## Business Results for the First Two Quarters of FY2025

- In the first two quarters , revenue and profit decreased following a rebound from the large revenue from for-sale condominiums recorded in the previous fiscal year, despite the steadily growing revenue from leasing of buildings and operating of facilities.

## Full-Year Earnings Forecast for FY2025

- The full-year earnings forecast remains unchanged, given the increasing certainty of recording revenue from the planned sale of properties to investors in the second half of the year.

## Topics

- TOFROM YAESU, pre-leasing rate for office portion reached 80% (August)
- Tokyo Tatemono Investment Advisors Co., Ltd. begins operation of a logistics private fund through a joint AM with JR East Real Estate Asset Management Co., Ltd. to acquire and operate T-LOGI Ayase, T-LOGI Tsurugashima (July)
- Local subsidiary “Tokyo Tatemono US Ltd.” commences sales activities to accelerate business development in the U.S., aiming to acquire investment projects of over ¥20 billion annually going forward (June)

\*1 Calculated by aggregating total investment amount, in which construction costs, etc. that arise after the acquisition are added to the book value of each property at the time of acquisition.

\*2 Calculated by subtracting the "total investment amount" from the total estimated sales amount, which is provisionally calculated based on the estimated income and expenditure and the estimated cap rate at the time of sale for the property assumed to be sold.

\*3 The number of projects already sold includes the sales of projects in both the pre-development phase and in the development phase.

- In the first two quarters, the Company achieved investment of approximately ¥165.1 billion at an achievement rate of 41.8%, progressing generally as planned at the beginning of the period.
- In the second half of the year, besides investments in existing projects, we anticipate significant progress in new investments for the property sales business to investors and overseas business, etc., for which decisions were made in the first half. The projected investment amount for the current period, based on decisions made in the first two quarters, has progressed over 70% relative to the plan.

# Consolidated Statement of Cash Flows for the First Two Quarters of FY2025

- In the first two quarters, while there was progress in terms of investment in asset-turnover businesses and large-scale redevelopment projects, etc., cash and cash equivalents increased at the end of the period due to front-loaded financing in a phase of rising interest rates.
- For the full fiscal year, in addition to advancing recovery of investments through property sales to investors, etc., the Company is continuing to focus on growth investment in asset-turnover businesses.

- It is necessary to monitor events that have an impact on profitability such as construction costs and interest rate trends.
- Profitability is determined by taking into account the trend of rising prices when considering acquisitions of new projects.

## Recognition of the overall business environment and impact on Tokyo Tatemono

Construction expenses	<ul style="list-style-type: none"> <li>• Soaring construction costs and prolonged construction periods are ongoing issues. Further hikes in labor costs are projected going forward.</li> <li>• While considering improvements in plans to enhance product salability and increase anticipated income, we will further focus on cost management, including the efficiency of facility planning, reduced scope of construction, and shortening of construction periods, thereby securing the initially anticipated profits.</li> <li>• When considering acquiring new projects, we conduct investment value assessments based on trends in construction expenses and periods.</li> </ul>
Interest rates	<ul style="list-style-type: none"> <li>• The impact has been suppressed because steps have been taken in financing (borrowing, etc.) to lengthen loan durations and maturity dates and to use fixed interest rates.</li> <li>• Although housing mortgage rates have not shown any signs of significant change recently, it is necessary to monitor future trends.</li> <li>• The cap rate in real estate transactions has not shown any signs of significant change recently due to the expectation of earnings growth from inflation. However, there is growing attention being paid to the feasibility of revenue growth.</li> </ul>
Impact of U.S. tariff policies	<ul style="list-style-type: none"> <li>• At present, the impact on construction costs, interest rates, and other factors is assessed to be minimal.</li> <li>• Close monitoring will be required to determine how changes in business sentiment due to the impact of tariffs may affect the real estate transaction market.</li> </ul>

## Recognition of the environment in each segment and Tokyo Tatemono's initiatives

Commercial Properties	<ul style="list-style-type: none"> <li>• The market's occupancy rate is on a recovery trend. While it is necessary to monitor supply and demand trends, rent levels are also continuing to rise.</li> <li>• Taking market trends into account, Tokyo Tatemono leverages our portfolio's advantages in location, specifications, and services to focus on negotiating rent increases and ancillary income acquisition. In addition, we aim to enhance risk tolerance and increase the yield of rental assets through a review of the portfolio.</li> </ul>
Residential	<ul style="list-style-type: none"> <li>• While purchasing intent remains strong, it is necessary to monitor the impact of anticipation of elevated mortgage rates and fluctuations in wealth effects.</li> <li>• Taking advantage of the Brillia brand, Tokyo Tatemono will further strengthen redevelopment projects with its track record and product planning for the wealthy, thereby maintaining our competitiveness.</li> </ul>
Asset Service	<ul style="list-style-type: none"> <li>• Brokerage: The distribution market remains active. Tokyo Tatemono focuses on acquiring large projects in wholesale markets and gaining market share in the secondary distribution of Brillia in retail markets.</li> <li>• Parking business: Efforts such as strengthening management services for large parking lots are being made to increase the number of parking spaces.</li> </ul>
Property sales to investors	<ul style="list-style-type: none"> <li>• Preferences vary for each asset, but the overall sales market remains strong. However, acquiring business opportunities remains a challenge.</li> <li>• While leveraging the acquisition expertise and information channels accumulated during the previous medium-term plan period, Tokyo Tatemono aims to expand the scale of acquisitions through measures such as strengthening human resources and developing new assets.</li> </ul>

# Changes in Business Profit and Profit

(Not updated from the time of announcement of financial results for FY2024)

- The trends in business profits and profit attributable to owners of parent for the previous fiscal years are as follows.
- We aim for steady growth to achieve the business profit target of ¥95.0 billion in FY2027.

