHigh capital efficiency
Services	Fee revenue from facility management/operation, provision of services	 Highly stable profit Does not involve significant investment

Key Strategies and Their Profit Sources

	Key Strategy	Profit Source
(1)	Promotion of large-scale redevelopment	Leasing
(2)	Further strengthening of for-sale condominium business	Property sales
(3)	Expansion of property sales to investors	Property sales
(4)	Strengthening of brokerage, fund, and parking businesses	Services
(5)	Growth in overseas business	Property sales

Business Portfolio Concepts (2)

Working under our five key strategies, we are steadily growing our Services area, with profit growth driven especially by the Property Sales area through 2024 and expansion of Leasing in 2025 and beyond, achieving a well-balanced profit structure mindful of capital efficiency.

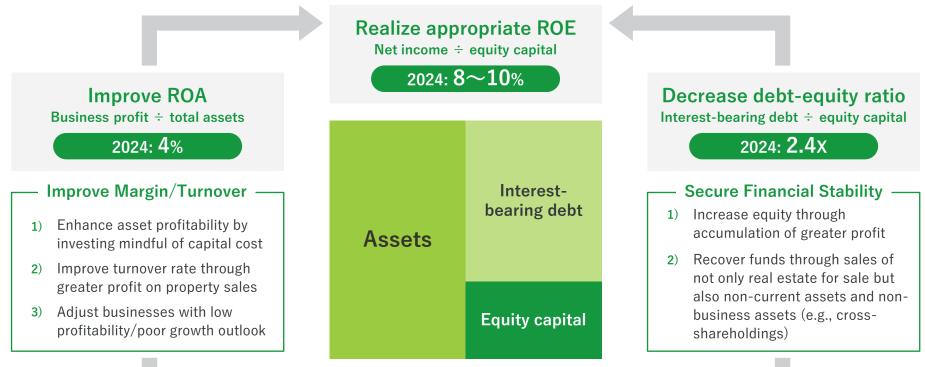

* The percentages in the graph show the approximate composition ratio

🕢 ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

Management Mindful of Capital Efficiency

We will target enhancement of ROA by improving margin and turnover, appropriate control of the debtequity ratio through earnings growth and asset sales, realization of ROE of 8% to 10%, and optimization of our business portfolio and asset composition.

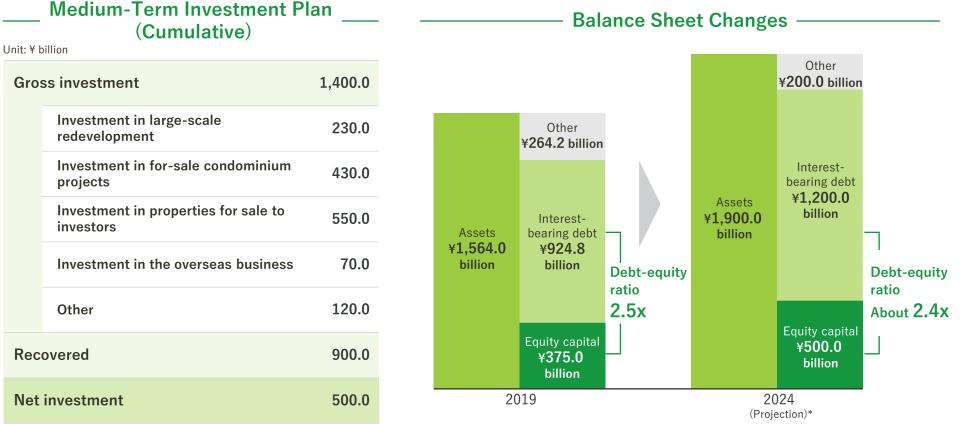

Guide optimization of business portfolio and asset composition

Investment Plan

- **Estimated net investment of ¥500.0 billion in total over five years.**
- In addition to enhancing equity capital through stable profit growth, we aim to optimize our asset composition by selling non-current assets in consideration of profitability and reducing crossshareholdings in order to either maintain or reduce the debt-equity ratio and simultaneously control the balance sheet in an appropriate fashion.

