

News Release

Nippon Koei Energy Solutions Acquires Tractebel Engineering's Companies

— Enhancing Energy Consulting Capabilities Across Southeast Asia —

Nippon Koei Energy Solutions Co., Ltd. (Head Office: Chiyoda-ku, Tokyo; Representative Director and President: Hiroshi Yokota, hereinafter "NKES") a subsidiary of Integrated Design & Engineering Holdings Co., Ltd. (Head Office: Chiyoda-ku, Tokyo; Representative Director and President: Hiroaki Shinya), has acquired shares of Tractebel Engineering Co., Ltd. (Thailand) and PT Tractebel Engineering Indonesia (Indonesia), the associated companies of Tractebel Engineering S.A. Following the acquisition, these companies will be renamed Nippon Koei Energy Thailand Co., Ltd. (Head Office: Bangkok) and PT Nippon Koei Energy Indonesia (Head Office: Jakarta), respectively.

1. Background and Purpose

The global transition toward a decarbonized society is driving unprecedented business opportunities, expanding from developed economies to Asia, Latin America, and the Middle East. Among these regions, Southeast Asia is emerging as a key growth market for renewable energy, transmission and distribution infrastructure, and hydropower development.

Since 2017, NKES has been advancing battery storage and aggregation businesses in Europe. Building on this expertise, NKES is committed to expanding its energy solutions across Japan and Asia, with a strong focus on reinforcing its operational presence in Southeast Asia.

Tractebel Engineering S.A., headquartered in Belgium, is a leading global engineering company with a proven track record in energy-related consulting services worldwide. These two companies have earned high recognition and trust in Southeast Asia for their capabilities in feasibility studies, design, and supervision of renewable energy, hydropower, gas, and transmission and distribution projects.

To accelerate its Southeast Asia growth strategy, NKES has completed the acquisition of these two companies, securing a well-established regional base and highly experienced technical resources. This strategic move positions these companies to deliver greater value to clients and contribute to the region's sustainable energy future.

2. Overview