## Image of profit growth during the Medium-Term Business Plan (FY2025-2027)

<b>Commercial Properties:</b> – Building leasing, etc.	<ul style="list-style-type: none"> <li>The occupancy rate of existing properties has begun to recover, and leasing revenue is expected to turn upward going forward through rent increase negotiations and other factors, including growth in commission-based rents for hotel properties. At the same time, due to the impact of extended construction periods for redevelopment properties and other factors, the full profit contribution from the large-scale redevelopment projects currently under development is expected to be slightly further in the future.</li> </ul>
<b>Residential:</b> – For-sale condominiums	<ul style="list-style-type: none"> <li>The number of condominium sales posted is expected to return to a standard level for the Company. In the face of rising construction expenses, we expect that solid demand will allow for adequate adjustments in sales prices, thereby maintaining a high gross margin. Sufficient land bank continues to be secured.</li> </ul>
<b>Other</b>	<ul style="list-style-type: none"> <li>For the time being, we anticipate a decline in profit, mainly due to the expansion of investment in overseas businesses, but plan to offset this with steady growth in our service business. We will steadily build up our stock, leading to profit growth in the next medium-term plan period and beyond.</li> </ul>
<b>Property sales to investors</b>	<ul style="list-style-type: none"> <li>Amid a favorable real estate transaction market, we will significantly increase profit by accelerating sales of the stock we have built up to date, while also expanding new investments to secure future stock.</li> </ul>

## ■ New and full-year operations

- New operation in 2025: minanoba Sagamihara, T-LOGI Sagamihara (provisional name)
- 2025 full-year operation: Two logistics properties (T-LOGI Fukuoka Island City, etc.), two hotels (Hilton Kyoto, etc.), one retail facility, and four offices

<sup>\*1</sup> The accounting category for revenue from operating facilities such as hotels on company-owned floor space has been changed from "Building management service, etc." to "Building leasing and facility operation" effective the first quarter of FY2025. Following this change, the breakdowns of "Building leasing and facility operation" and "Building management service, etc." have been revised for FY2024 2Q Actual, FY2024 Full-year Actual, and FY2025 Full-year Forecasts.

<sup>\*2</sup> New operations: Impact of increase in revenue attributable to the buildings that were completed or acquired in the current fiscal year; Full-year operations: Impact of increase in revenue attributable to the buildings that were completed or acquired in the previous fiscal year contributing to full-year operations; Sale, reconstruction, etc.: Impact of decrease in revenue attributable to decrease in buildings in operation due to sale, reconstruction, etc.; Existing buildings: Total amount of the effects of rent revisions, end of rent-free periods, occupancy rate changes, etc. at buildings other than those covered by new operations, full-year operations and sale, reconstruction, etc.

