Adoption of International Financial Reporting Standards (IFRS)

- The Company voluntarily adopted the International Financial Reporting Standards (IFRS) for our financial reports beginning from FY2023. As such, we prepare our financial statements in accordance with these standards, with the exception of certain materials.
 - *We report Business Plan 2023 initiatives on pages 17 and 18 using pro forma Japanese GAAP figures (figures adjusted for the main differences between IFRS and Japanese GAAP), which will be IFRS-based figures restated under Japanese GAAP.
- Please refer to the following materials for more information on the difference between IFRS and Japanese GAAP for our FY2022 results. Supplementary Materials Regarding IFRS Adoption https://pdf.irpocket.com/C9147/xivA/ISiq/eiyR.pdf

Financial Results Highlights (Executive Summary)

Financial Results for FY2023

Financial Results for FY2023 (II	FRS)	
		Vs. FY2022
№ Revenue	¥2,239.0 billion	¥(379.6) billion (14.5 %)
➤ Consolidated Segment Income (Business Income)	¥81.2 billion	¥(56.2) billion (40.9 %)

➤ Operating Income	¥60.0 billion	¥ (95.4) billion (61.4 %)
➤ Profit Attributable to Owners of Parent	¥37.0 billion	¥(71.2) billion (65.8 %)

Overview

- ✓ International forwarding business revenues and profit decreased owing to lower gross profit per unit stemming from an easing supply and demand balance and lower volume.
- ✓ Domestic logistics remained sluggish as overall cargo movement failed to recover despite an increase in volume among certain industries, including the automobile industry.

Air Forwarding Gross Profit: Japan Segment

- ✓ Volume increased slightly over Q3, FY2023. Gross profit per ton also improved due to stronger space management and sales price negotiations.
- ✓ Gross profit impact was -29.4% (-4.8 billion yen) YoY and +5.7% (+0.6 billion yen) QoQ.

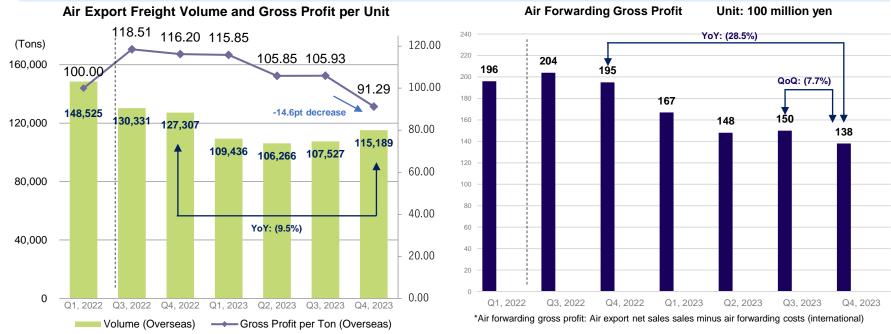

^{*}Figures represent the change in each quarter, indexing gross profit per ton in Q1, 2022 at 100. (See Supplementary Materials on P.22 regarding trends since Q1, 2022)

D Air Forwarding Gross Profit: Overseas Segment

- ✓ Gross profit per ton declined due to rising air freight rates from Asia in East Asia and lower unit sales prices in Europe due to price competition.
- ✓ Although volume increased QoQ, gross profit declined QoQ due to lower gross profit per ton.

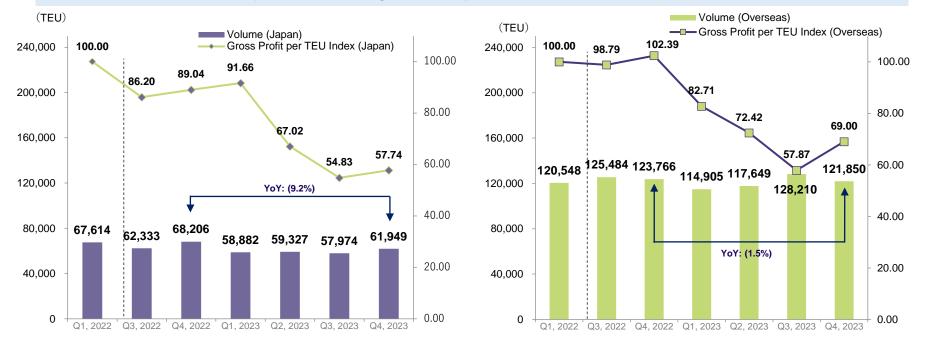

^{*}Figures represent the change in each quarter, indexing gross profit per ton in Q1, 2022 at 100. (See Supplementary Materials on P.22 regarding trends since Q1, 2022)

^{*}Calculated by converting into yen using the average exchange rate for each quarter.

Ocean Forwarding Gross Profit: Japan and Overseas Segments

- ✓ Gross profit per TEU improved compared with Q3 in Japan and overseas amid rising freight rates due to navigation restrictions in the Panama and the Suez Canals.
- √ Volume was slower than expected, with QoQ growth in Japan and QoQ decline overseas.