*Assumed at time of announcement of Medium-Term Business Plan in February 2020

Unrealized Gain

Recognition of Current Situation

- ROE is at the target level in the Medium-Term Business Plan (9.6%) and remains at a level exceeding shareholders' equity costs (CAPM estimate: approx. 7% to 8%).
- On the other hand, the current PBR is at a level below 1.0 times, with low PER recognized as the main factor behind this.
- Going forward, in addition to maintaining/increasing ROE, it will be necessary to improve profit stability and foster growth expectations with the aim of improving PER.

By improving profit stability and fostering growth expectations in addition to maintaining and enhancing ROE, evaluation by the stock market will become more favorable.

🕢 ΤΟΚΥΟ ΤΑΤΕΜΟΝΟ

Initiatives to Enhance Corporate Value (Not updated from the time of announcement of financial results for the second quarter of FY2023)

Initiatives to	o Enhance Corporate Value
Maintaining/ enhancing ROE	 Through optimizing the business portfolio, asset composition, etc. based on "management that is mindful of capital efficiency," as set forth in the Medium-Term Business Plan, we aim to steadily meet the plan's target ROE (FY2024: 8% - 10%) and subsequently achieve an ROE exceeding that level in the long term. (Key Initiatives) Enhancing profit margin in each business Ingenious land acquisition that leverages our strengths Steady promotion and leasing of large-scale redevelopment projects Focusing on cost management Enhancing capital efficiency Enhancing sales of for-sale condominiums and property sales to investors Expanding fee revenues in tandem with group AUM growth
Enhancing profit stability Fostering growth expectations (Reducing shareholders' equity costs	In addition to increasing market confidence by deploying our tolerance to environmental changes to steadily generate profit, we will foster a sense of expectation by showing the probability of sustainable profit growth and enhanced shareholder returns in the future in our results and strategies. (Key Initiatives) Enhanced disclosure and proactive and attentive dialogue Comprehensive disclosure of strategies and initiatives aimed at sustainable growth Comprehensive disclosure of strategies and initiatives aimed at sustainable growth Enhancing engagement with investors Evolved approach to ESG management Accelerating sustainability initiatives Covering business risks by enhancing risk management Developing human capital

*Standards for areas subject to calculation are as follows.

1. Office buildings owned by group companies are included.

2. Since the area of retail facilities accounts for a large proportion under total leased floor area at GRAND FRONT OSAKA, the area of retail facilities is excluded from calculation.

3. With regard to buildings owned by consolidated SPCs, the equivalent areas of the SPCs' equity holdings in other companies have been included along with areas subject to recording of leasing revenue.

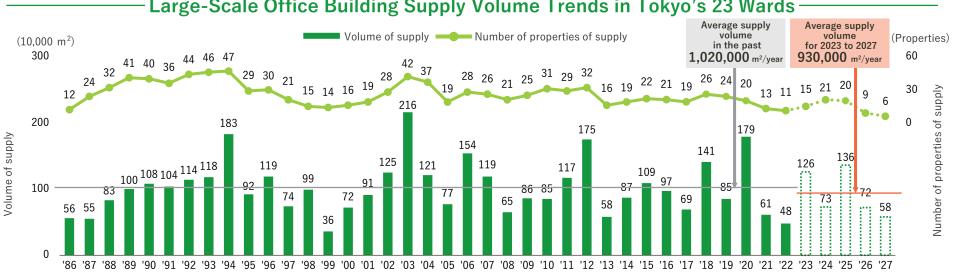

4. Addition of following criteria from the end of March 2022: Properties included in a redevelopment project area shall be excluded from owned office buildings upon the establishment of an urban redevelopment consortium or project approval.

5. The DNP Gotanda Building (currently the Panasonic Meguro Building), acquired at the end of September 2019, will be included in the areas subject to calculation from the end of June 2023.