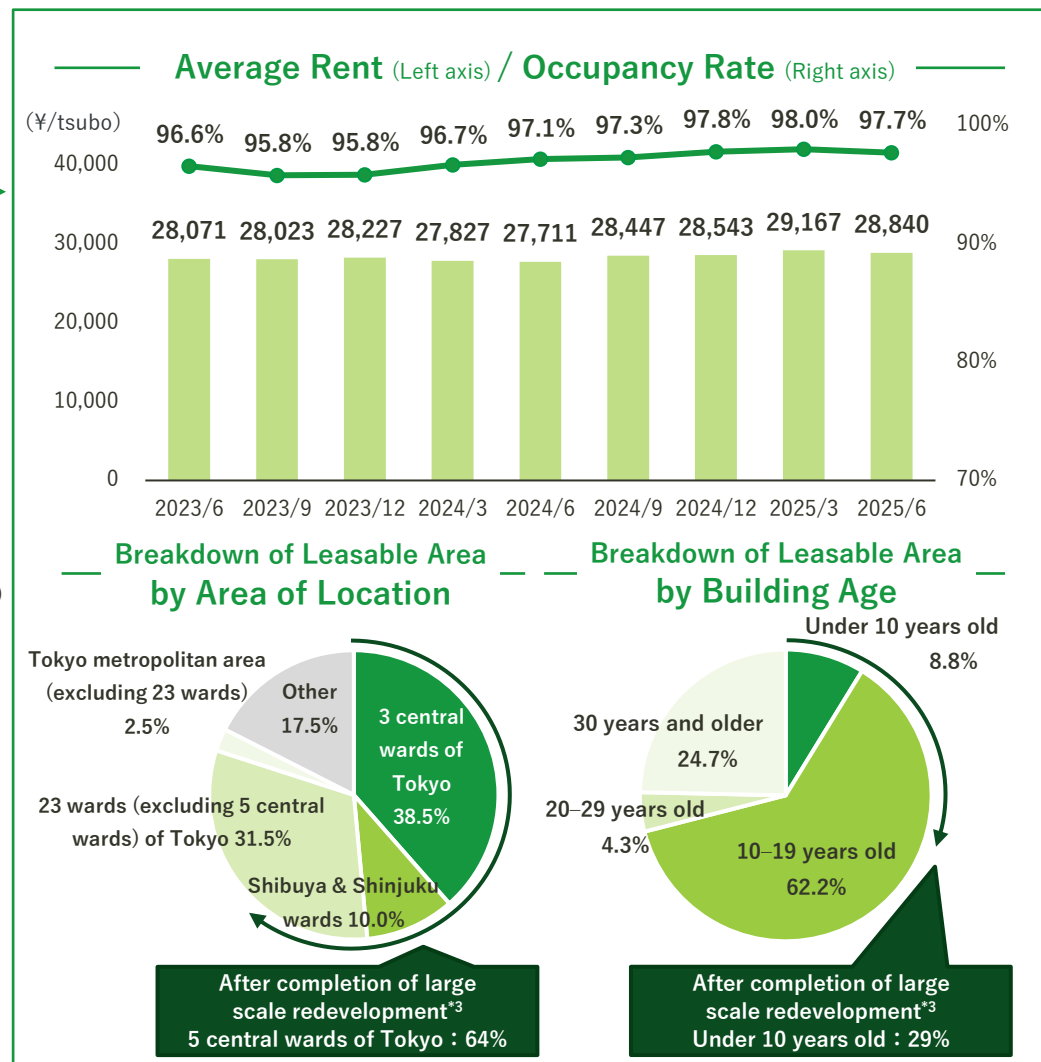

- At the end of June 2025, average rent was ¥28,840 per tsubo and the occupancy rate remained high at 97.7%.
- We work to further build a resilient portfolio of owned facilities through redevelopment in areas with high rent growth rates, replacement and diversification of assets with an awareness of asset efficiency and growth potential, and other measures.

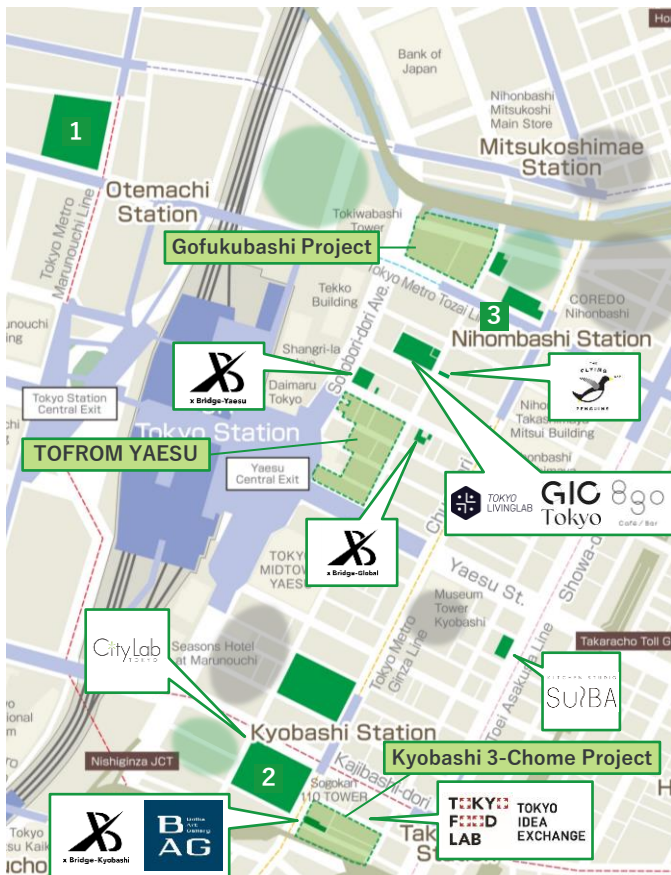

\*1 Please refer to the note on page 59 for the definition for the subject of calculation of the number of owned office buildings, average rent and occupancy rate.

\*2 Refers to the hotels/retail facilities within owned office buildings, SMARK, Hilton Kyoto, etc.

\*3 Simple addition of the leasable area of the four large-scale redevelopment projects listed on page 21.

- Access to various locations including regional cities, areas in Tokyo and international airports is excellent due to the existence of bullet trains, existing JR lines and multiple subway lines, giving the area **overwhelming transportation convenience**, its main feature.
- 10 **large-scale redevelopment projects**, including our company's own, are **in progress**.
- **Japan's foremost business environment is being formed** where venture firms, leading companies, investors, research institutions and other players from the fields of industry, academia and government come together and collaborate, thereby nurturing cutting-edge industries and giving rise to positive economic growth cycles.

## Diverse Regional Features and Potential of the YNK Area

Overwhelming transportation convenience

Concentration of leading firms

Excellent halls and meeting room facilities

Highly diverse small and medium-size properties

Rich cultural resources carrying on culinary and craftsmanship traditions

- : Redevelopment with Tokyo Tatemono's involvement
- : Buildings owned by Tokyo Tatemono
- : Redevelopment with other companies' participation

- The YNK area boasts a top-level office rent growth rate compared to Tokyo's major business areas, a result of recent redevelopments and other factors.
- Adjacent to areas with a wide range of urban resources, e.g., business, commercial tourism and residential hubs, this area is home to many old small- and medium-sized properties, and future advances in redevelopment are expected to raise the value of the entire area even further.