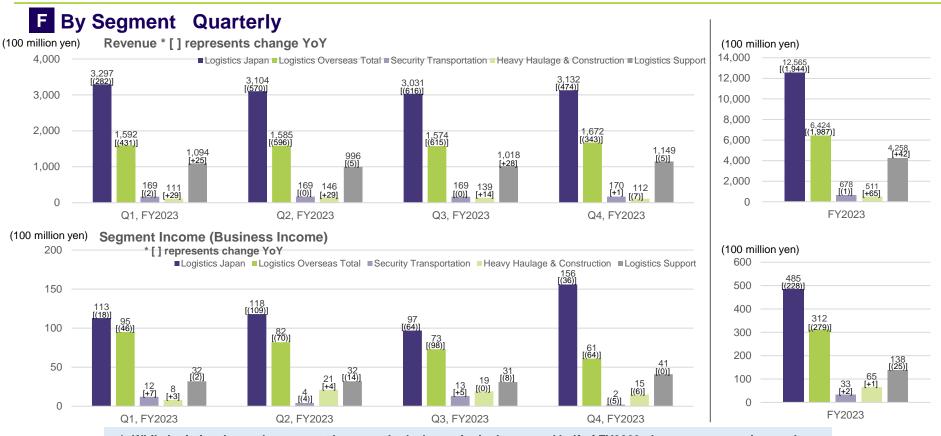

^{*}Figures represent the change in each quarter, indexing gross profit per TEU in Q1, 2022 at 100. (See Supplementary Materials on P.22 regarding trends since Q1, 2022) *Overseas segment total is calculated by converting into yen using the average exchange rate for each guarter. *Volume includes non-NVOC.

Business Performance Highlights Railway utilization business

While automobile industry-related volume remained flat, chemical products and other sectors showed no signs of recovery, and volume continued to decline overall.

Chartered truck business

Iron- and steel-related, electrical, and public-use declined; however, positive trends continued in automobile-related.

Warehousing and storage business

While revenues increased in connection with higher volume for pharmaceuticals/medical and operations at a new facility for automobile-related. At the same time, we saw a decrease in revenues of hygiene-related products.

In-factory business

Increase in revenues due to an increase in e-commercerelated facilities, etc.

Moving and relocation business

Decrease in the number of domestic and overseas relocations/moves. Relocation revenues declined due to fewer office-related projects.

Outsourcing Cost Ratio

Outsourcing cost ratio for Nippon Express in Japan (domestic business) remained lower than the cost ratio prior to the outbreak of COVID-19.

Subsidiaries Other Than Nippon Express

Decrease in volume for home appliances, electric precision instruments, and other cargo.

Strategy to Enhance Domestic Businesses in Japan

Major Initiatives

I. Improve Profits

- Pursue daily cost controls, continuing to leverage company strengths to the fullest and reduce outsourcing cost ratios
- Utilization ratio of company-owned vehicles through FY2023 (Jan-Dec) increased +0.2 points year on year. Revenue decreased (-13.6% year on year) due to a reactionary decline in international logistics; outsourcing cost ratio rose +4.9 percentage points year on year. (Calculated after deducting previous-year results at NXCL)
- At the same time, the outsourcing cost ratio for Nippon Express in Japan (excluding the impact of the forwarding business) remained -1.0 points lower compared with the cost ratio prior to the outbreak of COVID-19.
- We will continue to improve our margin ratio by maximizing company strengths and using company-owned vehicles.

Receive appropriate fees

- Rate revisions through FY2023 resulted in net sales impact of approximately 11.1 billion yen (Nippon Express).
- Strong efforts to receive appropriate fees resulted in a significant increase over the same period last year. Redoubled efforts in FY2024

Restructure branch operations companies

- Continue restructuring by region based on changes to roles, revenue, future prospects, and market trends.
- A total of 81 companies will finalize restructuring by the end of FY2025 (67 companies to be integrated into the parent or liquidated (18 companies, 32 companies, and 17 companies in FY2023, FY2024, and FY2025, respectively): 14 companies to remain as-is)

II. Improve Productivity

- Raise overall level of warehouse operations
- Develop and expand logistics human resources by implementing a three-tier education and training program to improve the overall level of warehouse operations.
- (1) Logistics Boot Camp: Education of core personnel to promote improved productivity in warehouse operations (FY2023 Participants: 18)
- (2) Logistics Academy: Improve work sites and KPI management through the training of logistics center managers. (FY2023 Participants: 117)
- (3) E-learning: Foster an understanding of standardization and improve business operations (all employees)

II. Improve Productivity (Continued)

- Automate, streamline office work
 - Pursued two pillars of RPA through FY2023: (1) RPA managed centrally by headquarters IT department and (2) RPA automation implemented at branches and sections. In FY2024 onward, we will integrate RPA tools into those tools managed centrally by the headquarters IT department to continue incorporating new technologies.
 - Reduction target for FY2023: Cumulative 2.150,000 hours (annualized)
 - FY2023 results: Cumulative 2.212.812 hours (vs. target: +62.812 hours)

III. Deepen Integration of Land, Sea, and Air

- Pursue cross-mode sales
 - Use systems to visualize unserved areas in existing customers; engage in sales in all branches throughout
 - Added 567 projects this fiscal year (cumulative).