- Aiming to strengthen the stable revenue base through high-value-added urban development that contributes to increasing global competitiveness.
- Strictly managing costs and schedules to counter rising construction costs and longer construction periods due to workstyle reforms in the construction industry, while appropriately addressing issues including coordination among property rights holders (e.g. urban redevelopment committee), thereby achieving higher leasing revenue.
- Precisely controlling the balance sheet, including utilizing funds recovered from both asset-turnover businesses and non-current asset sales, and considering strategic share-outs.

## Significance of large-scale redevelopment initiatives

- Redevelopment business expertise is essential for large-scale development projects at acutely scarce, prime locations in central Tokyo.
- Helping to enhance the potential of urban areas by leveraging our strengths, including product planning capabilities that draw out regional attractions
- Accomplishing flagship, large-scale redevelopment projects in highly visible locations will further enhance our presence as a comprehensive real estate developer, instilling further trust and broadening business opportunities.

## (4) Other: Initiatives for Fund Business

- Further expansion of profit opportunities for the Group will be pursued through sales of developed/owned properties to REITs and such sponsored by Tokyo Tatemono.
- Japan Prime Realty Investment Corporation (JPR), which has entrusted asset management to the consolidated subsidiary Tokyo Tatemono Realty Investment Management, Inc. (TRIM), as well as private funds and private REITs operated by Tokyo Tatemono Investment Advisors Co., Ltd. have steadily expanded their asset size.

### Tokyo Tatemono Private REIT, Inc.

A diversified private REIT investing in various asset types

As of December 2024

### Japan Prime Realty Investment Corporation

A J-REIT with a combined portfolio of office and urban retail facilities, etc.

As of December 2024

- To accelerate business development in the U.S., we established a local base in June and dispatched resident employees to the area.
- 11 projects are currently underway, centered on the multi-family development business. We aim to acquire investment projects worth ¥20 billion or more annually going forward.

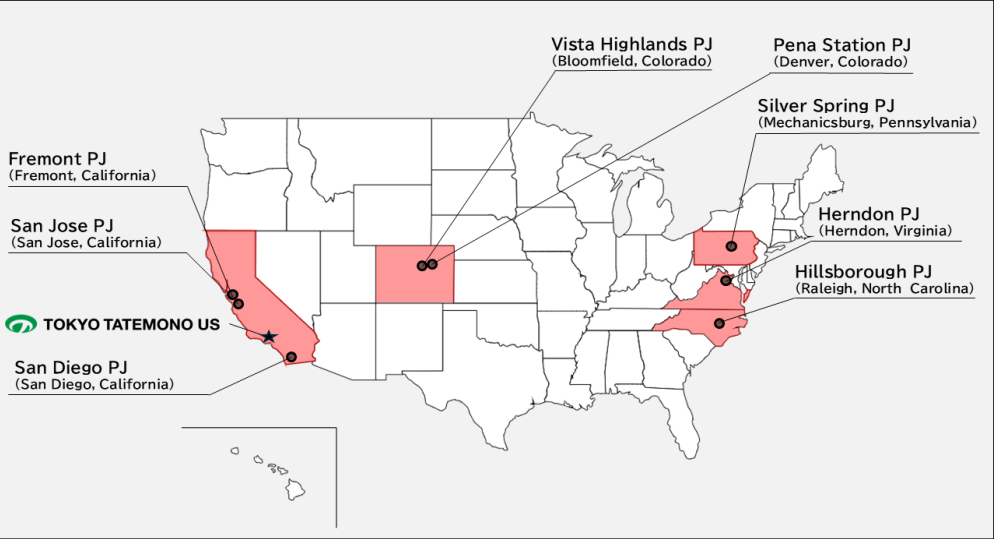

Assessment of the Market Environment

- The U.S. real estate market is the largest in the world, and is also highly transparent. Among advanced countries, the United States is also forecast to enjoy relatively high rates of population growth and economic growth in the future. Robust real estate demand, starting with **for-rent condominiums**, can be expected.
- E-commerce is also continuing to grow, with further demand expected not just for condominiums but also for **logistics facilities** and other properties.
- In a challenging market environment, marked by a declining number of construction starts, the supply-demand balance is expected to tighten, signaling a **favorable investment opportunity**.

Basic Strategy

- Expecting profit acquisition and fund recovery through **quick turnover**.
- Investment in asset types where a **stable exit** can be expected.
- Risk control through **diversified investment (area, investment amount)**.
- Joint business **with partner companies** that have abundant business experience in the U.S.

## (4) Other: Initiatives for Overseas Business

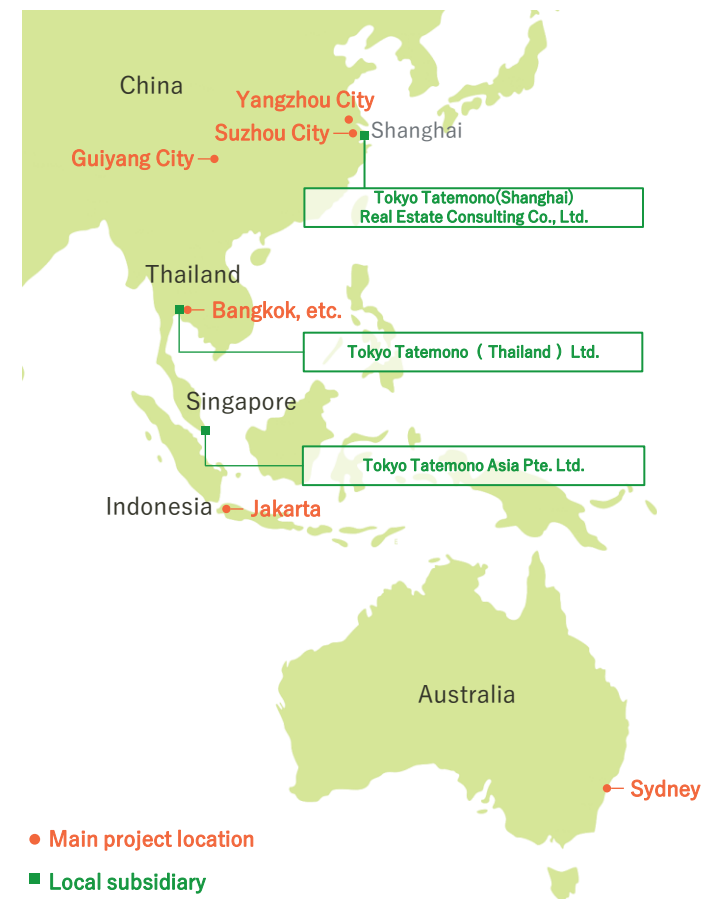

- Leveraging our strengths and expertise developed in Japan, we will secure business opportunities in growing markets.
- The balance sheet(equity) showed a balance for overseas business of approximately ¥54.0 billion at the end of June 2025.

### Basic Strategy

- Conduct business centering on collaboration with partner companies that are familiar with the local market and have strong development and sourcing capabilities and high credit worthiness.
- Dispatch resident officers to the area and enhance relationships with partner companies, in addition to strictly managing risks.
- Invest mainly in asset-turnover businesses primarily in the U.S., Australia, Thailand, and China, in which Tokyo Tatemono has previously invested.

### Shift to renewable energy

#### ■ Creation and utilization of renewable energy from solar power generation systems on development properties

- On-site PPA: Private power consumption at for-rent condominiums and logistics properties
- Off-site PPA: Transmission of surplus power from logistics properties to other Tokyo Tatemono facilities

##### Private power consumption & surplus power supply scheme for logistics properties

- ✓ The T-LOGI logistics facilities intentionally generate more electricity derived from renewable energy than the facilities consume on their own, providing the surplus to Tokyo Tatemono-owned retail facilities and office buildings. Effective use of renewable energy is currently underway.
- ✓ Going forward, with the increase in the number of T-LOGI developments, we plan to apply the Corporate PPA scheme and expand the scope of renewable energy supply from the suburbs to urban centers.

#### ■ Deployment of the mega solar business

#### ■ Switching purchased electricity to renewable energy

## ► Strengthening of Board of Directors' Functions to Enhance Corporate Value, etc.

### ■ Change of directors' term of office (2 years → 1 year)\*<sup>1</sup>

Changed from the two-year term to a one-year term for directors in order to build a management structure that was more rapidly adaptable to changes in the business environment.

### ■ Increase in ratio of external directors (addition of 1 external director)\*<sup>1</sup>

- Increased the number of external directors from 4 to 5 to further enhance the effectiveness of the Board's management supervisory function.
- The ratio of female officers was also increased.

### ■ Selection of the Head of External Directors

The Head External Director was mutually elected from among the external directors to strengthen cooperation among External Directors and the Board of Directors, Audit & Supervisory Board, etc.

\*A new External Directors Meeting was also established with external directors as its only members.

### ■ Reorganization of the Nomination and Remuneration Advisory Committee

The Nomination and Remuneration Advisory Committee was divided into the Nomination Advisory Committee and the Remuneration Advisory Committee, in order to enhance the objectivity and transparency of the nomination and remuneration decision-making processes. Each committee was chaired by an external director.

### Partial revision of the remuneration system for directors (excluding external directors)

- To clarify the linkage with the Company's business performance and shareholder value, business profit, ROE, shareholder returns, and other elements were added to the factors considered when determining performance-based remuneration.
- To enhance the linkage with performance, the proportion of performance-based remuneration and stock-based compensation in the total remuneration was increased for the Chairman of the Board and the President among directors.

## ► Reduction of cross-shareholdings

- Appropriately verify the significance of holding cross-shareholdings and continue to further reduce the number of shares held.
- Use funds recovered from the sale for growth investments and shareholder returns

### ■ Quantitative Target

Cross-shareholdings  
to net assets  
(as of end of FY2027)

**10% or less**

## ► Strengthen risk management framework

- The Risk Management Committee conducts annual planning; evaluation and analysis of risks prioritized for countermeasures; formulation of preventive measures and countermeasures; and regular monitoring of risk owners' activities.