IV. Strengthen Network Transportation Products

- Increased sales of railroad containers, air cargo containers
 - NX Train is now on sale and has been well received by customers; load rate of approximately 90%.
 - We are pursuing modal shift proposals for addressing the 2024 problem and decarbonization as transportation modes that will be effective in solving issues surrounding the future of logistics. We are also building backup transport systems in the event of natural disasters.
 - Sea & Rail sales growth FY2023: 9,795 tons (95.9% vs. the previous year)

Structural reform of the Moving & Relocation Business

- We revised rates for corporate client contracts, established sales quotas, and set up remote locations to ensure profitability and improve quality during the shopping season.
- We maintained and improved quality by improving unit sales prices and profitability via rate revisions and sales quotas that curbed the use of contract labor caused by excessive orders. We also improved quality through detailed quality training. (Ranked No. 1 in customer satisfaction (Oricon survey) for three consecutive years) FY2023 cumulative average NPS 56 points (+2 points year on year)

Strengthen and pursue Arrow Delivery Business

- Signed an agreement in February 2024 regarding the integration of the NX Group special combined delivery business with Meitetsu Transportation. The two entities will expand and solidify their businesses through a new structure that integrates the special combined delivery services of each.
- Increased sales of Protect BOX
 - Introduced new equipment matching customer needs to improve customer load rates. FY2023 Results 37,735 units (118.2% vs. the previous year)

H Business Structure Reform Project

~ Reform and Strengthen Businesses ~

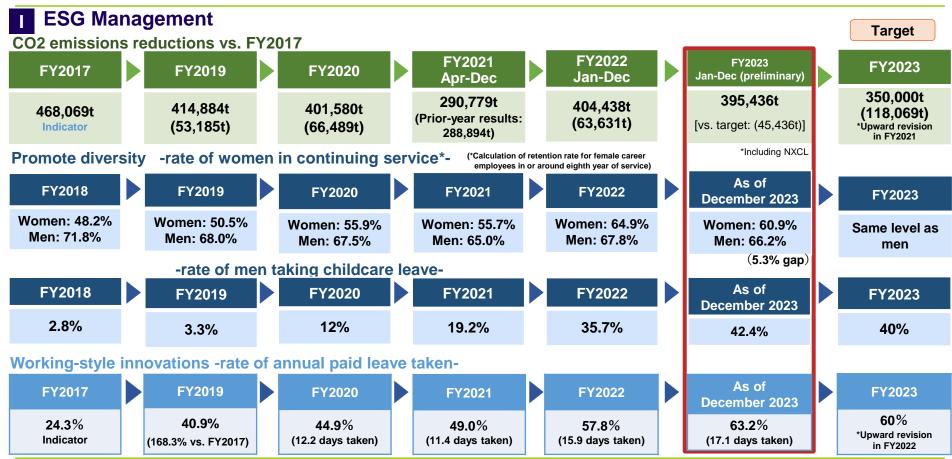

- (1) Logistics Division Reform
 - Define the functions required to launch new facilities as an initiative to provide optimal end-to-end logistics solutions. Established the Logistics Business Promotion Division in July 2023 as an organization providing overall direction.
- (2) Railway Utilization Business Reform
 - Develop market-in type products (expand Sea & Rail lineup) in coordination with coastal shipping, positioning these products as sustainable transportation addressing the 2024 problem and the era of decarbonization. Coordinate with coastal shipping in building a sales structure, force deployment, transportation equipment, etc., for modal combination.
- (3) Small-Lot Shipment Business Reform
 - We decided to conclude a basic agreement for the integration of the Nippon Express special combined delivery services and NX Transport with Meitetsu Transportation Co., Ltd.
 - The three entities will establish a new joint venture to expand and strengthen the special combined delivery service of the two groups.
- (4) Coastal Shipping Business Reform
 - Extend NX coastal shipping services across Japan (building a service connecting ports throughout the country) by expanding railway transportation and combining NX ship-based services. Coordinate with the railway utilization business.
- (5) Integrated Business Reform
 - As the size and nature of each market area differs in Japan, we recommend a review of the allocation of management resources according to area characteristics and the adoption of an internal company system, rather than a uniform, across-the-board system in Japan.

 We intend to reorganize branch operations companies according to role, profitability, future prospects, and changing market trends. We will continue to role according to role and changing market trends.
 - We intend to reorganize branch operations companies according to role, profitability, future prospects, and changing market trends. We will continue to reorganize by region, working toward a completion date of the end of FY2025.
- (6) M&A Strategy
 - Strengthen competitiveness of forwarding business from Asia (main battlefield) and enhance our ability to respond to market needs in each region tied to industries and businesses.
 - Established a dedicated PMI team within the Global Business Headquarters to strengthen our M&A implementation framework.

Consider the adoption of an internal company system to clarify the roles of each area and increase management flexibility

Expand and grow through optimized end-to-end logistics solutions and services that meet market and customer needs