## ► Deepening Group Management

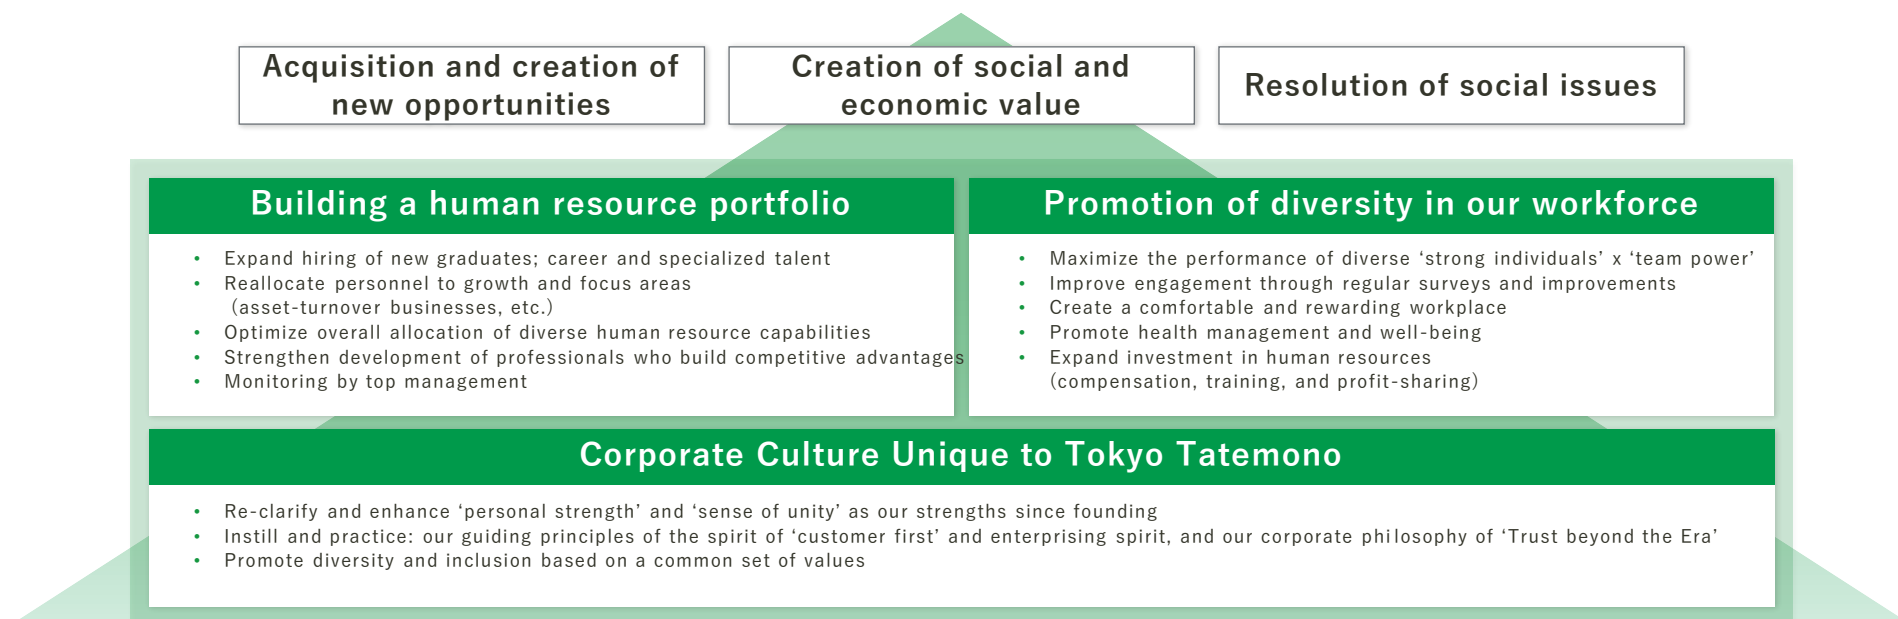

- Demonstrate synergies throughout the entire Group's value chain, such as in the development and operation of large complex facilities, to maximize the value provided
- Strengthen the group governance based on the Group Business Management Standards

## Initiatives to Enhance Corporate Value

### Maintaining /enhancing ROE

In line with the basic policy of “Building a robust portfolio that is resilient to changes for accelerated growth and greater capital efficiency,” we will steadily meet the 10% ROE target for this medium-term plan period by accelerating and expanding asset-turnover businesses and other measures.

#### Key Initiatives

- **Accelerating and expanding asset-turnover business**
  - Acceleration of the property sales business to investors
  - Expansion of overseas business
  - Further growth in the for-sale condominium business
- **Strengthening the stable revenue base**
  - Steady promotion and leasing of large redevelopment projects
  - Diversifying rental asset portfolio
  - Expanding service business
- **Disciplined control of balance sheet**
  - Reducing cross-shareholdings  
(end of 2027: To be less than 10% of net assets)
  - Strategic sale of non-current assets  
(current medium-term plan period: ¥130.0 billion or more including cross-shareholdings) \*Based on sale price
  - Financial leverage control based on fiscal policy

### 利益安定性向上 成長期待醸成 (株主資本コスト低減)

In addition to increasing market confidence by exhibiting our tolerance to environmental changes to steadily generate profit, we will foster a sense of expectation by demonstrating the probability of sustainable profit growth and increased shareholder returns in the future in our results and strategies.

#### Key Initiatives

- **Enhanced disclosure and proactive and attentive dialogue**
  - Comprehensive disclosure of strategies and initiatives aimed at sustainable growth
  - Enhancing engagement with investors
- **Evolution of Management Infrastructure to Support Growth**
  - Accelerating sustainability initiatives
  - Lowering business risks by enhancing risk management
  - Developing human capital, promoting DX initiatives
- **increase shareholder returns**
  - Through sustained and stable profit growth, raising the dividend payout ratio to 40% in FY2027
  - Flexible repurchase of company shares in comprehensive consideration of the stock price level, business environment and financial situation, and other factors

- In February 2020, announced a long-term vision for 2030, “Becoming a Next-Generation Developer.”
- Aim to achieve goals of Medium-Term Business Plan and realize the long-term vision through promotion of the six key strategies and evolution of the management infrastructure.

## Long-Term Vision for 2030\*1

### “Becoming a Next-Generation Developer”

Achieve the dual goals of “solving social issues” and “company growth” at higher levels

Target for 2030:  
Consolidated business profit\*2 of  
¥120.0 billion

Contributing to the  
achievement of the SDGs

#### ■ Basic Profit Growth Policy

Based on stable rental profits, aim for a well-balanced profit structure with an awareness of capital efficiency\*3

\*1 The target period of the Long-Term Vision has been updated from around 2030 to by 2030 from this medium-term-plan period.

\*2 We have redefined business profit from the medium-term business plan (2025-2027).

Before change: Business profit = Operating profit + Share of profit (loss) of entities accounted for using equity method

After change: Business profit = Operating profit + Share of profit (loss) of entities accounted for using equity method, etc.\* + Gain (loss) on sale of non-current assets

\*Share of profit (loss) of entities accounted for using equity method, etc. includes interest and dividend incomes, and loss (gain) on sale of investment equity in investment vehicles for overseas businesses.

\*3 Updated to reflect the projected future shift in per-area profit from this medium-term-plan period.

## Positioning of the Medium-Term Business Plan

## Key Strategies in the Medium-Term Business Plan

1

Steady promotion of large-scale redevelopment

2

Further growth in the for-sale condominium business

3

Acceleration of the property sales business to investors

4

Expansion of overseas business

5

Expansion of service business

6

Establishment of new business

- To achieve our long-term vision, we identified 14 material issues, mindful of the values to be shared with society through our businesses.

	Important issues	Shared value with society	Contribution to SDGs
Creation of social value	 Strengthening Tokyo's competitiveness as an international city	Creating value of place and value of experience

# Key Strategies in the Medium-Term Business Plan

(Excerpt from the medium-term management plan announced in January 2025)

- Action policies are set out for six key strategies under the BASE (foundation for growth) concept.
- Our business portfolio can be classified into three categories based on their profit characteristics: Leasing, Property Sales, and Services. We manage each segment with a focus on the value chain.

## Key strategies and classification of business portfolio management

Key strategies	Action policies	Classification by principal business segment	Profit classification
1 Steady promotion of large-scale redevelopment	 <b>Build up</b> Build-up steady efforts to strengthen the stable revenue base	Commercial Properties	Leasing

# Approach to the Business Portfolio Strategy

(Not updated from the time of announcement of financial results for FY2024)

- During this medium-term plan period, while maintaining the profit proportion of Leasing: Property Sales: Services = 30%: 60%: 10%, we aim to generate cash for growth investments and increase capital efficiency. ①
- To achieve profit growth while adapting to changes in the business environment, we have revised the profit proportion for 2030, reducing that of Leasing and increasing that of Property Sales compared with our initial projections. ②
- By optimizing our business portfolio, we will sustainably and stably achieve a high level of capital efficiency and profit growth.

## Projected Shift in Per-Area Profit Over Time

## Balance Sheet

## Basic policy

Accelerate asset turnover for higher capital efficiency, and increase shareholder returns through sustainable profit growth

1

### Accelerate recovery of funds and growth investments on the scale of ¥1,000.0 billion

- Accelerate the sale of non-current assets and cross-shareholdings
- Accelerate investments in asset-turnover businesses

2

### Further increase shareholder returns

## Three-year cash allocation

### Cash in

Net procurement  
approx.  
¥230.0 billion

Adjusted operating CF  
approx.  
¥110.0 billion

### Cash out

Income taxes  
(fluctuates due to tax effect accounting, etc.)

Net investment  
approx.  
¥140.0 billion

Strategic funds available for  
approx.  
¥50.0 billion

Shareholder returns  
approx.  
¥65.0 billion

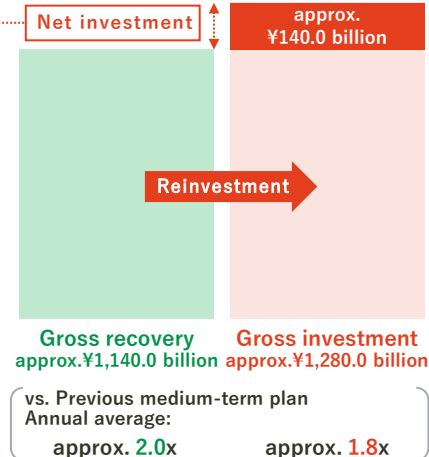

### Net procurement

- Financing based on financial indicators, assuming the JCR rating of A is maintained (FY2027 debt-equity ratio: approx. 2.4x, interest-bearing debt / EBITDA: approx. 12x)

### Adjusted operating CF

- Diversify rental asset portfolio and expand service business, etc., thereby strengthening ability to generate stable cash flow

### Net investment

### Breakdown of gross recoveries \*Based on sales price

① Asset-turnover businesses	¥1,010.0 billion
② Non-current asset sales Cross-shareholdings sales	¥130.0 billion

### Breakdown of gross investment

① Large-scale redevelopment	¥200.0 billion
② Asset-turnover businesses	¥970.0 billion
-For-sale condominium business	¥340.0 billion
-Property sales business to investors	¥520.0 billion
-Overseas business	¥110.0 billion
③ Other	¥110.0 billion

### Strategic funds available for

- Flexibly utilized in line with strategies, including new businesses\* and M&A, efforts to further accelerate investments in asset-turnover businesses and optimize the capital structure.
- While considering medium- to long-term investment capital needs, we also expect to use proceeds for additional increases in shareholder returns.

### Shareholder returns

- Through sustained and stable profit growth, the payout ratio will be raised to 40% in FY2027.
- We will flexibly repurchase company shares, comprehensively taking into account the stock price level, business environment and financial situation, among other factors.

\*Adjusted operating CF: Excludes both investment and recovery in real estate for sale, interest expenses, and income taxes

\*Net procurement: Borrowing amount – Repayment amount – Interest expenses

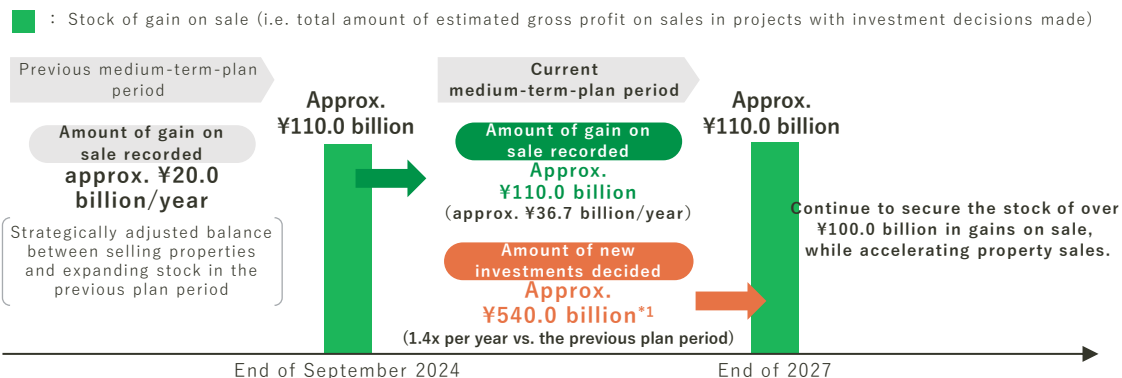

\*Net investment: Gross investment – Gross recovery (both investment and recovery include real estate for sale)

# Acceleration of the asset-turnover businesses

(Excerpt from the medium-term management plan announced in January 2025)

- While accelerating the sales of real estate for sale, we will expand new investments to secure a stock of future gains on sale.
- Non-current assets will be strategically sold in terms of optimizing asset portfolio to recognize unrealized gains.
- The Group's AUM will be expanded through sales to REITs and other management firms, resulting in sustainable profit growth even after the sale of properties.

## Generate profit and improve the asset turnover as a result of sales of real estate for sale

## Optimize portfolio and recognize unrealized gains through strategic sale of non-current assets

Non-current asset sales  
Cross-shareholdings sales (cumulative over current medium-term-plan period)

**¥130.0 billion or more**  
(based on sale price)

→ Use funds recovered for growth investments and shareholder returns

### ■ Unrealized gains on rental properties\*2 (as of end of 2024)

Fair value at end of period	1,583.3 billion
Amount on B/S (carrying value)	1,027.7 billion
Amount of difference	<b>555.5 billion</b>

## Expanding the Group's AUM to ensure sustainable profit growth and accelerating asset turnover for greater capital efficiency.

 TOKYO TATEMONO Investment Advisors

(private REIT/private funds management company)

Regarding exit strategy for logistics properties, we continue considering the listing of a new REIT, while broadly exploring options including private funds and property sales to external parties.

\*1 Amount based on total investment (including cash outflows during and after this medium-term-plan period)

\*2 Subject properties: Of non-current assets, properties that are currently leased to third parties or properties under development that are scheduled to be leased after completion by the Company and its subsidiaries (including properties where a portion is used by the Company and its subsidiaries) are subject to calculation

Method of calculation: For properties newly acquired during the fiscal year or properties under development at the end of the fiscal year, the book value at the end of the fiscal year is taken as the fair value.

## External Ratings

JCR long-term issuer rating	A

\*Standards for areas subject to calculation are as follows.

- Office buildings owned by group companies are included.
- Since the area of retail facilities accounts for a large proportion under total leased floor area at GRAND FRONT OSAKA, the area of retail facilities is excluded from calculation.
- With regard to buildings owned by consolidated SPCs, the equivalent areas of the SPCs' equity holdings in other companies have been included along with areas subject to recording of leasing revenue.
- Addition of following criteria from the end of March 2022: Properties included in a redevelopment project area shall be excluded from owned office buildings upon the establishment of an urban redevelopment consortium or project approval.
- The DNP Gotanda Building (currently the Panasonic Meguro Building), acquired at the end of September 2019, will be included in the areas subject to calculation from the end of June 2023.
